

DUSU prez to write to V-C on removal of 12 games from sports quota list

Press Trust in India
hindustantimes.com

NEW DELHI: Delhi University Students Union president Shakti Singh Tuesday said he will be writing to the viceroy, vice-chancellor, condemning the decision of removing 12 games from the sports list for students seeking admission under the sports quota.

These include 4-100 metres relay, yoga, powerlifting, softball, baseball, ball badminton and cycling, among others.

"Sports build confidence and personality of an individual. Every game should be given its due,"

The DUSU president said he will be writing a letter to the vice-chancellor against the decision of the standing committee of admissions.

According to a member of the standing committee, the decision was taken by the sports council and admissions committee of the varsity and then it was forwarded to them.

He said the decision was taken to only have sports and games that are part of Commonwealth Games, Asian Games and Olympics. Cricket, kho-kho and chess have been included in the list because of their popularity.

The varsity's physical education teachers had criticised the move and wrote a letter to chairman of the admissions committee to not remove the 12 sports and games.

DUSU PRESIDENT SHAKTI SINGH SAID HE WILL BE WRITING A LETTER TO THE VICE-CHANCELLOR AGAINST THE DECISION OF THE STANDING COMMITTEE OF ADMISSIONS

Rains washed away pollutants, thereby significantly improving the national capital's air quality on Tuesday.

Delhi's air quality improves after rain

Press Trust of India
hindustantimes.com

NEW DELHI: Rains washed away pollutants, thereby significantly improving the national capital's air quality which was in the 'moderate' category Tuesday, authorities said.

The air quality index (AQI) of the city was recorded at 138 on Tuesday according to the System of Air Quality and Weather Forecasting and Research Institute (SAFAR), while the Central Pollution Control Board recorded Delhi's AQI at 147.

An AQI between 0 and 50 is considered 'good', 51 and 100 'satisfactory', 101 and 200 'moderate', 201 and 300 'poor', 301 and 400 'very poor', and 401 and 500 'severe'.

The overall air quality in Delhi was in the 'moderate' category due to rains.

The level of PM2.5 (particles in the air with a diameter of less than 2.5 micrometres) was recorded at 64 and PM10 at 156, the SAFAR said.

"Air quality will improve further and touch satisfactory by Wednesday due to cloudy sky and light rains/thunderstorm. However, System of Air Quality Weather Forecasting and Research (SAFAR) model predicts that AQI may deteriorate to 'poor' by May 17 as upper winds are likely to be favourable to bring some impact of stable burning from north India which are at its peak, as per the fire counts. However, unlike winter, winds are fast enough to disperse the pollutants quickly," the SAFAR said.

Delhi's air quality was oscillating between 'very poor' and 'severe' for the last few days due to a dust storm in northwest India which led to a sharp increase in the PM2.5 level.
