

### **Hawa Badlo Movement to inspire school Students**

**H**awa Badlo is a movement against Air Pollution supported by GAIL (India) Ltd and its objective is to create awareness about the consequences of environmental contamination caused by human activity. It motivates the masses to inculcate air-friendly habits such as switching to CNG/electric vehicles, carpooling, and use of public transport. As individuals, there are multiple things one can do to save our planet, our environment and, indeed ourselves, Hawa Badlo intends to connect with school students in India and has launched an online Hawa Badlo School Warrior contest wherein students will be given a chance to showcase their creative views on Air Pollution by uploading short videos & art forms on advocacy against Air Pollution, problems of Air Pollution & solutions for curbing it on Hawa Badlo micro site [www.changetheair.org](http://www.changetheair.org). Hawa Badlo movement is also a step towards building a sustainable environment for the country and creating a meaningful difference. Hawa Badlo connects with the citizens to a single platform and protects human health and country from the effects of Air Pollution. GAIL India Ltd plans to support Hawa Badlo movement and empower the idea till it becomes a national movement.
