Significant estimate and judgement involved in the recognition of the impairment and its reversal requires a determination of future taxable income based on the Company's expectations for the arrival of value in use based on the discounted cash flow method to be compared with the fair value to arrive at recoverable amount of PPE, ROU assets and CWIP.

The reversal of impairment loss made to Property, Plant and Equipment, Right of Use Assets and CWIP amounted to ₹ 3,191.46 Lakhs to the carrying value.

Refer to the accounting policies in "Note 1A- 13 to the Financial Statements: Material Accounting Policies –Taxes on Income" and "Note 6 to the Financial Statements: Deferred Tax Assets(net)"

Significant estimate and judgement involved in the recognition of deferred tax assets require a determination of future taxable income based on the Company's expectations. The assessment of realizability of deferred tax assets is based on a reasonable and supportable evidences and certainty test, depending on the composition of the deferred tax assets.

Given the Company's recent financial performance, we identified recognition of deferred tax assets as a key audit matter because of the significant management judgement and assumptions involved in estimating the future taxable income based on the income forecasts approved by the Company's Management.

Our key audit procedures included:

- Assessing the design, implementation, and operating effectiveness of management's key internal financial controls over the recognition of deferred tax assets.
- Obtaining details of different components of deferred tax assets and details of estimates of taxable incomes for future periods as approved by the Management.
- Evaluating the management assessment relating to the amendment in Income Tax Act and its consequential impact on items that qualify for recognition of deferred tax assets.
- Evaluating the management assessment for estimating availability of future taxable profits for determination of recognition of deferred tax assets.
- Assessing the period over which the deferred tax assets would be recovered against future taxable income.
- Evaluating the Company's actual performance vis-à-vis the budgets for the current and past years and discussed with management their basis and assumptions in respect of evidence to support that there will be sufficient taxable income to absorb the deferred tax asset.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we are not expressing any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors responsible for the matters stated in Section 134(5) the Act with respect to the preparation and presentation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies
 Act, 2013, we are responsible for expressing our opinion on whether the company has adequate
 internal financial controls system with reference to financial statements in place and the
 operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Internal Financial Controls Over Financial Reporting under clause (i) of subsection 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of GAIL Mangalore Petrochemicals Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (The "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI'), prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of Management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

Level | inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level II inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level III inputs are unobservable inputs for the asset or liability.

Note 40: Financial Risk Management Policy

Financial Risk Management Objective and Policies:

The Company's principal financial liabilities, other than derivatives, comprise of loans and borrowings, trade and other payables and advances from customers. The Company's principal financial assets include loans and advances, trade and other receivables and cash and bank balances that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board provides written principles for overall risk management as well as policies covering specific areas such as foreign exchange risk, interest rate risk, credit risk, the use of derivative financial instruments and non-derivative financial instruments, and the investment of excess liquidity. The Company does not enter into or trade financial instruments, including derivatives for speculative purposes.

i) Market Risk

Market risk is the risk that the fair value of future cash flows of financial assets will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial Assets affected by market risk include loans and borrowings, deposits and derivative financial instruments.

a) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to loan from holding company with floating interest rate linked to RBI Reportate as disclosed in Note 15.

Sensitivity Analysis

Term loan obtained from Holding company has a variable element of interest rate and outstanding balance of which as at the year-end is 8s. 147600.00 Lakhs (Previous Year: Rs. 147600.00 Lakhs). However, as the loan has been obtained for revival of the PTA Plant which is under construction, interest is capitalized as a part of Capital work in progress. Therefore, there is no impact on the Company's profit before tax during the year-ended 31.03 2025 and 31.03.2024.

b) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

c) Commodity Price Risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the purchase major machineries, equipments etc. The Company primarily purchases its raw materials and capital goods in the open market from third parties. The Company is therefore subject to fluctuations in prices for the purchase of these commodities.

Therefore, the Company plans its purchases closely to optimise the price. Further since the products are of a specific nature which does not entail competition and is heterogeneous in nature due to its specification, the company's exposure to commodity risk is minimal.

ii) Liquidity Risk

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk may arise from an inability to sell a financial asset quickly at a rate close to its fair value. The Company requires funds both for short term operational needs as well as for long term capital expenditure growth projects.

The Company depends entirely on infusion of equity funds by the holding company which provides liquidity in the short-term and long-term and manages the liquidity risk by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities as depicted below:
