

Synergy for Green Energy

ANNUAL REPORT 2021-22

Energizing Possibilities

Synergy for Green Energy

The world's growing concerns regarding global warming and climate change call for a concerted global transition to sustainable energies. As an Energy Leader, GAIL has been playing a significant role in India's energy security with a focus on clean & affordable fuels. GAIL's relentless pursuit to expand Natural Gas network in India continues to yield visible results in shape of CGD reaching new towns and cities. The Company has further opened up its energy basket with forays into Wind, Solar, CBG and Hydrogen towards shaping a greener future for our coming generations. With this 'Synergy with Green Energy', GAIL ushers in the winds of change towards a better world.

MESSAGE FROM CMD

“Your Company believes in benefitting communities and protecting the environment that will ultimately determine the sustainability of continued progress.”

Manoj Jain

Chairman & Managing Director

Dear Shareholders,

Global events that unfolded during the previous year have the potential to alter the structural landscape of the energy sector and by all standards, the year gone by has been a challenging one for energy and commodity sectors, which witnessed extreme volatility in prices. Adding to it, as COVID-19 restrictions around much of the world are relaxed and economic activity recovers, energy consumption is expanding sharply, putting available energy supplies under strain and highlighting fragilities in the system. Your Company has successfully steered its course during this demanding period, emerging only stronger and resilient.

Unprecedented growth in times of global uncertainty and turmoil

Despite the global uncertainty and testing times, your Company has yet again surpassed its previous records and clocked a 62% increase in Revenue from Operations to ₹ 91,646 crore in FY22 as against ₹ 56,738 crore in FY21, Profit Before Tax (PBT) increased by 113% to ₹ 13,590 crore in FY 22 as against ₹ 6,386 crore in FY21. The Profit After Tax (PAT) increased by 112% to ₹ 10,364 crore in FY22 as against ₹ 4,890 crore in FY21 mainly on account of increased gas marketing and transmission volume, better gas marketing spread and higher product prices. Your Company has exceeded the highest ever Revenue, PBT and PAT achieved in any of the previous financial years.

Your Company has been working tirelessly to strengthen its core business and today owns and operates about 14,500 km of trunk natural gas pipeline representing nearly two-third of the country's existing network. Work is progressing at a good pace on construction of nearly 5,000 km of additional natural gas pipelines, which is expected to bolster transmission quantities once completed and provide extensive geographical reach within the country. Your Company is also actively scouting additional gas sourcing opportunities to serve its clientele, both existing and new accretions. To stimulate and fortify core business, in particular, your Company incurred a Capex of ₹ 7,738 crore mainly on Pipelines, Petrochemicals and Equity to JVs. You will also be delighted to know that your Company has acquired 26% stake from ILF&S in ONGC Tripura Power Company. This acquisition would encourage synergy and enable GAIL to stronghold its presence in North East region of the country.

Your Company is also aware of the transformational changes happening in the global energy sector and has been taking initiatives to get a foothold in such space. It is my honor to announce that your Company has, in line with the National Hydrogen Mission commenced India's first-of-its-kind project of mixing hydrogen into natural gas system at Indore, Madhya Pradesh. The hydrogen blended natural gas is being supplied to Aavantika Gas Limited, one of GAIL's Joint Venture (JV) Company with HPCL, operating in Indore. This project marks the stepping stone of India's journey towards hydrogen based and carbon neutral future. The grey hydrogen would subsequently be replaced by green hydrogen. Your Company has always been committed to the growth of a gas-based economy in India and to

India's vision of a greener and a cleaner environment. As our country is moving forward with ambitious goal of achieving a carbon-neutral and self-reliant future, this project is a significant step in that direction.

Growth and returns go hand in hand

The support of our shareholder has been consistently rewarded through regular dividends and also buyback of shares at premium. Your Company takes pride in being a consistent dividend-paying Company. The Board of Directors of your Company had approved payment of two interim dividends during the financial year, 1st and 2nd Interim Dividend @ 40% and 50% respectively on equity share of ₹ 10 each (₹ 4.00 and ₹ 5.00 per equity share each) amounting to ₹ 3,996.35 crore on the paid-up equity share capital of the Company. The Board of Directors of your Company has also recommended the payment of Final Dividend @ 10% (₹ 1/- per equity share) for the FY 2021-22 on the paid-up equity share capital of the Company.

During FY 2021-22, your Company made Buyback of 5,69,85,463 (Five Crore Sixty Nine Lakh Eighty Five Thousand Four Hundred And Sixty Three) fully paid-up equity shares of face value of ₹ 10 each (representing 1.28 % of the total number of fully paid-up equity shares) at a price of ₹ 190 (Rupees One Hundred Ninety Only) per equity share payable in cash for an aggregate consideration of ₹ 1082,72,37,970 (Rupees One Thousand Eighty Two Crore Seventy Two Lakh Thirty Seven Thousand Nine Hundred and Seventy only) excluding taxes. Buyback offer was successful and oversubscribed by 9.04 times. Total number of Shares tendered were 51.52 crore against 5.69 crore shares offered. The paid-up equity share capital of the Company thus reduced from ₹ 4,440.39 crore to ₹ 4,383.40 crore.

Endeavors for the collective good

Your Company believes in benefitting communities and protecting the environment that will ultimately determine the sustainability of continued progress

Your Company with a turnover over US \$ 12 billion is India's largest natural gas Company and ranked as the top gas utility in Asia. But GAIL is more than just a gas Company. As a conscious corporate citizen, the organization believes that it has a social purpose. The rigor and strategic thought that drives GAIL to be consistently ranked among the top gas utilities in the world, also drives its CSR initiatives. GAIL's motto statement 'Energizing Possibilities' is also a reflection of the hopes, aspirations and dreams of the many beneficiaries of the CSR initiatives. Your Company is at the forefront of countless welfare projects that further its CSR objectives namely through ventures like GAIL Utkarsh-which provides support for specialized residential coaching for Engineering/ Medical entrance exams, GAIL Vidya- which provides support towards promoting education to underprivileged girl students from rural and semi-urban localities, Project Arogya- Health Care facilities through operation of Mobile Medical Units in various states etc. The Company is always dedicated

towards CSR activities and has spent more than the prescribed CSR budget in last three financial years in a wide array of fields including health, education, environment and fitness.

Onwards and upwards

Your Company in a first-of-its-kind endeavor in the country plans to enter into distributed LNG production with the vision to cater to the demand from off-grid locations and the transport sector. With these goals in mind your Company has placed an order for two small-scale liquefaction skids capable of producing LNG on a pilot basis. Liquefaction will be achieved through proprietary technology-based mobile liquefaction skids. This in turn shall help in the distribution of natural gas through liquefaction in new cities areas, liquefaction of gas at isolated fields and will support setting up of LNG fueling stations and bunkering. It will be the first-of-its-kind in the country to introduce portable and scalable liquefaction units. Further, your Company is also under discussion for manufacturing liquefaction skids in India.

The future is green

With its existing LNG portfolio of over 14 MMTPA and diversity in supply sources and price indices, GAIL is well poised to cater to the needs of its customers. While, additional gas sourcing opportunities are being scouted to further consolidate the gas portfolio and strengthen the core business, so as to, actively contribute towards the national goal of a 'gas-based' economy, your Company has also embarked upon alternate energies like green hydrogen, renewables and bio-fuels projects which are of national importance and would likely provide a transition to the future.

In line with Government of India's 'National Hydrogen Energy Mission', your Company is setting up a Green Hydrogen Production unit with a capacity of 4.3 Ton per day at Vijaipur (M.P.). The unit will produce Green Hydrogen using Polymer Electrolyte Membrane (PEM) technology based on water electrolysis. Also, study on technical feasibility of H₂ blending in NG/CGD network has been initiated.

Further, your Company has also taken few initiatives in line of Compressed Bio-Gas (CBG) such as (i) 24 TPAs executed with City Gas Distribution (CGD) & CBG producers – Gas supply commenced to 6 GAs; (ii) MoP&NG has mandated GAIL for operationalization of CBG CDG synchronization for usage in CNG(T) and PNG(D); (iii) Support

announced for 400 CBG plants and consequently 253 LOIs for CBG plants issued.

Your Company is setting Up 10 MW PEM Electrolyser for producing Green Hydrogen and has also entered into MoU with Gujarat Alkalies and Chemicals Limited (GACL) to explore the feasibility of setting up 500 KLPD Bio Ethanol Plant in Gujarat and other business opportunities related to petrochemical/chemical plant, solar and wind assets.

Your Company has also taken initiatives for development of solar energy such as (i) MOU with BHEL for development of solar power projects; (ii) Opportunities explored for manufacturing of solar cells/modules; (iii) collaborated with International Solar Alliance (ISA) as a corporate partner.

Acknowledgement

Before I conclude, on behalf of the Board of Directors, I wish to convey our sincere regards and deep gratitude to our valued stakeholders for continued support and trust. You always have been the motivational force that has facilitated us to move ahead and achieve targets despite the numerous challenges. I also put my heartfelt appreciation for all GAIL employees who took on a courageous responsibility with a commitment to ensure energy and feedstock supplies even during the worst COVID-19 situation. They are the backbone of this Company and they have put their best effort day after day to transform your Company and to make it more competitive.

I would like to conclude by saying that your Company is not only resilient enough to go through this tough time but also ready to shape the energy future. We will keep working to make a difference in your life and to enhance the quality of your life through clean energy and beyond.

Thank you,

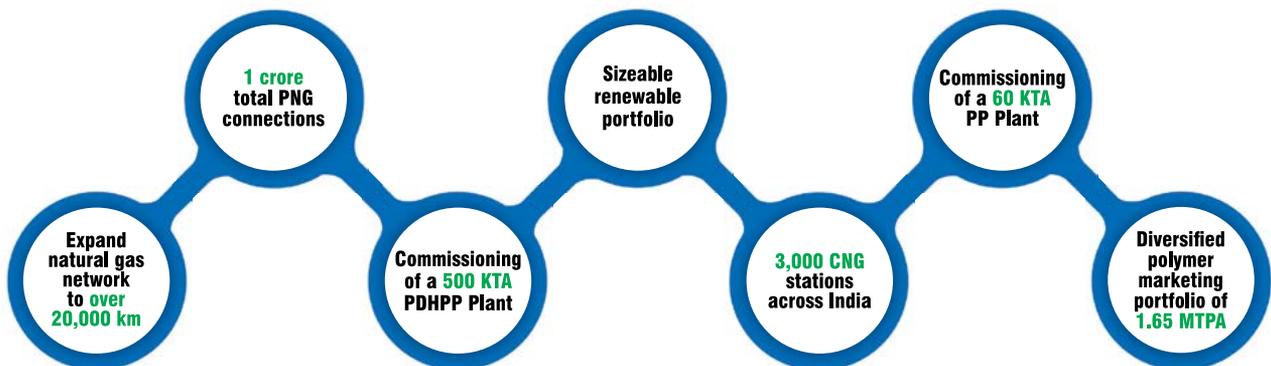

Manoj Jain

Business Overview

1. Pipeline Transmission

• Natural Gas Transmission

Your Company has expanded the network of Natural Gas pipeline to 14,500 km across the length and breadth of our country. The average gas transmission through this network during FY 2021-22 was 110.98 MMSCMD vis-à-vis 104.20 MMSCMD in the previous financial year. The share in country's Natural Gas Transmission is 68%. Revenue from operations from Natural Gas Transmission in FY 2021-22 was ₹ 6,392 crore as against ₹ 5,952 crore in FY 2020-21.

• LPG Transmission

Your Company owns and operates 2,023 km LPG pipeline network namely the Jamnagar-Loni Pipeline (JLPL) and the Vizag-Secunderabad Pipeline (VSPL). JLPL and VSPL networks together achieved a throughput of 4.199 MMTPA during the FY 2021-22 against 4.163 MMTPA in the previous FY 2020-21. Revenue from operations from LPG transmission in FY 2021-22 was ₹ 669 crore as against ₹ 667 crore in FY 2020-21.

2. Natural Gas Marketing

During FY 2021-22, your Company clocked a sales figure of 96.24 MMSCMD (which included sales within India of 86.55 MMSCMD and overseas sales of 9.69 MMSCMD) as against 89.20 MMSCMD (which included sales within India of 80.28 MMSCMD and overseas sales of 8.91 MMSCMD) during FY 2020-21. Revenue from operations from Natural Gas Marketing in FY 2021-22 was ₹ 77,326 crore as against ₹ 43,846 crore in FY 2020-21. The share in country's Domestic Gas Marketing is 53%.

3. Petrochemicals

During FY 2021-22, your Company recorded a total production of 777 KTA against a total production of 813 KTA in the FY 2020-21 and sales of 790 KTA in FY 2021-22 as against total sales of 871 KTA in the FY 2020-21. There was a decline of 4.5% in total production and a decline of 9.2% in total sales as compared to previous FY 2020-21. However, your Company was able to earn highest ever Revenue from Operations of

Hon'ble Prime Minister, Shri Narendra Modi dedicated the Bokaro-Angul Natural Gas Pipeline to the Nation

₹ 8,549 crore, from this segment due to higher Polymer Price realization in FY 2021-22 as against ₹ 7,061 crore in FY 2020-21.

4. LPG and Other Liquid Hydrocarbon

Your Company has five Gas Processing Units (GPUs) at four locations in the country having a total LPG & LHC production capacity of 1.4 Million MT. During FY 2021-22, total liquid hydrocarbon production from GPUs was about 1.0 Million MT as against 1.14 Million MT in FY 2020-21, of which almost 91% constitutes LPG and Propane. Revenue from Operations from Liquid Hydrocarbons in FY 2021-22 also improved to ₹ 4,865 crore as against ₹ 3,294 crore in FY 2020-21.

5. Exploration and Production (E&P)

Your Company has participating interest in 13 E&P blocks of which 10 are in India, 2 blocks in Myanmar and 1 Shale Gas JV in Eagle Ford Basin, Texas, USA (through wholly-owned subsidiary - GGU). Out of these, GAIL is an Operator in three onland blocks viz. (i) CB-ONN-2010/11 and CB-ONHP-2017/12 in Cambay basin awarded during NELP-IX and OALP-I bidding rounds respectively and (ii) block RJ-ONHP-2021/1 in Rajasthan basin recently awarded during OALP-VII bid round. The twelve E&P blocks (excluding Shale Gas in Eagle Ford Basin) hold an acreage of 2,656 km² as per its Participation Interest (P.I.) in various consortiums.

Revenue from the sale of hydrocarbons is being generated from 5 producing blocks namely A-1 & A-3 in Myanmar and CB-ONN-2000/1 & CB-ONN-2003/2 (Cambay onshore blocks) in India and one (1) shale gas JV acreage in Eagle Ford Basin, Texas, USA.

Revenue from Operations of ₹ 833 crore has been generated from E&P activities during FY 2021-22 as against ₹ 838 crore in FY 2020-21.

6. Renewable Energy

Customer Relationship

Customer loyalty and satisfaction are at the heart of your Company's business and is highly essential for its long-term growth. GAIL reviews its strategies, redefines its approaches and undertakes business initiatives focused on providing better services. It believes in keeping its customers informed about the business operations to build lasting relationships and ensure better customer satisfaction.

- **Customer Engagement and Satisfaction**

Customer engagement is how you build trust and relationships with your customers and adopt a strategy to keep them content and satisfied. Your Company engages with its customers across the year via various platforms. It aims at providing a satisfactory customer experience and undertaking appropriate customer-centric initiatives as a part of its engagement programmes. Such initiatives enhance the credibility of GAIL's brand in the long run and help it reach out to potential customers.

Your Company is dedicated to build personal rapport and a healthy relationship with its customers to ensure customer satisfaction. For GAIL, it is crucial to analyse how its offerings are meeting or exceeding customer expectations. Meeting these expectations is an essential part of business growth and aids in rapidly developing its customer base and improving its reputation.

Your Company conducts two types of surveys to capture the feedback from customers on product quality and services offered. One is the Customer Satisfaction Index (CSI), which is an in-house attempt to collect the feedback from customers. A link is provided to all active customers to their registered email-id. Customers share their feedback on various parameters on quality and services. Their feedback is collected through SAP and analyzed. The observation is mitigated promptly and appropriately and there after customers are informed to complete the loop.

Second type is Customer Value Management (CVM) wherein the feedback from Customers are collected by a third-party evaluating agency. Customers are requested to respond to a set of questions and their feedback is recorded. This feedback is further analyzed by the agency and presented to your Company's Management. Customer concerns are discussed and deliberated and a corrective action plan is institutionalized.

Further, your Company is also a part of the Centralized Public Grievance Redressal and Monitoring System (CPGRAMS). This system is aimed at providing the citizens and the public at large with a platform for redressal of their grievances, where complaints are directly received by the Ministry of Petroleum and Natural Gas (MoP&NG). During FY 2021-22, a total of 201 public grievances were received and all were resolved.

- **Customer Privacy and Grievance Redressal**

Customer privacy is a more important issue today than ever before, as people are spending more time online. Matters such as protecting data, using information/data for the actual planned purpose, maintaining confidentiality and avoiding information theft or misuse are all part of customer privacy.

In addition to effectively protecting customer data, your Company focuses on delivering customer service while realising the significance of reachable and helpful grievance mechanisms. It has a reliable grievance redressal process and any concern or dissatisfaction that its customers may have can be resolved effectively. After getting the feedback from its business units, GAIL aims at addressing the issue and resolving it as soon as possible.

MoU Performance

A Memorandum of Understanding (MoU) is signed every year between your Company and its administrative ministry i.e., MoP&NG,

to assess and enhance performance of Company through the targets set therein. The MoU for FY 2021-22 was signed between Secretary (P&NG), Government of India, and CMD of your Company.

MoUs of CPSEs are finalized to assess CPSEs' organizational efficacy, economic performance, competitiveness, and usefulness in the commercial place. MoU 2021-22 was signed in line with Government's priorities in developing the natural gas sector in the country. Apart from financial parameters, MoU parameters also include parameters of strategic national importance like capital expenditure in Research & Development sphere. For the MoU 2021-22, a new parameter-improvement in Market Capitalization was included.

The evaluation of MoU of your Company for FY 2021-22 is under process. Evaluation of MoU for FY 2020-21 has been completed by DPE and GAIL has achieved a score of '80.87', which corresponds to 'Very Good' rating.

During FY 2021-22, Foreign exchange inflows were ₹ 20,326 crore and Foreign Currency outflows were ₹46,843 crore.

Board of Directors and Key Managerial Personnel

The following changes occurred in the Board of Directors / Key Managerial Personnel of your Company during the FY 2021-22:

Appointments:

- Dr. Navneet Mohan Kothari, Government Nominee Director w.e.f. 16.06.2021
- Shri Akhilesh Jain, Independent Director w.e.f. 08.11.2021
- Shri Sanjay Kashyap, Independent Director w.e.f. 17.11.2021
- Dr. Nandhagopal Narayanasamy, Independent Director w.e.f. 17.11.2021
- Smt. Kangabam Inaocha Devi, Independent Director w.e.f. 18.11.2021
- Prof. Dr. Ravikant Kolhe, Independent Director w.e.f. 22.11.2021
- Shri Sher Singh, Independent Director w.e.f. 22.11.2021
- Shri Rakesh Kumar Jain, Director (Finance) and CFO w.e.f. 01.12.2021
- Shri Deepak Gupta, Director (Projects) w.e.f. 12.02.2022

Cessations:

- Shri Ashish Chatterjee, Government Nominee Director upto 31.05.2021.
- Smt. Banto Devi Kataria, Independent Director upto 05.08.2021
- Shri Anjani Kumar Tiwari, Director (Finance) and CFO upto 30.11.2021
- Smt. Usha Suresh, Government Nominee Director upto 31.01.2022

The Board placed on record its deep appreciation for the valuable services rendered by outgoing Directors during their association with your Company.

Shri E S Ranganathan was holding the post of Director (Marketing)-GAIL w.e.f. 01.07.2020 and is presently placed under suspension by President of India vide letter no. C-31022/1/2022-VIG-PNG dated 18th January, 2022.

Independent Directors' Declaration

The Company has received necessary declaration from Independent Directors in accordance with Section 149(7) of the Companies Act, 2013 and Regulation 25(8) of the SEBI (LODR) Regulations, confirming that:

- They meet the criteria of independence as laid out in Section 149(6) of the Act and Regulation 16(1) (b) of the SEBI (LODR) Regulations.
- They have registered themselves with the database of Independent Directors maintained by the Indian Institute of Corporate Affairs under the Ministry of Corporate Affairs.

Familiarization Program for Independent Directors

The details of Independent Directors' training/familiarization

programmes are available on the Company's website at <https://www.gailonline.com/pdf/InvestorsZone/GAILfamiliarizationprogram23032022.pdf>

Code of Conduct

Pursuant to the requirements of SEBI (LODR) Regulations, 2015 and DPE Guidelines on Corporate Governance, the Board Members and Senior Management Personnel have affirmed compliance with the Code of Conduct for the financial year ended 31st March, 2022.

Insolvency and Bankruptcy Code, 2016

No application has been made under the Insolvency and Bankruptcy Code; hence the requirement to disclose the details of the application made or any proceeding pending under the Insolvency and Bankruptcy Code, 2016 (31 of 2016) during the year along with their status as at the end of the financial year is not applicable.

Information Systems and Technology

Your Company has always been at the forefront in the adoption of new technology solutions for the continual improvement in its business processes. With a vision to be a digitally empowered organization for operational excellence and stakeholder value creation, it has adopted several path-breaking technologies in its technology stack. State-of-the-Art Energy Trading and Risk Management (ETRM) system has been implemented in energy trading which has given complete visibility of the business segment under one platform. Hyper-Convergence Infrastructure-based Private Cloud setup with the latest software and highest level of reliability, availability and efficiency has been established to cater to the business workload.

During the unprecedented COVID-19 pandemic, employees were given the facility to work from home and advised to strictly follow Government guidelines w.r.t COVID-19. Your Company could function well with the help of several technological solutions like collaboration and virtual meeting platform, e-Note-sheet, Secure access of systems for remote working, Online transactions, Mobile Apps, etc.

Your Company has seamlessly integrated its ERP system with several external applications such as (i) Bharat Bill Pay System (BBPS) for receipt of payment from PNG customers, (ii) Government e-Marketplace (GeM) portal for exchange of PO, Bill and Payment details, (iii) GSTIN portal for submission of monthly GSTIN returns, (iv) TCS, e-Invoicing and e-Way bill portal for online and end-to-end integration with Statutory System (v) Gas trading platform of IGX for invoicing and payment (vi) Banks for auto-reconciliation, etc. for faster and reliable exchange of information. Your Company adopted digital way to conduct board and committee meetings "**G-Board Portal**" (Paperless platform for GAIL's Board/Committee Meetings).

Your Company has adopted Robotic Process Automation (RPA) technology for easing out repetitive tasks in very large volumes. Similarly, GAIL has developed several Mobile Apps for employee claims processing, payment gateway for receipt from employees. other Business Transactions as well as Reporting functionalities to facilitate ease of use and access through handheld devices. Your Company has introduced centralised processing of Invoicing for NG trading & NG transmission and centralised employee claim processing. These implementations have resulted in enhanced productivity, efficiency and accuracy in the workplace.

Your Company has implemented several web-based applications like (i) Risk Management System to monitor key risks and their mitigation plans, (ii) Online verification of documents of candidates, (iii) Jahajrani Web application for tracking various post-award activities of contracts, etc. for enhancing the transparency and completeness of business processes.

In the CGD segment, your Company has implemented CGD DPR Mobile App for monitoring penetration of PNG and CNG facilities by

its JVs/ subsidiaries. App-based CGD Meter Reading functionality, as well as BBPS based payment system, has provided a lot of convenience to the CGD customers.

Your Company has enhanced its Cyber Security portfolio with the addition of several modern Cyber Security solutions to protect its Information assets.

Your Company is in the process of upgrading the Centralized SCADA system with the latest technology for monitoring and controlling of the cross-country NG & LPG pipelines.

GAIL in service of the Nation amidst the Second and Third-wave of the Pandemic

During FY 2021-22, your Company braved the odds and managed to overcome the adversities caused by subsequent COVID waves by maintaining uninterrupted and safe operations of its pipeline systems and ensured 100 % uninterrupted availability of Natural Gas and LPG to all the essential sectors in the country. Your Company believes in producing a positive, sustainable impact for both society and for the business itself and has achieved an overall HSE score of 97.18 for the FY 2021-22.

Your Company's gas transmission and gas marketing volumes exceeded the previous financial year's figure. While the sales in major anchor sectors largely remained unaffected, gas sales in the CGD sector had shown some weakness in the first quarter due to a lack of demand from CNG, commercial and industrial consumers. But with constant efforts, your Company was able to better the previous financial year's performance in the CGD sector. It is worth mentioning that, despite pandemic-induced fear and people's reluctance to allow technicians inside their homes for PNG connections, your Company along with its JVs and subsidiaries have achieved record PNG connections of more than 11.50 lakh households during the FY 2021-22.

In Petrochemicals, your Company has produced 777 TMT of polymers and made sales of 790 TMT during the financial year, in the face of supply chain disruptions. With the easing of COVID restrictions, the progress of the projects was accelerated and your Company could achieve completion of various sections of pipelines contributing to and expanding the reach of Natural Gas Grid to newer geographies.

Being a responsible business entity, your Company worked diligently for hiring ISO containers for importing liquid oxygen during the peak period of the second wave of COVID-19. Additionally, your Company also supported towards setting up of 12 Pressure Swing Absorption (PSA) medical oxygen generation plants at different hospitals in India including Uttar Pradesh, Madhya Pradesh, Rajasthan & Karnataka.

Directors' Responsibility Statement

Your Directors confirm that they have:

- i) followed applicable accounting standards, along with proper explanation relating to material departures in the preparation of the annual accounts for the financial year ended March 31, 2022;

- ii) selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit of the Company for the year under review;
- iii) taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013, for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- iv) prepared the annual accounts for the financial year ended March 31, 2022 on a going concern basis;
- v) devised proper systems to ensure compliance with the provisions of all applicable laws and such systems were adequate and operating effectively; and
- vi) laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and are operating effectively.

Acknowledgment

Your Directors express their gratitude for the help, guidance and support received from the Government of India, especially the Ministry of Petroleum and Natural Gas as well as the various State Governments, regulatory and statutory authorities.

Your Directors acknowledge the constructive suggestions received from Comptroller and Auditor General of India and Auditors, and are grateful for their continued support and cooperation.

Your Directors also thank all the shareowners, business partners, and members of the GAIL family for reposing their faith, trust and confidence in your Company.

All that we have achieved would not have been possible without the relentless and focused efforts of your Company's employees; we place our deep appreciation for their commitment.

Your Directors and employees look forward to the future with confidence and stand committed towards creating a mutually rewarding future for all stakeholders.

MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE & DEVELOPMENTS

A. Global Energy Sector

The year 2021 was a significant year in terms of the energy context as it marks a revival from the COVID-19 pandemic that had seen energy levels plummeting. Following recovery from the COVID-19 shock, investments in the energy system have steadily started to grow, and it is roughly 10% more than the investment of the previous year. The current geopolitical crisis has also impacted the Global Energy Sector and has emphasized that for achieving energy security, diversification of energy supplies is essential for countries across the globe.

Post COP-26 (Conference of the Parties), Governments across the globe are working towards tackling climate change with focus on implementing various low-carbon energy systems like renewables, electric vehicles, blue and green hydrogen projects, Carbon Capture Utilization & Storage (CCUS) etc. As per BP outlook on World Energy 2022, the share of renewable energy in global primary energy mix is expected to increase. However, the share of fossil fuels will also remain prominent in the overall primary energy mix and will continue to be the focal point responsible for social and economic development around the world in the nearby decades. Renewables at this moment cannot totally replace the use of fossil fuels, mostly because of the variance in the availability of energy source round the clock and requirement of huge capex and resources for creation of new infrastructure. Natural gas being the cleanest fossil fuel plays an important role in energy transition acting as bridging fuel. Natural gas can meet growing demand for clean, affordable energy with limited deployment of capital and significant impact on emissions.

B. Global Gas Sector

As the global economy continues a recovery from the COVID-19 pandemic, energy prices and its availability are an impediment in its revival. The pandemic brought about a historic drop in energy demand and prices. Post pandemic, the recovering demand has strained the fossil fuel markets for oil, gas and coal.

A combination of robust demand, stiff Asian competition for LNG imports (especially China due to coal crisis), current geopolitical crisis, relatively low inventories at the start of the winter heating season have caused a short term natural gas supply crunch.

As per BP Statistical review, the Natural Gas consumption for the last 5 years is given below:

Year	2017	2018	2019	2020	2021
Consumption (in bcm)	3,654	3,837	3,903	3,822	4,038

From the figures it can be seen that the total natural gas consumption across the years has maintained a steady growth rate of ~3% per annum during the pre-COVID phase, while the year 2020 saw a decline in the consumption due to lockdown imposed by nations across the world.

Also, from the LNG import figures tabulated below LNG is going to play a key role in the next few years as Natural Gas is

going to get a bigger share in the world's energy basket.

Year	2017	2018	2019	2020	2021
LNG import (in bcm)	393	431	484	487	516
% growth	-	9.67	12.3	0.62	5.95

The pre-COVID phase saw a healthy growth rate in the LNG import figures, however the growth rate took a dip in year 2020 due to COVID -19 and though we have seen a rise in the figure this year it has not yet reached the growth rate attained during pre-COVID time.

As natural gas pricing in the near future is dependent on demand destruction economics (coal to gas switching), consumers switching to long term contracts shall stand to benefit more than spot contracts as it will hedge against price volatilities and provide them flexibilities as they are able to secure gases at competitive pricing. Suppliers also stand to benefit from long term contracts as it helps them secure financing from banks.

As per IEA report, annual global energy investment is set to rise to USD 1.9 trillion in year 2021 rebounding nearly 10% from year 2020 and bringing the total volume of investment back towards pre-COVID levels. The attractiveness to invest in renewables and batteries will remain and the growth in global gas demand is expected to grow steadily and peak in year 2035 post which scenarios is expected to change driven by increasing decarbonization pressures.

C. India Energy Sector

India has seen extraordinary success in its recent energy development, but many challenges remain, the COVID-19 pandemic and the current uncertainties in the global market has been a major disruption.

India is the world's third-largest energy consuming country. Energy use has doubled since year 2000, with 80% of demand still being met by coal, oil and solid biomass. On a per capita basis, India's energy use and emissions are less than half the world average (Source-IEA). As India recovers from a COVID-induced slump in year 2020, it is re-entering into a very dynamic period in its energy development journey.

As per FY 2021-22 Economic Survey, fossil fuel-based energy still outpaces the year-on-year growth of any other energy source in the country. Thermal sources of energy account for the largest (61.42%) share of total installed capacity in utilities followed by renewable energy with 24.7% and hydro at 12.09%. Coal is the most important and abundant fossil fuel in India and accounts for 55% of the country's energy needs.

India's economic growth is closely related to its energy demand, therefore, the need for oil and gas is projected to grow further, thereby making the sector quite conducive for investment.

India's medium-term outlook for natural gas consumption remains strong due to rising infrastructure and supportive environment policies. The demand is also expected to be driven by sectors such as residential, transport and energy.

GAIL won National Award for Excellence in Cost Management from ICAI presented by Shri Piyush Goyal, Hon'ble Union Minister, Commerce & Industry, Textiles, Consumer Affairs and Food & Public Distribution. The award was received by Shri Rakesh Kumar Jain, Director (Finance) and Shri Deepak Gupta, Director (Projects)

D. India Gas Sector Developments

With a view of development of a Natural Gas Grid, projects are being undertaken to connect every part of the country. The continuous demand for Natural Gas, discoveries of gas in the East Coast, ramping up the production activities, gives positive signals to the gas market. With the supporting policies and initiatives, GoI is paving the journey towards Gas Based Economy.

At the India Energy Forum on 26th October, 2020, the Hon'ble Prime Minister laid down India's energy map comprising seven key drivers that would be steering India's energy vision for a clean and sustainable energy mix. The 7 key drivers include targets such as moving towards Gas Based Economy, cleaner use of fossil fuels, increase of bio-fuels, setting up of 450 GW of Renewable Energy by year 2030, use of EV's to help in decarbonization goal, explore emerging fuels like hydrogen and spreading digital innovation across all energy systems.

Currently, the percentage of Natural Gas in India's energy basket is around 6.7% mark and the country aspires it to grow to 15% by year 2030. Considering the growth potential of natural gas, its share in the primary energy mix is poised to increase substantially in the coming years.

On the regulatory front, there have been several initiatives undertaken by the Government, Ministry of Petroleum and Natural Gas (MoP&NG), Petroleum and Natural Gas Regulatory Board (PNGRB), for furthering the use of gas in India and building a robust gas-based economy.

India's gas demand rose in year 2021 due to sustained growth in the city gas and fertilizer sectors, even though high imported LNG prices have resulted in cutting gas use in power generation, refining and the petrochemicals sector.

5-Year Data Depicting Consumption of Natural Gas Across Various Sectors (% wise)

Sector	2017-18	2018-19	2019-20	2020-21	2021-22
Fertilizer	27.70	27.83	28.52	31.70	30.37
City Gas Distribution	16.24	17.09	19.26	16.40	20.37
Power	22.76	22.29	19.61	19.30	15.00
Refinery	12.36	13.08	13.78	14.10	8.92
Petrochemicals	7.61	6.28	6.31	5.50	4.63
Others	13.33	13.43	12.52	13	20.71

(Source-PPAC)

It can be clearly seen from the table that there is a shift in the consumption pattern among the top three anchor consumers, while fertilizer industry continues to be the major consumer of Natural Gas, CGD Sector has now surpassed the Power sector to become the second largest consumer of Natural Gas.

Your Company is the leading supplier of Natural Gas fueling the growth of new age fertilizer plants and it has started supplies to Hindustan Urvarak & Rasayan Limited (HURL) units at Barauni, Sindri for the pre-commissioning of the plant and Matix Chemicals & Fertilizers Limited (MCFL), Panagarh for commissioning of the plant and production of urea.

The usage of Natural Gas in the Petrochemical industry in India is expected to stay nearly the same while refineries that typically use costly alternatives like crude oil/fuel oil for processing and using Naphtha for hydrogen production are switching to Natural Gas.

Natural Gas demand for CGD sector is expected to rise steadily due to the addition of gas networks in new cities as a result of the 11th bidding round, economic and increased use of PNG in domestic, industrial and commercial sectors. Also, it should be noted that CNG variants of passenger vehicles are experiencing a strong growth and are contributing to 17% of the total sales figure.

India is planning a network of Liquefied Natural Gas (LNG) fueling stations along its 6,000-km-long golden quadrilateral highways, a move that would encourage thousands of truckers to switch to the cleaner fuel from polluting diesel. Your Company is putting together a plan and persuading all possible participants – city gas distributors, gas suppliers, financiers, fleet owners and truck manufacturers – to get them on board and help build an effective ecosystem for LNG-fueled vehicles in the country. A shift to LNG-powered trucks from diesel will result in reduction in pollution.

Your Company recognizes the role of Natural Gas in India as a transition fuel in terms of cost competitiveness, efficiency and environment fuel and is aligned with Government of India initiative pertaining to climate change and net zero emissions. It is preparing roadmaps for net-zero emissions and is also exploring business opportunities into cleaner energy domains like Renewables, CBG, Hydrogen.

2. GAIL PERFORMANCE – DOMESTIC & OVERSEAS

2.1 Operational Performance

The operational performance of GAIL for the FY 2021-22 is as follows:

Particulars	UoM	2021-22		2020-21	
		Quantity	Revenue from Operations* (₹ In crore)	Quantity	Revenue from Operations* (₹ In crore)
Natural Gas Transmission	MMSCMD	110.98	6,392	104.20	5,952
Natural Gas Marketing	MMSCMD	96.24	77,326	89.20	43,846
Liquid Hydrocarbon Sales	TMT	1,004	4,865	1,138	3,294
Polymers Sales	TMT	790	8,549	871	7,061
LPG Transported	TMT	4,199	669	4,163	667

*including intersegment revenue

» **Natural Gas Marketing**

Natural Gas (NG) trading continues to be one of your Company’s core businesses. During the FY 2021-22, GAIL clocked a sales figure of 96.24 MMSCMD (which included sales within India of 86.55 MMSCMD and overseas sales of 9.69 MMSCMD) as against 89.20 MMSCMD (which included sales within India of 80.28 MMSCMD and overseas sales of 8.92 MMSCMD) during FY 2020-21. Revenue from operation from Natural Gas Marketing in FY 2021-22 was ₹ 77,326 crore as against ₹ 43,846 crore in FY 2020-21.

Your Company marketed 41.86 MMSCMD domestic gas in FY 2021-22 as against 42.62 MMSCMD in the previous FY. Domestic gas volume contributed around 48% of the overall Natural Gas volume marketed by GAIL in India. The rest 44.69 MMSCMD (52%) gas marketed in India was through imported

long-term, mid-term, and spot LNG volumes. Sector-wise details are as below:

Fertilizer Sector: GAIL supplied around 69% of the gas consumed in the Fertilizer sector in the country during FY 2021-22. During this FY, your Company has commenced gas supply to Hindustan Urvarak & Rasayan Limited (HURL), Sindri and Barauni w.e.f. December, 2021 for pre-commissioning of the plant and Matix Chemicals & Fertilizers Limited (MCFL), Panagarh w.e.f. August, 2021 for commissioning of the plant and production of Urea using Natural Gas as feedstock.

Power Sector: Your Company supplied around 60% of the gas consumed by gas-based power plants in the country during FY 2021-22. Over the past few years, GAIL has successfully collaborated with various power producers to operationalize their stranded units. GAIL continues to explore opportunities for the supply of Natural Gas to gas-based power generation units at affordable prices and is currently supplying around 4.17 MMSCMD of Regasified Liquefied Natural Gas (RLNG) to power plants apart from domestic gas.

» **Natural Gas Transmission**

Your Company expanded its network of around 14,500 km of Natural Gas pipeline across the length and breadth of our country. The average gas transmission during FY 2021-22 was 110.98 MMSCMD vis-à-vis 104.20 MMSCMD in the previous FY. Revenue from operation from Natural Gas Transmission in FY 2021-22 was ₹6,392 crore as against ₹ 5,952 crore in FY 2020-21.

» **Liquefied Petroleum Gas (LPG) Transmission**

Your Company owns and operates 2,023 km LPG pipeline network for LPG transmission namely the Jamnagar-Loni Pipeline (JLPL) and the Vizag-Secunderabad Pipeline (VSPL). JLPL and VSPL networks together achieved a throughput of 4.199 MMTPA during the FY 2021-22 against 4.163 MMTPA in the previous FY 2020-21. Revenue from operation from LPG transmission in FY 2021-22 was ₹ 669 crore as against ₹ 667 crore in FY 2020-21”.

» **Petrochemicals**

Your Company has a nameplate polymer production capacity of 810 Kilo Tons per annum (KTA) at the Pata complex. GAIL’s subsidiary, Brahmaputra Cracker & Polymer Limited (BCPL) having GAIL equity of 70% has a capacity of 280 KTA. The marketing right of the BCPL plant is with GAIL taking the total marketing portfolio to 1,090 KTA.

Overall production from the Pata Petrochemicals complex in FY 2021-22 was 777 KTA. Your Company marketed approx. 1,064 KTA of polymers (which includes 790 KTA of GAIL and 274 KTA of BCPL) during the FY. It also exported 11 KTA of polymers to various Asian markets. GAIL has successfully maintained its market share in the domestic polyethylene market and remains the second-largest player in the Indian petrochemical market with a portfolio of over 1,000 KTA of polyethylene. GAIL and BCPL together have a combined Market share of 18.5% in the High Density and Linear Low-Density Polyethylene (HDPE & LLDPE) market in the country.

GAIL’s PATA Petrochemical complex has achieved around 96% capacity utilization in FY2021-22. BCPL has also achieved around 96% capacity utilization in FY 2021-22. Your Company was able to earn highest ever revenue from operations of

GAIL's won "Trend Setting Creative Marketing Campaigns Category Award" for *Hawa Badlo* campaign by Bharat Prakashan Ltd. The award was received by Shri M. V. Iyer, Director (Business Development) and Shri Rakesh Kumar Jain, Director (Finance) along with senior officials

₹ 8,549 crore from this segment due to higher Polymer Prices realization in FY 2021-22 as against ₹ 7,061 crore in FY 2020-21.

» **LPG and Other Liquid Hydrocarbons (LHC)**

Your Company has five Gas Processing Units (GPUs) at four locations in the country having total LHC production capacity of 1.4 Million MT. During FY 2021-22, total liquid hydrocarbon production was about 1.0 Million MT as against 1.14 Million MT in FY 2020-21 of which almost 91% constitutes LPG and Propane. Revenue from operations from Liquid Hydrocarbons in FY 2021-22 also improved to ₹ 4,865 crore as against ₹ 3,294 crore in FY 2020-21.

» **Exploration & Production (E&P)**

Your Company has participating interest in 13 E&P blocks of which 10 are in India, 2 blocks in Myanmar and 1 Shale Gas JV in Eagle Ford Basin, Texas, USA (through wholly-owned subsidiary - GGUI). Out of these, GAIL is an Operator in three onland blocks viz. (i) CB-ONN-2010/11 and CB-ONHP-2017/12 in Cambay Basin awarded during NELP-IX and OALP-I bidding rounds respectively and (ii) block RJ-ONHP-2021/1 in Rajasthan Basin recently awarded during OALP-VII bid round. The twelve E&P blocks (excluding Shale Gas in Eagle Ford Basin) hold an acreage of 2,656 km² as per its Participation Interest (P.I.) in various consortiums.

Revenue from the sale of hydrocarbons is being generated from 5 producing blocks namely A-1 & A-3 in Myanmar and CB-ONN-2000/1 & CB-ONN-2003/2 (Cambay onshore blocks) in India and one (1) shale gas JV acreage in Eagle Ford basin, Texas, USA.

Revenue from Operations of ₹ 833 crore has been generated from E&P activities during FY 2021-22 as against ₹ 838 crore in FY 2020-21.

» **Renewable Energy**

Your Company is committed to reduce its carbon emissions and implement renewable projects. GAIL has a total installed capacity of 131.75 MW of alternative energy; out of which 117.95 MW is wind energy projects and 13.8 MW are solar energy projects including small solar units. In addition, GAIL is also implementing solar energy projects of 2.6 MW at Pata in Uttar Pradesh, 10 MW at Vijaipur in Madhya Pradesh and 3.2 MW of solar roof top projects at various other O&M Sites. The power generated from the plant will substitute power drawn from the grid, which will help in reducing its carbon footprint in addition to optimization of the power cost. In line with the Government of India (GoI) Hydrogen Mission, your Company is running a pilot project for hydrogen blending in city gas network and is setting up a 10 MW Green Hydrogen plant at Vijaipur, Guna District, Madhya Pradesh.

In line with Strategy 2030, your Company is exploring various opportunities for increasing its renewable portfolio through organic as well as inorganic routes.

Your Company is exploring various business opportunities in the Production and Marketing of Compressed Bio Gas (CBG). GAIL is an integral part of the MoP&NG's initiative – SATAT (Sustainable Alternative towards Affordable Transportation) and accordingly has invited Expression of Interest (EOI) from various CBG Producers for providing Marketing tie-up of CBG at the Retail Outlets of your Company and its JVs. This has led to the issuance of 253 'Letter of Intent (LoI)' to potential CBG producers by the end of FY 2021-22.

Your Company has also taken the decision of venturing into CBG business by setting up CBG production plants. GAIL is setting up its first CBG plant of 5 Tons per Day (TPD) CBG production capacity at Ranchi. GAIL has signed a concession agreement for 22 years with Ranchi Municipal Corporation for the supply of Municipal Solid Waste (MSW) and associated infrastructure for setting up the plant.

» **City Gas Distribution**

- Your Company (including group companies) is currently authorized to operate in 67 Geographical Areas (GAs) throughout India including major metro cities of Delhi, Mumbai, Hyderabad, Bengaluru, Kolkata, etc. These CGD networks together cater to around 67% of the total 93.02 lakh Domestic PNG (DPNG) connections in the country. Out of the total 4,433 CNG stations in the country, GAIL group operates 2,030 CNG stations representing 46% share. This year, your Company along with its JVs and subsidiaries has achieved a record PNG connection of more than 11.50 lakh households last year.
- Your Company was authorized to take up CGD Projects in six cities as part of the Pradhan Mantri Urja Ganga Project namely, Varanasi, Bhubaneshwar, Cuttack, Patna, Ranchi and Jamshedpur. In addition, GAIL is also executing the CGD project in Kolkata through its Subsidiary - Bengal Gas Company Limited. Supply of gas has already commenced to CNG, PNG customers in these cities.
- GAIL Gas Limited (a wholly-owned subsidiary of your Company) is executing and operating City Gas Distribution (CGD) projects in 16 GAs, including Bengaluru. Currently, GAIL Gas has 06 Joint Venture Companies (JVCs) and they are implementing CGD project in 09 GAs. GAIL Gas along with its JVCs is providing DPNG to 7.79 lakh households and catering to clean fuel requirements for vehicles through its 345 CNG stations spread across various GAs.
- During FY 2021-22, GAIL Gas along with its Joint Venture Companies has achieved around 1.27 lakh domestic PNG connections and set up 100 CNG stations.
- Bengaluru remained a major focus for your Company for CGD expansion. 17 CNG stations were set up and 30,681 domestic PNG connections were provided in the Bengaluru CGD area during FY 2021-22.

2.3 Company's Global Presence

Your Company is constantly expanding its global presence through its participation in projects/ventures along the natural gas value chain. With the LNG portfolio of around 14 MMTPA from the USA, Qatar, Australia, Russia etc. GAIL has emerged as one of the leading global LNG players and is actively involved in the LNG trading business in the international market.

Your Company is part of a consortium in two offshore E&P blocks (A-1 & A-3) in Myanmar. Around 14 MMSCMD of gas is being produced from these blocks and supplied to China and Myanmar through South East Asia Gas Pipeline Company Limited (SEAGP), in which GAIL is also an equity partner. SEAGP is paying dividends to GAIL regularly. GAIL's Branch Office in Myanmar is scouting for business opportunities in Myanmar and other South East Asian countries, in the areas of the gas value chain and beyond.

Your Company is the Government of India's nominee in the Turkmenistan-Afghanistan-Pakistan-India (TAPI) natural gas project for import of gas to India from Turkmenistan. TAPI Pipeline Company Limited (TPCL) has been incorporated in Isle of Man to build, own and operate the TAPI Pipeline. The pipeline, when constructed, is expected to carry 90 MMSCMD (33 bcm) of natural gas, of which India will receive 38 MMSCMD. The project is currently under the pre-FID stage, wherein various activities are being undertaken by TPCL.

GAIL was conferred with the Economic Times Energy Award 2022 under Non-Renewables Category. Shri Deepak Gupta, Director (Projects) received the prestigious award along with senior officials

Considering the changes in the global energy market, GAIL is discussing with Turkmen gas for arriving at mutually acceptable terms and conditions to enhance the marketability of the pipeline gas to be received from Turkmenistan.

Your Company holds equity interest in two CGD companies in Egypt, namely Fayum Gas Company (FGC) and National Gas Company (Natgas) involved in the supply of natural gas to residential, commercial and small industrial customers in Egypt.

Your Company is also an equity partner in China Gas Holdings Limited (China Gas), a retail gas Company involved in city gas and CNG business in China and listed on the Hong Kong Stock Exchange. China Gas is performing well and paying dividends regularly.

Your Company has formed GAIL Global (USA) Inc. ('GGUI') during 2011 in Houston, Texas as its wholly-owned subsidiary. GGUI has 20% interest in Eagle Ford shale acreages in Texas, USA. M/s Callon (Eagle Ford) LLC and M/s Texas American Resources II LLC are working as Operator for the Joint Venture acreage in Eagle Ford.

Your Company has formed GAIL Global (USA) LNG LLC ('GGULL'), a wholly-owned stepdown subsidiary in March, 2013 to enter into a long term (20 years) Terminal Service Agreement ('TSA') and a Pipeline Precedent Agreement ('PPA') with Cove Point LNG, LP ('CPLL'), earlier known as Dominion Energy Cove Point LNG LP for booking of 2.3 MMTPA capacity in the Cove Point Terminal and corresponding capacity in Cove Point pipeline for the purpose of liquefaction & transmission of natural gas. GGULL is exporting around ~34 LNG cargoes to GAIL from Cove Point Terminal.

GGULL has also entered into a Gas Sale and Purchase Agreement ('GSPA') with WGL Midstream, Inc. ('WGLM') for purchase and supply of upto 430,000 Dth/day of natural gas

for delivery at the inlet of LNG terminal. In April 2021, Six One Commodities Vega LLC had purchased 100% interests in WGLM and WGLM has been converted to Six One Commodities Vega LLC.

Your Company has also formed GAIL Global Singapore Pte. Ltd (GGSPL) in 2004 as its wholly-owned subsidiary in Singapore. GGSPL is engaged in LNG trading.

Your Company jointly with ONGC Videsh Singapore Pte Ltd, IOCL Singapore Pte Ltd, Oil India International Pte Ltd, and Engineers India Ltd has formed Bharat Energy office LLC (BEO), Moscow, Russia for exploring business opportunities in Russia.

3. FUTURE ROADMAP

3.1 Strategy

Your Company has played a pivotal role in development of Indian energy sector while developing the gas value chain in the country. '**Strategy 2030**' was formulated in 2019 to reinforce its position in energy domain by providing gas and low-carbon energy to the end consumers and expand our footprint in petrochemicals. Strategy 2030 has been devised to keep a balanced business portfolio by protecting the core activities.

Your Company has redesigned its vision and mission wherein factors like business environment, core competencies, HR & financial perspectives have been considered with the goal of creating value for the stakeholders by providing value added services through Natural Gas value chain.

Several strategic initiatives identified across various business verticals on areas like gas sourcing and marketing, expansion of National Gas Grid (NGG), petrochemicals including PDHPP, CGDs, etc were continued.

Your Company is planning to bid consistently for new pipelines

put on offer through PNGRB. Your Company shall continue to grow its gas transmission business by laying important sections of National Gas Grid (NGG).

To ensure growth in the gas market share, pushing for higher gas usage in the industrial segment including refineries, transport segment using CNG & LNG, trigeneration etc. has been a primary focus area. GAIL has envisaged expanding its global presence through its diverse gas portfolio. Apart from pursuing business interests in new international markets, your Company is working towards building requisite capabilities & resources. Gas transmission and gas marketing are the key drivers of GAIL's business and it transmitted ~111 MMSCMD of Natural Gas.

Strenuous efforts are being taken through GAIL Gas and JVs for accelerated growth of CGD sector. Your Company along with its joint ventures have provided domestic PNG connections to around 11.5 lakh customers, and around 415 CNG Stations were set up during this period.

Your Company is also looking for avenues to supply gas in new segments like LNG trucking i.e., LNG for long haul transportation and use of natural gas in trigeneration system. GAIL group companies are installing LNG satellite stations along Golden Quadrilateral and other major highways. LNG satellite station at Mandideep was commissioned in FY 2021-22 and other LNG satellite stations at Nasik, Ajmer, Mumbai, Vadodara and Kanpur are in advanced stages of completion.

In the petrochemicals segment, your Company has been exploring opportunities to expand its polymer offerings through wide range of products and PE, PP polymer grades. GAIL is setting up a 500 KTA Polypropylene plant at Usar (Maharashtra), a first of its kind project in India which would be using Propane Dehydrogenation technology for production of Propylene integrated with the downstream Polypropylene unit. After completion of licensor selection for the PDH & PP units, the process of obtaining requisite approvals along with procurement activities are under full swing. In addition, your Company is also setting up a 60 KTA PP plant at its Pata Petrochemical complex to diversify PP offering. Apart from petrochemicals, studies are being undertaken for examining the specialty chemicals domain for select chemicals with high future growth potential.

Apart from these, new potential growth drivers such as creating a sizeable renewable energy portfolio, investing in new technologies, clean energy have also been analyzed thereby spreading its wings to newer horizons which will benefit your Company in the long term and in turn deliver value to all its stakeholders.

Aligning with nation's objective of climate change and net zero aspirations, your Company is exploring investment opportunities in the renewable energy domain. Further, in order to enhance RE portfolio from ~130 MW, GAIL has been scouting for opportunities through both organic as well as inorganic routes.

Capability strengthening in new business areas and succession planning model is given priority to ensure that your Company holds a competitive advantage over its competitors. To promote new technologies, GAIL has invested in start-ups which focus on new technologies like AI and digitization, pipeline inspection, renewable energy, environment, bio products and CBG, logistics, electric mobility, nutrition, rural development, health, etc.

Engaging in initiatives in emerging areas like hydrogen and bioenergy provide your Company with the requisite experience to scout for scalable opportunities in the years to come. Aligning with this, your Company has started a first of its kind pilot project where injection of blending of hydrogen in natural gas in Aavantika Gas Limited -CGD network has been commenced. Further, your Company is also setting up a 10 MW green hydrogen production capacity at Vijaiapur, MP. Further, efforts are made to set up first-generation (1G) 500 KLPD capacity grain-based bio-ethanol plant. Your Company is setting up a CBG Unit at Ranchi. The CBG plant will produce 5 Tons of Compressed Biogas (CBG) per day and approximately 25 Tons of Fermented Bio Manure per day.

Digital Strategy

Your Company has always been at the forefront of implementing and adopting new technologies and has made significant investments in digital technologies in the past. Given the dynamic market environment, your Company has assumed a '**Digital Strategy**' exercise to leverage the recent advances in digital technologies and advanced analytics to support effective decision-making and build a scalable and agile enterprise with improved business performance and competitive advantage. This '**Digital Strategy**' exercise aims at addressing the future needs of your Company in terms of mission-critical services, supporting operations, maintenance, planning, sustainability and overall vision. Your Company has also defined its digital vision to bring alignment among various stakeholders and the potential digital themes. The new Digital Vision of your Company is:

"Be a digitally empowered organization for operational excellence and stakeholder value creation"

The new Digital Vision of your Company addresses the needs and aspirations of all key stakeholders including employees, customers, vendors, shareholders and society. Under the '**Digital Strategy**' exercise, key digital themes were identified which focus on various business value drivers such as Brand strength, Customer Satisfaction, Health Safety & Environment, People Effectiveness, Sourcing Effectiveness, and Trustworthiness. A roadmap has been established with potential digital initiatives to bridge the gap between the current state and leading practices/emerging digital trends and implementation of various digital initiatives are in process.

Adoption of the latest digital technologies by your Company is expected to make a huge contribution to promote sustainability through enhanced monitoring and data capturing. A broad multi-stakeholder alliance and platforms for sharing digital solutions and services are essential to attain the Sustainability Development Goals. New digital methods are facilitating timely and precise monitoring of data relevant for promoting sustainability in your organization and helping to do the operations in the right manner. Digital co-operation on platforms is helping in creating a database which could be used for big data analytics-based solutions to support better planning and optimization.

3.2 New Initiatives

» Natural Gas Marketing

Your Company is strengthening its existing customer base while simultaneously working on expanding gas consumption in existing/emerging sectors. Your Company has completed connectivity with major anchor load customers along JHBDPL,

commencing gas supplies to new Fertilizer plants like Matix Fertilizers & Chemicals Ltd, Panagarh, HURL Barauni and HURL Sindri. In the LNG business, GAIL has reached a new milestone of importing 105 LNG cargoes to India amounting to approx. 6.74 MMT of LNG volumes during FY 2021-22, to cater to the growing need.

Your Company is also working closely with other industry players and stakeholders for commercial off-take of Compressed Bio-Gas from CBG producers. In June 2021, first injection of Biogas from the plant of Govardhannathji Energies LLP in a CGD network at Nadiad, Gujarat was dedicated to the nation by Hon'ble Minister of P&NG and Steel. In October 2021, sale of CBG started through Retail Outlet (RO) of M/s BGL at Hyderabad. In February 2022, sale of CBG started to Indore Municipal Corporation at Indore (M.P). Your Company and its JVs and subsidiaries are also working towards constructing LNG stations along major highways so that LNG can be utilized as an automotive fuel for the heavy vehicle segment. Efforts are also on going to commence use of LNG as an automotive fuel for heavy equipment in the mining sector which can Commercially replace High-Speed Diesel (HSD).

Your Company has commenced India's first-of-its-kind project of mixing hydrogen into natural gas system at Indore, Madhya Pradesh. The hydrogen blended natural gas is being supplied to M/s Aavantika Gas Limited in Indore.

In line with the National Hydrogen Mission, your Company has started hydrogen blending as a pilot project to establish the techno-commercial feasibility of blending hydrogen in City Gas Distribution (CGD) network. This project marks the stepping stone of India's journey towards hydrogen based and carbon neutral future. It is expected that this pilot project would help in creation of a robust standard and regulatory framework in India to cover the aspects of injecting hydrogen into natural gas. This will pave the path for carrying out more similar projects in India.

» **Sourcing & Trading**

Your Company has established itself as a major global LNG player. Past several years, GAIL undertook various deals including time swap transactions and third-party sales on a FOB basis to de-risk the LNG portfolio. Now, GAIL is using such optimization structures to meet the demand in India. GAIL is also now aiming to bring the entire volume under the long term contracts to meet the growing demand in India. Further, several destination swap transactions have been carried out to ensure the delivery of competitively priced LNG in the Indian market. Your Company has successfully handled the impacts of the COVID-19 pandemic under various long-term LNG contracts ensuring uninterrupted LNG/RLNG supply to customers.

Further, your Company is actively undertaking hedging to manage commodity price risk.

» **LNG Shipping**

To transport the LNG sourced from the USA, your Company hired a newly built LNG Vessel '**Grace Emilia**' from a subsidiary of NYK Lines, Japan. The vessel was delivered to GAIL in March, 2022 and is of state-of-the-art technology and design. GAIL now has two modern LNG Vessels in its fleet and has plans to further increase its shipping fleet and may charter additional LNG ship(s) on a spot/term basis based on trading strategy going forward.

Your Company continues to look out for opportunities in the space for chartering while ensuring optimal voyage planning of LNG loading and discharge activities.

» **LNG Regasification Terminals**

Konkan LNG Limited (KLL) is a subsidiary Company of GAIL. Your Company is the commercial operator of the 5 MMTPA Dabhol terminal in Maharashtra under KLL. After 100% completion of the commissioning activities related to breakwater facilities, KLL shall be able to operate throughout the year at full capacity. Further, GAIL is making all efforts for full utilization of regasification capacity of Dabhol terminal by sub-letting surplus regasification slots to third parties.

» **Natural Gas Transmission**

Your Company is committed to increasing the length of its natural gas pipeline infrastructure by developing new natural gas pipelines and expanding/extension of its existing natural gas pipelines. Your Company has taken steps to provide Tie-in connections with its natural gas pipelines to the upcoming new gas sources, including in Krishna Godavari (KG) Basin, Cauvery Basin, Coal Bed Methane (CBM) discoveries, new sources of domestic gas through bidding route and upcoming RLNG Terminals to enable more and new gas injections into its pipelines. Furthermore, Inter-Connections (ICs) are also being provided with the natural gas pipelines of other pipeline entities in the country.

In addition to providing Last Mile Connectivity (LMC) to various industrial consumers to enable them to consume natural gas and shift from other alternative fuels, your Company is also providing Hooking-up connectivity (i.e. connectivity from the trunk natural gas pipeline to the CGD network) to more than 100 CGD Networks in various parts of the country which has been awarded upto 9th and 10th CGD Bidding Rounds by PNGRB. 8 new LMCs and 29 Hook-ups were completed to supply/transport gas during FY 2021-22.

Your Company has also firmed up modality with the newly established Gas Exchange for smooth transmission of gas traded in the Gas Exchange. In addition, your Company is the first gas pipeline Company in the country that had started an online pipeline open-access portal for easier and transparent booking of Common Carrier Capacity in its natural gas pipeline. Around 5,000 Capacity Tranche (CT) requests have been processed through the portal during FY 2021-22 while the total CT requisitions received till 31st March 2022 since the launch of the online portal in 2018 is over 11,000.

» **Developing the National Gas Grid (NGG)**

To develop National Gas Grid, your Company alongwith its JVs is executing projects to lay around 7,879 km of Natural gas pipelines across India and another 2,047 km pipelines through its JVs/JVs of GAIL Gas (which includes 1,656 km by Indradhanush Gas Grid Ltd. and 391 km by Andhra Pradesh Gas Distribution Company Ltd.). The status of ongoing projects are as follows:

1. Jagdishpur- Haldia & Bokaro-Dhamra Pipeline (JHBDPL) (2,655 km) and Barauni- Guwahati Pipeline (BGPL) (729 km) section as an integral part of JHBDPL: This pipeline network shall pass through the Eastern part of U.P., Bihar, Jharkhand, Odisha, West Bengal, and Assam. The pipeline network would have two gas sources, one at Phulpur (Allahabad, U.P.) and the other at Dhamra RLNG Terminal (Odisha) and is also connected to Integrated HVJ network to receive gas supply. The pipeline

from Barauni to Guwahati will connect the North eastern gas grid to National Gas Grid. Recently, PNGRB has granted authorization of Dhamra-Haldia Pipeline (DHPL) (253 km) for capacity expansion of JHBDPL network and increasing size of Dhamra-Paradip spur line. With this, the expansion capacity of the integrated JHBDPL network is now 23 MMSCMD from earlier 16 MMSCMD. All sections of 3,637 km integrated JHBDPL (including BGPL & DHPL) are under various stages of execution.

Till March 2022, 1,521 km of JHBDPL has been commissioned including connectivity to 4 major fertilizers plant viz. M/s Matix Fertilizers, Durgapur, M/s Hindustan Urvarak & Rasayan Ltd. (HURL) in Sindri, Barauni & Gorakhpur.

2. Kochi-Kootanad-Bangalore-Mangalore Pipeline (KKBMPL) Project Phase-II (891 km): Kochi to Mangalore pipeline (KMPL-450 km) passing through Kerala & Karnataka was commissioned & anchor customers Mangalore Chemicals and Fertilizers Limited, ONGC Mangalore Petrochemicals Limited & Mangalore Refinery and Petrochemicals Limited were also connected.

129 km section of Kootanad to Bangalore Pipeline has also been commissioned. Now, only Tamil Nadu section of ~ 310 km is balance for which discussions with State Govt. is under process for finalization of pipeline route.

3. Vijaiapur-Auraiya-Phulpur Pipeline: To de-bottleneck, the supply of the JHBDPL project, a parallel pipeline from Vijaiapur to Phulpur via Auraiya (667 km) was executed. Phase-1 from Auraiya to Phulpur (315 km) was commissioned in March 2019. Further, Phase-2 from Vijaiapur to Auraiya -352 km has been commissioned in March 2022.
4. Mumbai-Nagpur-Jharsuguda pipeline (1,755 km) MNJPL, part of National Gas Grid (NGG), will pass through 25 districts in the states of Maharashtra, Madhya Pradesh, Chhattisgarh & Odisha. It will originate from Thane (Maharashtra) & will connect to JHBDPL in Jharsuguda (Odisha). Also, spurline will extend from Nagpur (Maharashtra) to Jabalpur (Madhya Pradesh). The pipeline shall ensure availability of clean fuel and cater the demand of CGD industries and anchor load customers.

Construction work is in full swing for Mumbai-Nagpur section & tendering & ordering is in progress for balance sections. Mumbai-Nagpur section is being laid along Samruddhi highway & 281 km lowering was achieved till March 2022.

5. Construction work is in progress for Srikakulam (Andhra Pradesh)-Angul (Odisha) Pipeline (744 km), Dhamra-Haldia Pipeline (253 km), Haridwar-Rishikesh-Dehradun Pipeline (50 km) & Sultanpur-Jhajjar-Hisar pipeline (135 km) to provide natural gas connectivity to cities en-route the pipeline.

» **Petrochemicals**

Digital Transformation is need of the hour. Considering high competitiveness in Petrochemicals market and growing demand, your Company has adapted SAS Data Analytics Tool to enhance their ability to work faster, stay agile and give the organization a competitive edge over competitors. GAIL Petrochemicals business has developed Three Business Analytics Modules i.e. Margin Optimization, Price Forecasting, and Production Planning for Advanced Data Analytics. Apart from this your Company is in process of mapping Customer Journeys and improve Business Intelligence through state-of-art Customer 360 & Market Intelligence system.

Under the Petrochemical business vertical, your Company is in the process of setting up a 500 KTA Propane dehydrogenation and Polypropylene (PDH-PP) Plant at Usar, Maharashtra, which is expected to be commissioned in 2025. This would be the first plant in India using Propane Dehydrogenation technology for the production of Propylene. For this project, M/s Lummus Technology LLC, USA has been selected as technology Licensor for the PDH unit & M/s Grace Technologies Inc. has been selected as Technology Licensor for PP Unit. Various project-related activities are in full swing.

Your Company is also setting up a 60 KTA Polypropylene (PP) plant at Pata. Environment Clearance for the Project has been granted by the Ministry of Environment, Forest & Climate Change. M/S Grace Technologies Inc, USA has been selected as the technology Licensor for the PP unit at Pata.

» **Coal Gasification**

Your Company is in the process of setting up a coal gasification-based Urea project through a JV-Talcher Fertilizers Limited (TFL) formed with Coal India Limited (CIL), Rashtriya Chemicals and Fertilizers Limited (RCF), each having 31.85% stake and Fertilizer Corporation of India Limited (FCIL) having 4.45% equity. The project with an estimated cost of around ₹ 13,277 crore is envisaged to produce 2,200 MTPD Ammonia and 3,850 MTPD Urea.

The project has received investment approval from all the JV partners and project activities have already commenced with the award of 02 major LSTK tenders of coal gasification and ammonia/urea at a cumulative cost of approx. ₹ 8,000 crore to M/s Wuhuan Engineering Co. Ltd., China along with other OSBL/Utilities packages. The selection of other vendors is in progress and all the pre-project construction activities at the site have been completed. Cabinet Committee on Economic Affairs (CCEA) has approved the exclusive subsidy policy for Urea to be produced by TFL on 20th April, 2021. The financial closure of the project has been successfully concluded in June 2021 with debt tie up of ₹ 9,560 crore (approx.). Contract of approx. value of ₹ 11,000 crore has already been awarded and Project achieved overall 23% progress.

» **Fertilizer**

Your Company had taken 14.72% equity stake in Ramagundam Fertilizers and Chemicals Limited (RFCL) incorporated by NFL, EIL, and FCIL for producing 2,200 MTPD Ammonia and 3,850 MTPD Urea. During the FY 2021-22, considerable improvement in RFCL plant operations were made and major chronic issues were resolved and RFCL has achieved a major milestone of achieving 100% plant load of Ammonia and Urea on 26th April, 2022. The achievement of this milestone is a great step towards Atma Nirbhar Bharat. During the FY 2021-22, a total of 389 TMT urea and 256 TMT of Ammonia were produced.

» **Procurement of Power through Open Access**

Open Access enables users to buy cheap power from the open market either from power exchange or through bilateral transactions. It offers the consumers competitive tariffs from third-party generators/ trading licensees, rather than being dependent only on Incumbent Discom and provides opportunities for sustainable cost reduction. Pata has started purchasing power from the exchange and has planned to enter Round The Clock (RTC) Power for 20 MU.

Your Company has finalized a bilateral power purchase arrangement of 20 MW for Pata Petrochemical Complex with

a leading power trading Company. The power supply has commenced on Round the Clock (RTC) basis from May, 2021, leading to substantial savings over the cost of procurement from the present Discom.

» **Start-up Initiative**

Your Company's startup initiative '**Pankh**' has continued successfully to build a strong ecosystem for nurturing innovation and Start-Ups in the country. Under this initiative a Corpus of ₹ 100 crore has been created for funding in new & promising Start-ups working in the areas such as AI, Logistics, Electric Mobility, Nutrition, Rural Development, Health, Pipeline Inspection, Renewable Energy, Environment, Bioproducts, IOT, Health, Pipeline O&M, etc.

During the FY 2020-21, your Company has signed investment agreements with 04 numbers of start-ups with a financial commitment of ₹ 7.0 crore. Your Company has so far supported 31 numbers of start-ups with a total investment commitment of ₹ 68.20 crore. The valuations of some of these start-ups based upon the current market trends have appreciated many fold and your Company has successfully exited from two numbers of successful start-ups with good return on investment.

» **Advocacy Initiatives**

Government of India is supporting the development of gas based economy. It is expected that long-term investments of over ₹ 4 lakh crore will be deployed across various subsectors of natural gas value chain. GAIL has strengthened its core businesses across the natural gas value chain.

Hon'ble Prime Minister has envisaged a cleaner, greener and more inclusive future for India by placing 'accelerating our efforts to move towards gas-based economy' at top of the seven key drivers of India's energy sector. The idea of decarbonized world today is dependent on built-in midstream and downstream infrastructure acting as a backbone for the futuristic decarbonization initiatives. Early action on emission reductions is vital to meet the more ambitious decarbonization goals laid out worldwide. In this context, natural gas can play a critical and unique role, particularly in developing economies like ours.

Natural gas is the least carbon intensive fossil fuel; unlike other carbon-based fuels, natural gas has a high hydrogen/carbon ratio and therefore emits less carbon dioxide for a given quantity of energy consumed. Natural gas is a cleaner burning fuel than coal or oil. When burned, it releases upto 50 percent less carbon dioxide (CO₂) than coal and 20-30 percent less than oil. Natural Gas is widely recognized as a relatively low-carbon, cost-effective fuel. Use of Natural gas can help to meet CO₂-reduction goals as well as reduce unhealthy emissions such as NO_x, SO_x and particulates. Gas needs to be looked upon as a bridge transition fuel for decarbonization and it offers multi-pronged solution to India for driving sustainable economic growth.

Government of India is running world's largest renewable energy expansion programme and has set a target of 450 gigawatts of renewable energy capacity by 2030. Natural gas is a relatively clean-burning fossil fuel. Worldwide share of gas in power is around 40%, Japan has more than 60% while in India it is only 15%. Natural gas cannot only meet growing demand for clean, affordable energy but can also replace coal and oil and their associated higher emissions.

Natural Gas needs to be looked upon as a pillar of decarbonization. Natural gas will be instrumental as a transition fuel in dealing with the intermittency of the renewable energy. A gas-based plant will have many technical benefits including dispatchability –faster response time. Gas-based power can be ramped up and down quickly ,has the ability to provide flexibility and can be synchronised to the grid rapidly. Its output can be increased / decreased according to hourly, daily or seasonal demand. Additionally, when it comes to bundling of Renewable energy power with thermal sources, implicit pricing of externalities and technology neutrality can be achieved by adopting a mechanism wherein emissions from bundled products can be capped.

GAIL had undertaken a number of studies on areas of gas advocacy. It conducted studies on areas such as development of strategy 2030 with a perspective of Natural Gas Demand in India, methodology adopted in LNG trading sector in India and Globally.

GAIL is actively working towards diversifying the business portfolio to include renewable and alternative energy and newer mobility solutions. A study was conducted to explore establishment of EV charging infrastructure at a CGD GA. GAIL also has taken lead in leveraging Hydrogen as a fuel in India and has started a pilot project of hydrogen blending in a CGD network. Additionally, GAIL is setting up a 10 MW green hydrogen plant which will be one of the largest PEM electrolyzer based green hydrogen plants in the world.

Over the years, GAIL has been a part of industry events organized to propagate gas as a better environmental fuel and endorse the market opportunities available for gas in India. GAIL is interacting with various Indian industry associations including FIPI, CII, FICCI, CSE, TERI NITI Aayog etc. GAIL has been consistently engaged with global associations like International Gas Union, World Bank on Sustainable energy policy and reforms required in the gas sector. GAIL also regularly interacts with PNGRB, the regulatory body to update them on the current status and industry viewpoint. GAIL is also engaged with think tanks and govt. bodies for carrying forward natural gas advocacy and market development in India.

GAIL is part of various prestigious industry bodies and associations which provide platforms to discuss industry issues and convey the industry voice to the government in a collective way to make better inclusive policies and bring reforms. This forms a significant basis for the advancement of the public good. In FY 2021-22, GAIL was a part of the following associations –

- International Group of Liquefied Natural Gas Importers (GIIGNL)
- Federation of Indian Petroleum Industry (FIPI)
- Standing Conference of Public Enterprises (SCOPE)
- Federation of Indian Chambers of Commerce & Industry (FICCI)
- Global Reporting Initiative (GRI)
- Chemicals & Petrochemicals Manufacturers' Association (CPMA)
- TERI- Business Council for Sustainable Development (TERI-BCSD)
- Indian Wind Power Association (IWPA)
- Natural Gas Society (NGS)
- Biogas Indiantech Association
- International Swaps and Derivatives Association (ISDA)

- British Safety Council
- National Fire Protection Association (NFPA)
- Transparency International India (TII)
- Delhi Productivity Council (DPC)
- US India Strategic Partnership Forum
- India Myanmar Chamber of Commerce (IMCC)
- International Market Assessment CFO Forum
- Institute of Directors (IOD)

» **Renewables**

Green Hydrogen is a renewable energy based alternative fuel for meeting Hydrogen requirements in fertilizer production and petroleum refining. It has the potential to reduce India's dependence on fossil fuels and decrease the carbon footprint of these industrial processes. It can help curb the emissions from several processes that depend upon input materials or feedstock derived from fossil fuels such as production of fertilizers, chemicals, petrochemicals and steel. Hydrogen can also be used as a fuel for long range transportation and for long duration storage of renewable energy. In line with Government of India's 'National Hydrogen Energy Mission', your Company is setting up a Green Hydrogen Production unit with a capacity of 4.3 Tonnes per day at Vijaipur (M.P.). The unit will produce Green Hydrogen using Proton Exchange Membrane (PEM) technology based on water electrolysis. Also, study on technical feasibility of H2 blending in NG/CGD network has been initiated.

Further, your Company has also taken few initiatives to promote usage Compressed Bio-Gas ('**CBG**') such as (i) 24 TPAs executed with City Gas Distribution ('**CGD**') & CBG producers – Gas supply commenced to 6 GAs; (ii) MoP&NG mandated operationalization of CBG-CGD synchronization for usage in CNG(T) and PNG(D); (iii) Support was announced for 400 CBG plants and consequently 253 Letter of Intent for CBG plants were issued.

Your Company is setting up 10 MW PEM Electrolyser for producing Green Hydrogen. Your Company has also entered into MoU with Gujarat Alkalies and Chemicals Limited (GACL) to explore the feasibility of setting up 500 KLPD Bioethanol Plant in Gujarat and other business opportunities related to Petrochemical/Chemical plant, Solar and Wind assets.

Your Company has also taken few initiatives for development of solar energy such as (i) MOU with BHEL for development of solar power projects; (ii) Opportunities explored for manufacturing of solar cells/modules; (iii) collaborated with International Solar Alliance (ISA) as a corporate partner.

4. Risks, Challenges, and Mitigation

» **PNGRB Regulatory Framework**

The Petroleum & Natural Gas Regulatory Board (PNGRB) was established by the Government of India on 1st October, 2007 for carrying out the various provisions of the PNGRB Act, 2006. The PNGRB Act provides a legal framework for regulating the refining, processing, storage, transportation, distribution, marketing and sale of petroleum, petroleum products and natural gas but excluding the activities of production of crude oil and natural gas, to protect the interests of consumers and entities engaged in these activities. The main functions of PNGRB include, inter-alia, (a) granting authorizations for laying, building, operating, or expanding new pipelines as common carriers or contract carriers and for laying, building, operating, or expanding new city gas distribution networks

(CGD networks) (b) declaring existing natural gas pipelines, petroleum & petroleum product pipelines and CGD networks as common carriers or contract carriers (c) regulating access to common carriers or contract carriers (d) regulating transportation rates of common carriers or contract carriers and (e) to perform such other functions as may be entrusted to it by the Central Government to carry out the provisions of this Act.

During the financial year 2021-22, PNGRB has notified various Amendments to Regulations in respect of Natural Gas Pipelines, CGD networks, and Petroleum Product Pipelines. During this period, your Company has been granted authorization for developing various Tie-In Connectivity pipelines in the regions of Bokaro and Jharia which shall bring in more gas from new domestic sources. Your Company has also received PNGRB Acceptance for laying a dedicated pipeline from BPCL Uran Terminal to your Company's PDH-PP plant at Usar for transportation of liquid propane. In this period, affiliates of your Company have also been granted authorization for developing City Gas Distribution Networks in Geographical Areas located in the states of Telangana, Odisha and Maharashtra under the 11th Round of CGD Bidding.

PNGRB has also issued various orders and decisions in relevant matters. The details of the said regulations, amendments, authorizations, orders and decisions are available on the official website of PNGRB (www.pngrb.gov.in) and have varying implications on business. These regulations, amendments, authorizations, orders, decisions of PNGRB are appealable before the PNGRB Bench, Appellate Tribunal, and Courts and accordingly, some of them pertaining to your Company are also under various stages of appeals. The timing and content of any final changes in regulations made by PNGRB is not in your Company's control. However, regular interactions with PNGRB on sectoral issues, participation in public consultation exercises conducted by the Regulatory Board and making logical submissions to the Regulator in writing helps your Company to anticipate or to minimize risks associated with any sudden or unforeseen changes in regulations.

» **Natural Gas Prices**

Your Company currently markets natural gas purchased from domestic and international sources.

The Government of India, vide its order dated 25th October, 2014, had notified the New Domestic Natural Gas Pricing Guidelines, 2014. As per the notification w.e.f. 1st November, 2014, the gas price is determined bi-annually as per a specific formula, which in essence, is a twelve-month average price (minus transportation and treatment charges) of natural gas traded in the major hubs worldwide. The New Domestic Natural Gas Pricing Guidelines, 2014 are applied uniformly to all nominated fields to ONGC & OIL, New Exploration Licensing Policy (NELP) blocks, and Pre-NELP blocks that require Government Approval as per PSC, whereas the same are not applicable in case of small and isolated fields of nominated blocks that are covered under the pricing guidelines of 2013.

Further, the Government of India, vide its order dated 21st March, 2016, has notified guidelines on marketing including pricing freedom for the gas produced from discoveries in deep water, ultra-deepwater, and high pressure-high temperature areas. As per the guidelines, the Government has decided to ensure freedom of pricing for gas produced in these fields up to a ceiling price level calculated by taking a lower of the

twelve-month average of landed price of imported fuel oil, substitute fuels, and LNG.

Your Company earns the marketing margin on the sale of domestic natural gas. Further, the Government of India, in its notification dated 24th December, 2015, applicable from 18th November, 2015, has put a ceiling on the marketing margin for the supply of domestic gas to fertilizer (Urea) and LPG producers to ₹ 200 per 1000 SCM.

In addition to the above, your Company purchases imported natural gas mainly from PLL at Dahej, Gujarat. The purchase and selling prices of such Re-gasified Liquefied Natural Gas (RLNG) are based on international crude price indices. Further, your Company also directly imports LNG through carriers from various suppliers worldwide and gets it re-gasified either at PLL's regasification terminal at Dahej, Gujarat and Kochi, Kerala or at KLL regasification terminal at Dabhol, Maharashtra or at Shell Energy India Pvt Ltd (Formerly known as Hazira LNG Private Limited). Such LNG imports is either under a long-term agreement ranging above three years, medium-term agreement ranging up to three years or under spot cargo purchases. Under long-term & medium-term import, the selling price is largely based on the purchase price. However, under spot cargo imports, the selling price is dependent upon the demand and supply scenario and customer affordability. Import of LNG spot cargo is based on a thorough assessment of the affordability & requirement of the end consumers and the availability of LNG in the international markets.

» **LNG Portfolio**

Your Company and its subsidiaries/joint ventures/affiliates till date have executed two long-term LNG contracts in the USA and one long-term LNG contract from Singapore based Company to meet the growing LNG demand and enhance capacity utilization of pipeline infrastructure:

- LNG Sale and Purchase Agreement with Sabine Pass Liquefaction LLC for sourcing of 3.50 MMTPA of LNG from Sabine Pass Liquefaction Terminal, USA with supplies commenced from February 2018.
- Terminal Service Agreement for booking of 2.30 MMTPA liquefaction capacity in the Cove Point LNG Liquefaction Terminal, USA with supplies commenced from April, 2018 and Gas Sale and Purchase Agreement with WGL Midstream(now SixOne Commodities) for the commensurate gas quantities.
- LNG Sale and Purchase Agreement with GMTS Singapore (Gazprom) for sourcing up to 2.85 MMTPA, i.e. around 10.26 MMSCMD of LNG with supplies commenced from FY 2018-19.

The aforesaid LNG contracts were entered by your Company with the primary objective of meeting the demand of a growing Indian economy and ensure the energy security of the nation. During the finalization of the Sale Purchase Agreement (SPA) of the above, the power sector was envisaged as the key buyer. However, power produced from LNG doesn't come under the Merit Order Dispatch due to the availability of cheaper alternative power including renewables.

To mitigate the above risks, your Company is exploring opportunities to market LNG volumes in the international markets either directly and/or through its Singapore-based subsidiary, GGSPL.

In parallel, your Company has also optimized LNG sourced from the US through destination swap transactions to optimize the cost of shipping LNG to the Indian ports resulting inefficient management of the portfolio.

Since FY 2016-17, your Company is undertaking hedging transactions for a part of LNG volume used for your Company's internal consumption and sale to domestic and international customers, to mitigate the price risk and fix the margins. Such mitigating measures of commodity hedging are underway based on the regular assessment of managing cash flows from trading transactions.

» **Power including Renewables**

India is increasing its renewable energy capacity at a brisk pace with an aim to reduce carbon emission. With an increase in renewable energy portfolio, the stability of the grid is a major concern for the industry. Natural gas-based power plants can act as a balance to provide grid stability as gas plants can respond more quickly to load changes than coal-based plants and can further help in the reduction of emission. Plant Load Factor (PLF) for conventional fuel plants is on a decline and natural gas-based power plants continue to run with structural issues requiring resolution through policy intervention. Your Company has been working on a case-to-case basis and in close coordination with MoP&NG and the Ministry of Power to increase/revive off-take of natural gas by the power sector.

» **Polymer, LPG and other LHC**

Your Company is also marketing petrochemicals, LPG and other LHC products. The prices of these products are influenced and determined by global and domestic factors influencing demand and supply. Your Company has developed a range of market acceptable products to ensure steady consumption of the petrochemical products and has optimized its portfolio by having production facilities at Pata (UP) and Assam. LPG marketing is decided in close coordination with the PSU Oil Marketing Companies. Continuous measures are taken towards managing margins across your Company's range of products.

» **Foreign Exchange Fluctuation Risk**

Your Company, largely imports LNG, capital goods and stores & spares for various new projects, and operation & maintenance. It has also taken loans in foreign currency for meeting the capex requirement and making overseas investments. The loan portfolio is fully hedged by way of derivative products (currency swap and interest rate swap) and through the natural hedge from the foreign currency inflows. Your Company has an approved Foreign Currency & Interest Rate Risk Management Policy to manage foreign exchange exposure which has been reviewed during the FY. The short-term and long-term exposure of the foreign currency of your Company is being monitored as per the approved policy.

» **Commodity Price Risk**

Your Company has a Natural Gas Price Risk Management Policy to manage the price risk of Natural Gas. The price risk of natural gas used for internal consumption and as well as for selling to various downstream customers is being monitored as per the approved Policy. As and when the opportunity arises in the market, your Company has undertaken various derivative transactions to hedge the price risk arising out of fluctuation in the prices of imported Natural Gas.

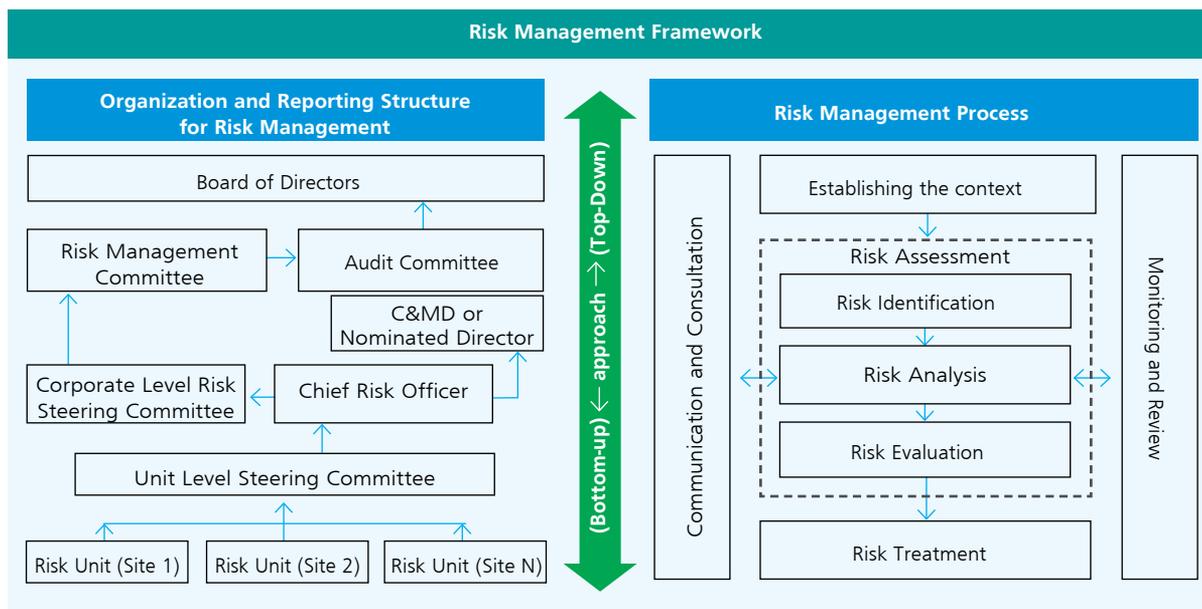

» **Natural or Man-made Calamity Risk**

Various risks are associated with gas transportation and distribution like blowout of Natural Gas pipelines, earthquake, tsunami, terrorist activities etc. These risks are being mitigated right from the designing stage of these projects. However, such natural or man-made risks are emergent events and cannot be totally eliminated. If such an event occurs, it may incur significant liabilities for the Company. To mitigate the impact of such incidents, your Company has Emergency Response and Disaster Management Plan.

» **Risk Management Framework**

At GAIL, risk management is an ongoing process and your Company has established a comprehensive Enterprise Risk

The structure of Risk Management Framework of your Company is as under:

Your Company has a Risk Management Policy and procedure to protect & add value to the organization & its stakeholders with the objective to establish a risk intelligence framework for objectively managing expected/ perceived & existing risk exposures by the decision-makers in compliance to prevailing statutory regulations so as to assure demonstrable achievement of objectives and improvement of financial stability of your Company.

Risk Management Approach

Your Company uses a structured 'Top-down' and 'Bottom-up' approach for managing risks. A 'Top-down' approach helps to distil insights and provide clarity on the key risks whereas the 'Bottom-up' approach helps to ensure comprehensive risk identification and prioritisation along with processes that control decision making across the Company ensuring a robust risk management culture.

Risk Identification

GAIL assesses different types of risks including business and financial risks as well as the non-financial risks such as climate change, fuel prices, energy supply security that could potentially influence and impact the business in the future. The identified risks are assigned a 'Risk Rating' based on their impact on the organisation and the likelihood of the occurrence. 'Risk Velocity' is taken into consideration

Management (ERM) framework with the vision to integrate risk management with its overall strategic and operational practices. The Company has formed a Risk Management Committee of the Board and its role is as specified in SEBI LODR Regulations. The primary objective is to ensure sustainable and stable business growth supported by a structured approach to risk management. The ERM framework includes designing, implementing, monitoring, reviewing and constantly improving the risk management procedures for the organisation.

The ERM framework at GAIL is designed after incorporating the requirements of ISO 31000 (Risk Management - Principles and Guidelines) and recommendations of the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

based on the time between the occurrence of an event and its impact on the Company.

In the changing business scenario and expansion of your Company into various other activities, business risks and their mitigation plans are assessed on regular basis. Top Corporate Level Key Risks are as under:

1. The impact on GAIL Operations & Business due to pandemic/ epidemic/ disaster situation.
2. Risk of delay in Project Execution due to delay in obtaining Right of Use(RoU)/Land
3. Risk of Underutilization of pipelines due to sluggish growth in gas energy consumption
4. GAIL's Restructuring Risk. [Challenges due to Monetization of GAIL's Pipeline Assets and Creation of Transport System Operator (TSO)]
5. Inadequate controls to protect the systems against malicious attacks may result in loss of data and disruption of operations.
6. Risk of reduction in margin of Petrochemical due to lower industry demand, lower price & high input cost.

Shri Rakesh Kumar Jain, Director (Finance) addressing the Banker's Meet

7. Market Risk of LNG in terms of adverse movement of crude oil price/ LNG prices and expected increase in domestic gas volumes.
8. Risk of major leakage –
 - (a) Risk of major LPG leakage in LPG pipeline and their RT / SV Stations
 - (b) Major leakage in NG Pipelines and their RT / SV Stations
 - (c) Major leakage in Petrochemical & GPU/C2-C3 Recovery Plants
9. Risk of Third Party Damage & Encroachment.
10. Risk of statutory/regulatory non-compliance.
11. Risk of unfavorable Regulatory changes.
12. Effect on GAIL business on account of shutdown of ONGC facilities and reduction in allocation of APM/non-APM Gas for GAILs internal consumption.

All above Top Corporate Key Risks along with Mitigation measures are being monitored closely by the Top Management.

Identified risks are deeply examined and quarterly reviewed by Corporate Level Risk Steering Committee (CLRSC), Biannually by Risk Management Committee (RMC), Annually by Audit Committee and Board.

5. Investor Relations and Engagement

6. Capability Development

» Human Capital

As on 31st March, 2022, your Company had 4754 (including Whole-time Directors and CVO) employees on its roll. Your Company understands that human capital is essential to strategic performance. Bringing human capital into the mainstream of business, decision-making means an efficient allocation of human resources. This, in turn, contributes towards higher skill levels, increased productivity, and greater innovation.

Your Company has dedicated resources to develop its human capital through training and mentoring. People are our most precious resource and their effective investment and management are critical to the continued success of GAIL.

Your Company's focus with regard to human capital management is to provide a safe and healthy work environment to deliver the performance required for business continuity while pursuing individual aspirations. Through strategic and targeted development programmes and employee engagement initiatives, your Company is building an employee base that can leverage their potential and talents to create a world where access to clean energy is a given.

Value Added per Employee reflects its emphasis to make the optimal & productive use of the available resources and business opportunities. For the year under review, Value Added per Employee was ₹ 379.79 lakh.

Your Company is committed to ensure that families of deceased employees do not feel left behind in their endeavor to lead a life with dignity while fulfilling its aspirations for a better future with access to quality education for their wards. With this spirit, relief measures with respect to housing and medical facilities and support towards the education of the dependent children are being extended to the families of all the deceased employees.

Your Company realises that its biggest asset is its employee base and a motivated and knowledgeable workforce is integral to reach its Strategy 2030 goals. Your Company

also understands that it is imperative to continually strive to develop and enhance the quality of its talent pool and nurture leadership. This would enable it to place competent persons at strategic roles. Your Company has adopted a multi-pronged approach to engage, retain, and tap into the potential of its high-value and capable workforce.

» **Leadership Development Program**

Starting from HVJ Project, your Company has developed a diverse portfolio across the Natural Gas Value Chain and has become an integrated entity. Taking cognizance of the challenges of coming years, GAIL has defined its business strategy till 2030 to continue the unstinted growth pattern. These new projects will need to be spearheaded by leaders who have the fortitude to act entrepreneurially by actively looking and advocating for new opportunities for the Company. Your Company believes that capacity building and enhancing the competency of employees is the key to the successful execution of its strategic plans. As a part of preparedness for coming challenges, your Company has put an Integrated Leadership Development Framework and Succession Planning Framework for facilitating leadership development and career planning.

The Development strategy comprises multi-pronged Talent Development Interventions which includes:

- 360 Degree Feedback Exercise
- Senior Management Development Centre (SMDC) Exercise
- Focused development programmes

360 Degree Feedback is aimed to provide an effective feedback to the concerned executive(s) via his/her peers, subordinates, and seniors.

Senior Management Development Centre (SMDC) exercise has been undertaken for senior executives in Chief Manager (E-5) Grade & above. SMDC is an aid to ensure better and inspiring leadership in the organization. Based on the input of SMDC exercise, the executives are provided competency-specific training in premier B-schools (like IIMs) and supplemented with books & e-learning modules.

Additionally, a structured Management Development Program is also imparted to all newly promoted General Manager/Chief General Manager (E-7 and E-8) level Executives.

Your Company is grooming the senior-level executives of GAIL at the level of Executive Director and Chief General Manager for the Board Position through capability building programs like Master Class for Directors and Board Room Effectiveness. The program was organized during 16th to 18th Feb 2022 and executives at E8-E9 level participated in the program.

» **Capability Development**

GAIL Training Institute (GTI) has been accredited by **American Society of Mechanical Engineers (ASME)** as Authorized Training Provider (ATP) for conducting ASME training programs such as ASME B31.8 and 31.8S codes. GAIL has its own Subject Matter Experts certified as Authorized Training Instructor (ATI), who are taking various sessions on ASME B31.8 and B31.8S standard, for internal participants as well as participants from external organizations.

GTI collaborated with **Ministry of External Affairs** in India's Development Partnership through Capacity Building

Initiative under Indian Technical and Economic Cooperation (ITEC) Program organized for Developing and Neighbouring Countries. Two such Revenue Generation programs on Flow Metering and CGD were conducted for Indian and overseas participant.

Strategy-2030 related capability building programs:

In line with the global business environment and India's future growth trajectory, Capability building programs on the emerging areas such as Renewable and Alternate energy (Solar and Wind Energy), Water Value Chain, Specialty Chemicals Segment and other upcoming areas such as Mobility Future, Industry 4.0 and Automation and others. Training programs are being conducted regularly for preparing the manpower to meet the objectives of GAIL's Strategy-2030.

About 156 Executives were covered under various programs such as Renewable energy technologies and strategies, Wind Energy: Technology & Business, Specialty Chemicals and Business & Technology of Solar PV System, which were conducted through IIT Bombay, ICT (Formerly UDCT) Mumbai, National Institute of Wind Energy Chennai, during the period of 2021-22, as Strategy 2030 initiatives.

In view of the business expansion of Natural Gas & City Gas Distribution (CGD) Sector in India, GTI is providing training programs on CGD to various CGD entities in India. GTI is conducting Technical and General Management training programs in CGD (through virtual online platform) for the external participants in revenue generation model. About 12 programs in different domains such as Natural Gas and CGD, ASME and Petrochemicals were conducted for external participants during the year 2021-22 with a total **revenue generation of about Rs 1.6 crore.**

Training programs in physical mode:

GAIL Training Institute has resumed trainings in physical mode since first COVID lockdown of March 2020. Training program in physical mode are being conducted on topics such "Training cum Certification program on Project Management" for capability development of GAIL executives in Project Execution and Project Management.

Skill Development programs:

Your Company is also playing a proactive role to support the National Skill Development Mission through active participation in the activities of Hydrocarbon Sector Skill Council (HSSC), the establishment of Skill Development Institute (SDI) at Raebareli, and providing Training and Recognition of Prior Learning (RPL) under Pradhan Mantri Urja Ganga Pipeline and City Gas Distribution Projects.

- A. Skill Development - Recognition of Prior Learning (RPL):
A total of 368 beneficiaries were covered in Urja Ganga Gas Pipeline and 516 beneficiaries were covered in GAIL O&M Centers Skilling Projects.
- B. GAIL Institute of Skills-Guna:
A total of 306 youths were trained in various job roles / trades during FY 2021-22.
- C. GAIL Institute of Skills-Nagaram:
A total of 87 youths were trained in various job roles / trades during FY 2021-22.
- D. Skill Development Institute- SDI- Raebareli :

- i. SDI Raebareli has been approved as **Govt. Training Partner (GTP)** for providing skill trainings under UP Skill Development Mission (UPSDM) from Oct-2021.
- ii. Training for total 6 No of job roles were conducted at SDI in FY 2021-22. Out of these 6 courses, 5 are affiliated to HSSC (*Hydrocarbon Sector Skill Council*). The new Job role of Domestic Data Entry Operator of IT-ITeS Sector Skill Council was introduced at SDI Raebareli from Oct-2021. The institute got **SMART accreditation** (*Skill Management and Accreditation of Training Centre*) with **5 star rating** to run four courses.
- iii. Admissions were done during FY 2021-22 and press advertisements were made for selecting candidates by online/offline examination. Classes were conducted for trainees at SDI Raebareli through virtual mode during pandemic. Lectures were also uploaded on YouTube channel of SDI Raebareli to facilitate the trainees.
- iv. SDI Raebareli started skill training for Girls candidate from FY 2021-22. 38 girls trained during FY 2021-22 in job-roles of Data Entry Operator, Industrial Electrician & Process Instt. Operator.

A total of 265 Candidates were skillfully trained for gainful employment including 108 candidates trained under UPSDM scheme of skilling during 2021-22 to begin the journey of institute on self-sustainable model.

» **Industrial Relations**

The Industrial/Employee relations climate remained congenial and harmonious. No Man Days or Man Hours were lost on account of any sort of industrial conflict during last year in your Company. Dialogues were held with employee collectives through Monthly / Bi-Monthly / Quarterly Meetings, both at Work Centre and Corporate levels.

With the objective to keep pace with the changing business requirements and to attract and retain quality workforce, review of HR strategy and policies is undertaken on a continuous basis, in alignment with the Organizational Strategy.

Employee Safety and Wellness:

Your Company is keen to provide its employees with a better hygienic settings, programmes for overall wellness and an environment for safe working conditions. The key initiatives include:

- i. Hygiene Index: Across the organisation, regular audits are done on various hygiene parameters in the canteens, pantries & guest houses. Based on these parameters, a hygiene index is calculated with a minimum acceptable rating of greater than 95%.
- ii. Health and Safety: Your Company is committed through its Corporate HSE Policy to implement occupational hygiene measures, regular medical surveillance and risk-based monitoring to ensure good health & well-being of employees.

Site Level Safety Committees, comprising management and non-management representatives with their assigned roles, lead the overall responsibility of safety at GAIL's operational sites. These committees review matters pertaining to the health and safety performance of respective sites at least quarterly and decide the corrective and preventive actions.

The Corporate Occupational Health Committee meets every quarter to monitor the occupational health programme and its effectiveness is evaluated based on the outcome of the health audit undertaken via in- house multi-disciplinary teams.

7. Health, Safety, and Environment Management

» **Corporate HSE Policy**

Health, Safety and Environment in your Company is of paramount importance and its attributes are embedded within core organizational values. Accordingly, your Company has formulated its apex document i.e Corporate Health Safety and Environment Policy. This apex document clearly indicates the top management commitment and employees' responsibilities to conduct business with robust and integrated Health, Safety and Environment (HSE) Management System.

Your Company endeavors to generate value through Sustainable Development by placing commitment to Occupational Health, Safety, and Environment of it personnel and installations. Adopting latest technologies and leveraging IT in safety your Company always strive to enhance the HSE at workplace. Employees and contract workers are encouraged to adopt safe working habits and positive behavior for driving HSE culture within the organization and are empowered to notify and stop any unsafe work/act, as may so arise.

» **Safety Performance**

Your Company has established the system of monitoring and keeping track of HSE Performance of GAIL Installations to know where we stand and way forward for strengthening the Health, Safety and Environment Management System of GAIL. HSE Score System is a unique tool to measure the performance of O&M sites on implementation of HSE Management System through pre-defined parameters.

Your Company achieved an **"HSE Score"** of 97.18% in the FY 2021-22. Your Company has achieved 'NIL' major reportable incident, in accordance with the incident categorization of OISD & PNGRB.

» **Safety Training & Awareness**

Safety training is vital for employees including contract workers with regard to understanding of safety practices related to their jobs; otherwise, an employee will find himself/herself at a higher risk for workplace injury and illness. Hence, training and awareness is identified as one of the key elements of HSE Management System of your Company to understand the hazards and risks associated with workplace. This facilitates to implement appropriate mitigation measures, which resulted in to loss control. Your Company having excellent training institute at Noida and Jaipur to impart regular Operational and Safety Training to employees.

Internal Operational and Safety Training System is also in place at O&M Installations in accordance with OISD & PNGRB Codes/Standards, where structured HSE trainings including Behavior Based Safety etc. are being imparted to employees and contract workers to upgrade their skills, knowledge, and competence, to perform their HSE functions effectively and develop an effective safety culture.

Case studies on Worldwide Industrial Incidents (occurred in the past) are being circulated to employees every month and Key Learning from case studies are being discussed at Installation during Monthly Safety Day Meeting on every 10th day of the month.

To give thrust on Safety Leadership at all O&M Installations, your Company has launched 'Behaviour Based Safety (BBS) Advance' to further strengthen and reinforce positive behavior. 24 Nos. of Handholding Visits were organized at sites by Consultants to penetrate BBS awareness among the workforce. The objectives of such Handholding Visits was to interact with Senior Leadership, BBS Champion, Lead Trainers, Members of Steering and Functional Committee, assisting the site in development and review of BBS Charters, review effectiveness of BBS Committee meetings etc.

» **Safety Audits**

Your Company has established structured procedure to carry Internal Technical and Safety Audit of O&M Facilities. Internal Audit (Proactive Safety Audit and Internal Audit-CO) is being conducted at least once in a year by in-house team to identify the improvement areas w.r.t PNGRB and other regulations, OISD Standards, Management Governance etc.

In addition to Internal Audits, External Safety Audits of Installations are carried out by Third Party Inspection Agencies, in accordance with the applicable National Codes and Standards. External Safety Audit of Major Installations is carried out once in a year in line with Manufacturer, Storage & Import of Hazardous Chemical Rules 1989. Technical and Safety Audits of GAIL LPG Storages and Handling facilities, NG/LPG Pipelines and CGD Networks are being carried out by Third Party Inspection Agency duly approved by PNGRB to ensure compliance wrt applicable regulations. OISD, a technical wing of MOPNG, Government of India also conducts Safety Audits of Gas Processing Plants, Petrochemicals and NG/LPG Pipelines once in 3/4 years to check the conformity with various OISD Standards and Guidelines.

International Yoga Day being celebrated

» **Occupational Health**

Your Company has implemented occupational hygiene measures and medical surveillance programs to monitor and control the occupational health of its employees, based on defined guidelines. Occupational Health check-up of regular employees conducted for FY 2021- 22 at O&M installations falling under the purview of Factories Act 1948, through pathological tests by following COVID-19 protocols. The Corporate Occupational Health Committee met on quarterly basis to monitor the Occupational Health Programs in GAIL. Accordingly, the effectiveness of Occupational Health System/ Facilities have been evaluated through the sample Occupational Health Audit undertaken by in-house multi-disciplinary teams at Khera and Jhabua Compressor Station in FY 2021-22.

» **HSE Initiative and Achievements**

Your Company has taken various initiatives to further improve the HSE Management System. Some of the important HSE initiatives and achievements are:

- 51st National Safety Week observed from 4-10 March 2022. Honorable Chairman and Managing Director has addressed the Officer In-Charges (OICs) on occasion of National Safety Day 2022.
- Revision of HSE Score System to capture the key performance areas of Safety in Operation & Maintenance considering latest/amended PNGRB/OISD Regulations/Standards.
- Uniform Internal Training Modules on Operational and Safety aspects circulated to O&M sites for implementation.
- Uniform Procedure for Organizing Emergency Preparedness Exercise/Mock Drill has been formulated and circulated to all the sites.
- Revision of Fire & Safety Policy by multi-disciplinary team to further strengthen the Fire Protection System.
- Implementation of HSE Score for GAIL's City Gas Distribution Networks and Retail Outlets of CNG/LCNG.
- 10th of every month is observed as "Safety Day" at each Operations & Maintenance (O&M) site in your Company during the FY 2021-22. On this day, the Officer-In-Charge of all installations (OICs) reviews all the safety related aspects of their installations under their jurisdiction. HSE Review Meetings, chaired by Functional Director(s) are organized to review the HSE Aspects and major exceptions report on Monthly Safety Day.
- Senior Level Committee headed by Executive Director (O&M) visited at GPU Vijaipur, Gandhar & Vaghodia and Petrochemical Complex, Pata to check to compliance of MB Lal Committee Recommendations.
- Safety Awareness Survey of GAIL Vijaipur (GAIL Employees, Contract workers, CISF and Contract security) carried out by external agency.
- 04 Nos. of Corporate Occupational Health Committee Meetings organized to discuss/ review the effectiveness of Occupational Health Guidelines implementation.
- Development of Uniform Template for Emergency Response and Disaster Management Plan (ERDMP) for GAIL Installations to make it concise and informative in line with regulations.
- 09 Nos. of T4S/OISD Audit Compliance Checks carried out by Corporate HSE Officials at O&M sites to physically verify the compliances of audit recommendations.
- Central Region Meet was conducted on 29th March 2022 at Ujjain, participated by Central Region OICs, O&M and F&S Executives.
- 03 Nos. of Electrical Safety Webinars organized for employees.
- 02 Nos. of Electrical Safety Audits have been carried out by multi-disciplinary group to check the conformity with electrical safety aspects.
- 5 Nos. of Knowledge Sharing Sessions to nurture the

Young Fire & Safety Executives were organized in which 29 Young Fire & Safety Executives have presented their technical papers on various Fire Safety Aspects.

8. Innovation, Research and Development

At your Company, innovation is regarded as a skill that can be imbibed to make it a way of life. To foster a culture of creativity and strive for improvement, your Company has continued with its Central Suggestion Scheme for identifying and nurturing home grown innovative and creative business ideas. The ideas germinate into projects that are implemented across its operational activities. The selected individuals or teams are recognised through the CMD trophy and monetary incentives. In addition, various Quality Circle Projects are undertaken at the site level, which result in high employee engagement and increased productivity. As a long-term goal, your Company is also pursuing nationally important research projects in collaboration with other PSUs to leverage the complimentary capabilities of different organisations synergistically.

As a responsible energy major, GAIL plays a key role in the country's energy transition aspiration towards net-zero economy by delivering energy that is ever safer and environment friendly, affordable, more reliable and accessible to common public through our world class natural gas infrastructure. R&D led innovations plays an important role in the green transition and provides a competitive edge and sustainability across our natural gas value chain operations.

Your Company is actively working with various collaborators for developing new and emerging technologies from concept testing at lab scale, through engineering design for validation at field scale and finally to pre-commercial stage. To meet this continuous journey of technology development, your Company always apportion sufficient budget for carrying out R&D and innovation activities. This year, our collaborative R&D activities are mainly focused on: Green hydrogen; Battery Technology; CO₂ utilization & waste valorization, process efficiency improvement etc.

Under the green hydrogen R&D initiative, your organization is collaborating with Indian Institute of Science Education and Research (IISER), Kolkata for the development of novel self-supported electrode for large scale electrochemical hydrogen generation. The project aims to design and develop low cost electro catalysts to produce hydrogen fuel with high purity. Further, a research project for efficient production of hydrogen through biomass gasification is being pursued with Indian Institute of Technology –Madras. In addition, the research work on production of ultra-pure hydrogen through integrated membrane reformer was continued with Indian Institute of Technology –BHU. Moreover, to support the GOI initiate in "National Hydrogen Energy Mission" for promotion of usage of green hydrogen, your organisation is also carrying out a pilot project on injection of green hydrogen in CGD network and evaluation of its impact Natural gas pipeline in association with EIL and IIT-Kanpur.

In the world of electrochemical batteries, there is a renewed research focus on for alternatives to Lithium Ion Batteries (LIB), as Lithium availability is very scarce and its supply is strategically controlled. In this aspect, recently much attention has been shifted to the Sodium (Na)-ion battery (SIB) due to the abundance and favorable geographical distribution of Sodium (Na). Considering this strategic significance, your Company has taken an initiative for development of environment friendly,

cost-effective, safe and high-performance Na-ion battery in association with Indian Institute of Technology –Bombay.

Our research effort on mitigation of CO₂ emissions through Microbial Route has reached a defining moment and the trial run of fixing of CO₂ using microbial algae at PATA has been initiated in collaboration with CSIR-CIMFR and once stabilized the process is expected to fix 1TPD of CO₂. Under the waste valorization initiative, the 1TPD pilot project on Waste plastic to Diesel established at CSIR-IIP has entered mission critical stage with the successful generation and validation of data for diesel production and now the plant is being prepared for gasoline mode data generation.

In addition, a research work on cloud based AI enabled IOT platform for monitoring, diagnosis and prognosis of faults in electric motors and drives is being pursued in association with Indian Institute of Technology-Kharagpur for strengthening the preventive health management (PHM) systems and practices. Besides, your Company also continued the long-range flight tests of unmanned aerial system prototypes developed in collaboration with Indian Institute of Technology – Kanpur for surveillance, reconnaissance and asset monitoring. Further, your Company is also involved with CSIR-CECRI in the development of novel thermal barrier coating and filler materials for the firebox of gas cracking furnaces. Successful development and application of these materials is expected to increase the life span of box furnace and reduce the thermal losses.

Your Company has been granted 3 Indian patents and also filed 3 provisional Indian patents applications.

Partnering or joining consortia is an essential part of the innovation process to mitigate the financial risk involved in capital intensive research process. In this direction, your Company is exploring the option to collaborate with other Oil & Gas PSU's to carry out Nationally Important Projects (NIP) for the benefit of organisation and nation.

Further, to leverage the complementary capabilities of academia and industry, your Company pursues mission mode research projects through Centre of Excellence in Oil, Gas and Energy (CoE-OGE) at IIT-Bombay which was setup by all central oil & gas PSU's. Currently, your Company is actively exploring five mission mode projects in the area of pipeline integrity management, life-cycle assessment, alternate pipeline materials, battery technology etc.

In addition to above, your Company has majorly emphasized on implementation of innovation projects through R&D budget. These projects are being carried out at various sites for performance and efficiency improvement through technology upgradations and modernisations of existing infrastructures.

Having well-defined innovation nurturing processes is important for establishing an innovative culture in the organization. Under this initiative, your Company has continued with Central Suggestion Scheme for prioritization, and experimenting in-house developed innovative and novel business ideas. The team selected for the successful idea or scheme is awarded the coveted CMD trophy and citation during organization foundation day celebrations.

9. Total Quality Management

Your Company is committed to enhance customer satisfaction and standardizing business processes through the implementation of a Quality Management System.

Your Company endeavours for continual and sustainable improvement through the implementation of effective quality practices, innovation and standardization. Quality Management System and Energy Management System have been implemented along various Pipelines & Process units also at Corporate and Marketing offices. Your Company undertakes Quality Circle Projects with engagement of its employees resulting in high employee morale and increased productivity.

Voice of customers is being captured through Customer Value Management and Customer Satisfaction Index surveys.

Your Company is proud to share that Customer Satisfaction Index for FY 2021-22 is 96%.

10. Sustainability Initiatives

Your Company firmly believe in integrating ESG in our value chain and contribute to creating a better world for the next generation. Your Company believe that sustainability is at the core of its business strategy and it helps us to create long term value for our stakeholders.

Due to continued efforts in the fiscal year, your Company won the prestigious, "Sustainably Growing Corporation of the year" by the Federation of Indian Petroleum Industry (FIPI).

Your Company is amongst the only 10 Indian companies to be highlighted at the United Nations Climate Change Conference of Parties (COP26) 2021, as a part of UN Global Compact – Accenture CEO Study on Sustainability. This is the largest CEO study ever conducted on sustainability and climate change, published on the opening day of COP26 in Glasgow, Scotland. Over 1200 global CEOs have been engaged for this study but only 110 have been highlighted in the report and we are glad to be a part of it.

There have been several initiatives undertaken towards environment and energy efficiency in our plants such as installation of additional solar PV plant of 2.64 MWp capacity is underway at Pata plant and a Heat Recovery Steam Generator (HRSG) has been commissioned at Vijaipur for waste heat recovery.

Your Company is working towards formulating Science Based Net Zero Action Plan and have also participated in a project for developing an internal carbon price with the support of GIZ, Germany and coordinated by SCOPE.

Your Company is thrilled to announce that we are in the process of building India's largest green hydrogen plant, in line with the National Hydrogen Mission.

In line with the Gol Hydrogen Mission, your Company is setting up a 10MW Green Hydrogen plant in its Gas Processing Plant at Vijaipur, Guna District, Madhya Pradesh. Your Company has also commenced a first of its kind pilot in India to mix hydrogen into natural gas. It is expected that this pilot project will help create a robust standard and regulatory framework to cover the aspects of injecting hydrogen into natural gas and pave the path for carrying out multiple similar projects across India.

Your Company is also working towards inclusion of CBG. GAIL is setting up a Compressed Biogas (CBG) plant in Ranchi for processing approximately 150 TPD of Municipal Solid Waste (MSW).

11. Environment Protection and Conservation/ Renewable Energy Developments

With Integrated Management System (Quality Management System, Environment Management System and Occupation Health & Safety Management System) Certifications, your Company is committed towards maintaining and ensuring a safe and clean environment. Being a flagship energy Company, your Company is committed to play a key role in building a sustainable energy future for the country. Your Company has a Corporate HSE as well as Sustainable Development Policy to prevent environmental degradation and aims to continue growing in a sustainable manner to the benefit of our Communities, Environment and Stakeholder at large. Sustainability Steering Committee supports the Sustainable Development Policy directives, and they are accountable for executing the Company's sustainability ambitions and management of relevant risks and performance.

Your Company by virtue of its business in Natural Gas plays an instrumental role in transitioning towards a low-carbon economy. Your Company has significantly contributed in reducing the carbon emissions by development of pipeline networks, which has led to the supply of gas as a fuel and feedstock to power, fertilizer, CGD, and other industries, where natural gas emits 50 to 60 percent less carbon dioxide (CO₂) than conventional fuels. It also emits greenhouse gases with a lower life cycle into the atmosphere. Unlike coal, natural gas does not require huge amount of water for its purification and it does not contaminate the ground water. Further, it is either transported through the pipeline as a gas or closed cryogenic vessel as liquid and therefore does not contaminate air during transportation. When used in power generation or as a transport fuel, Natural Gas results in negligible emissions of SO₂, NO_x, Hg and particulates compared with other fuels. The increased use of natural gas offers a significant contribution to improved local air quality and public health.

Your Company's O&M Installations are compliant to provisions of Environment (Protection) Rules and operate under valid Environmental Clearance from the Ministry of Environment, Forests & Climate Change. Air and Water Consent for Operation have been obtained from State Pollution Control Boards, and the same is in place as applicable. Your Company monitors environmental parameters to assess the environmental quality on regular basis through an in-house team and as well as by independent third-party agencies. Updated and latest technological instruments are used for monitoring environmental quality. The monitoring is done regularly and reports are sent to the respective State Pollution Control Boards. An audit is also conducted for the process plants and pipelines to ensure the proper functioning of the environmental management systems. Since your Company uses natural gas for its feedstock as well as fuel requirements, the level of pollutants emitted is consistently much below the national stipulated norms. Adequate stack height has been provided for the effective dispersion of pollutants. Low NO_x burners are used in all the furnaces. Loading facilities are provided with vapor-return circuits. Your Company's petrochemical complex at Pata and Vijaipur have the facility of monitoring stack air and ambient air on continuous basis. State-of-the-art permanent ambient air monitoring stations measure sulfur dioxide, oxides of nitrogen, hydrocarbons, carbon monoxide and noise levels on a real time basis.

Your Company has been continuously taking initiatives to safeguard the environment and biodiversity along with its diverse business segment. All major installations of your Company carry out extensive afforestation in their respective sites and maintain the requisite area as **Green Belt**. These greenbelt regions are home to a wide range of native plants and fauna. Within these green-belt zones, there are also large water reservoirs that are home to a variety of aquatic animals. In collaboration with local administration, a scientific approach to care and preservation of these green-belt regions is used. We conduct regular surveys as well as studies pertaining to environment and ecology of the area in and around GAIL units to ensure prevention and timely mitigation of issues.

Your Company always encourages and supports innovative and smart approaches to conserve water at sites through various water management initiatives such as reduction of freshwater consumption, rainwater harvesting system/ rainwater collection system, monitoring and management of wastewater discharge, wastewater treatment and recycling based on our Environmental Policy, National, Local and Regional Guidelines. Your Company considers water as a precious natural resource and hence its consumption is closely monitored and controlled. Further, state-of-the-art technologies have been adopted to reduce and treat the wastewater generated. Your Company maximizes the concept of reuse and recycle of water. Discharge at all locations is compliant to the norms of the respective State Pollution Control Boards. Your Company's operations at all locations are state-of-the-art and involve clean technologies. Adequate treatment and reuse of treated wastewater is adopted across the Company. Treated effluent water is recycled and used in-house for horticulture purposes within plant and township premises. Further, adequate measures are taken for waste management. Your Company manages its waste by efficiently segregating, treating and disposing based on the type of waste generated i.e. hazardous and non-hazardous. The water and wastewater samples are also analyzed at the in-house laboratory as well as external laboratories regularly.

Your Company has taken a number of initiatives to improve energy efficiency through effective management processes in the reporting year 2021-22 including the adoption (replacement and retrofitting) of efficient technologies, best practices, energy efficiency training/workshops, and 'climate change adaptation and mitigation' measures. Monitoring energy consumption, conducting energy audits, and implementing energy efficiency measures are all made easier by our highly efficient Integrated Energy Management System

In addition to the above, significant initiatives/achievements that have been taken your Company during the year 2021-22 are:

- Utilization of CO₂ captured through Microbial route in Pilot Scale: In recent years, cultivation of micro algae has received renewed attention on account of its possibility as a feasible CO₂ sequestration technology. Algae-based CO₂ conversion offers a cost effective option towards reducing our carbon footprint. GAIL is working in collaboration with Central Institute of Mining and Fuel Research (CIMFR), Dhanbad on the project CO₂ capture through Microbial Route in Pilot-scale at GAIL, PATA. Suitable species of algae has been identified and tested for the subject job. Artificial system of micro algal cultivation for CO₂ sequestration has also been designed. Construction activity has been completed and project commissioned.

- Construction of Butterfly Garden: Roadmap was prepared for development of butterfly garden at GAIL, Pata. Construction and developmental activities for the butterfly garden has been completed and inaugurated during FY 2021-22.
- GreenCo Rating is the 'first of its kind in the world' holistic framework that evaluates companies on the environmental friendliness of their activities using the life cycle approach. GAIL had embarked upon the journey of adoption of GreenCo Rating in FY 2019-20. In 2020, Vaghodia became the first GAIL location to get Silver rating by CII GreenCo, followed by Vijaipur which also received a silver rating by CII GreenCo. In FY 2021-22 GAIL Pata was the first GAIL site to win Gold Rating by CII Greenco.
- GAIL Vaghodia has won GOLD Award for Sustainability in APEX India Green Leaf Awards for 2021.
- SANJEEVANI – A Sustainable Journey: GAIL Pata is committed towards creating, maintaining and ensuring a safe and clean environment. GAIL, Pata has always contributed to sustainable development. Various green initiatives have been taken at GAIL, Pata from time to time which are testimony towards our endeavor to be seen as an environmentally responsible Company. GAIL Pata has published the second edition of magazine, 'SANJEEVANI – A Sustainable Journey', fully designed and crafted by in-house team which was released on 01.01.2022. Employees of GAIL Pata and their family members have beautifully contributed for this publication. This publication is one of the initiatives which further showcases our commitment towards environment and sustainability awareness among our employees.

12. Internal Control Systems & Their Adequacy

Your Company has distinct and efficient Internal Control Systems in place. It has a clearly defined organizational structure, manuals and standard operating procedures for its business units and service entities to ensure orderly, ethical and efficient conduct of its business. The Company's internal control system ensures efficiency, reliability, completeness of accounting records and timely preparation of reliable financial and management information. Internal financial controls framework and Risk Control Matrix (RCM) for various business processes is in place and reviewed continuously by the management. In addition, it also ensures compliance of all applicable laws and regulations, optimum utilization and safeguard of the Company's assets.

Your Company has independent and integral internal audit department having diligent professionals covering aspects relating to commercial and technical domains. The Internal Audit department functionally reports to the Audit Committee and administratively reports to the Director (Finance). The audit assignments are conducted as per the annual audit program approved by the Audit Committee. The Internal audit examines the effectiveness of internal controls through a risk-based audit of business processes. In congruence with the mission of internal audit **"Assurance and advice that adds value to the organization"**, the root cause and impact of the significant audit observations are reported to the management. The Audit Committee reviews the significant findings of internal audit and C&AG audit regularly.

During the year, your Company outsourced the Internal audit of selected sites for the first time for a period of two years to

learn new insight in auditing practices & methodologies and technology-based audit techniques.

13. Corporate Social Responsibility

Your Company as a socially responsible Corporate understands and acknowledges its responsibilities towards the communities, the environment and all other stakeholders involved in the process. CSR function at your Company aims to promote social good and integrate economic, environmental and social objectives with the Company's operations and growth. In alignment with the vision of your Company, the CSR initiatives strive to enhance value creation in the society and the communities in which it operates, through its services, conduct & initiatives, so as to trigger poverty alleviation, promote sustained growth for the society, the community and those at the bottom of the pyramid, with the long term goal of contributing towards development of prosperous and inclusive India. In the year 2021-22, your Company has incurred an expenditure of ₹ 204.97 crore, which is 3% of the average net profit of the preceding three financial years on CSR activities.

Your Company has complied with DPE guidelines regarding spends on identified Thematic Areas, i.e. Health & Nutrition with special focus on COVID related measures indicating setting up of makeshift hospitals and temporary COVID Care facilities.

Auditors' Certificate on Corporate Governance

To the members of GAIL (India) Limited

We have examined the compliance of conditions of Corporate Governance by GAIL (India) Limited ("the Company") for the year ended March 31, 2022, as stipulated in the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations - 2015") and Guidelines on Corporate Governance for Central Public Sector Enterprises, 2010 issued by Department of Public Enterprise (DPE Guidelines).

Management Responsibility

The compliance of conditions of Corporate Governance is the responsibility of the Management. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in the Listing Regulations - 2015 and DPE guidelines.

Auditors' Responsibility

1. Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
2. We have examined the books of account and other relevant records and documents maintained by the Company for the purpose of providing reasonable assurance on the compliance of the conditions of the Corporate Governance requirements by the Company.
3. We conducted our examination of the relevant records of the Company in accordance with the Guidance Note on Reports or Certificates for special purposes (Revised 2016) issued by the Institute of Chartered Accountants of India (ICAI). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by ICAI. We have complied with the relevant applicable requirements of the Standard on Quality (SQC) 1, Quality Control for firms that perform audits and reviews of historical financial information, and other assurance and related service engagements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the Securities and Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015 and in DPE Guidelines, except:

- a) As stated in Para No. 2(ii) of the Corporate Governance Report, the Company has not complied with requirements of regulation 17(1)(b) of Listing Regulations – 2015, with regard to composition of the Board of Directors comprising of at least 50% Independent directors during the period April 01, 2021 till November 21, 2021 in the financial year 2021-22.

Annual Report on Corporate Social Responsibility (CSR) activities (Pursuant to Section 135 of the Companies Act, 2013, read with the Companies (Corporate Social Responsibility Policy) Rules, 2014 [Including any statutory modification(s) or re-enactment(s) for the time being in force])

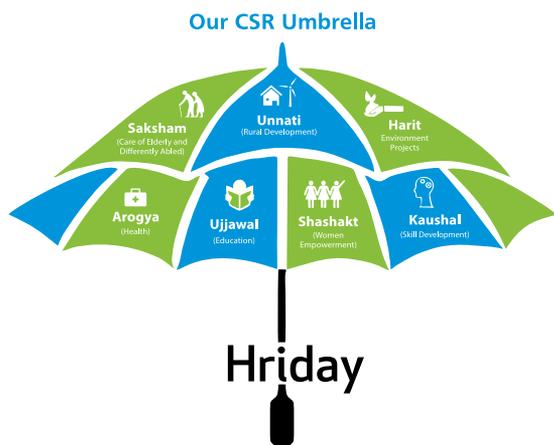

1. BRIEF OUTLINE ON CSR POLICY OF THE Company

Your Company remains committed towards taking up CSR projects that benefit the communities in & around its work centres and results, over a period of time, in enhancing the quality of life & economic well-being of the local populace. Your Company adopts a multi-stakeholder approach, collaborating with communities, government and nongovernment organisations, academic institutions and others, in an effort to identify emerging issues, develop projects and effectively respond to challenges. Your Company endeavours to follow best practices in identifying, implementing, sustaining and monitoring its CSR interventions to maximize sustainability, scalability and transparency. Your Company believes that, it is in responding to the needs of the people, benefiting communities and protecting the environment which will ultimately lead to the goal of sustainable progress of the larger community.

In alignment with the vision of the Company, GAIL CSR Policy outlines that through its CSR initiatives, your Company strive to enhance value creation in the society/community in which it operates, through its services, conduct and initiatives to promote sustained growth for the society and community with environmental concern.

A robust monitoring mechanism is in place to ensure transparency and effectiveness of CSR programmes. Periodic monitoring is conducted through various mechanisms such as site visits, regular project reporting, documentary evidences, impact assessment of projects, video conferencing etc.

While your Company has undertaken CSR projects and programmes on various subjects and areas as identified in Schedule VII of the statute, based on our experience of working with the communities surrounding our business areas, your Company has chosen seven fields as the **focus areas** for intervention from among those prescribed in Schedule VII. These seven focus areas remain at the heart of all our CSR interventions, and have been appropriately termed GAIL Hriday.

CSR initiatives of your Company have touched more than 25 lakh people in various geographies of the Nation in FY 2021-22.

Under GAIL Arogya, Medical healthcare facilities were extended to

underprivileged population through health centric initiatives such as operation of 60 nos. of Mobile Medical Units, STI clinics, COVID response initiatives, health camps, provision of medical equipments in Government Hospitals, clean drinking water and sanitation facilities. Under the aegis of MoP&NG, your Company has set up and commissioned PSA oxygen plants in 12 Government hospitals across 4 states viz. Uttar Pradesh (Lakhimpur Kheri, Kasganj, Prayagraj, Ayodhya, Auraiya), Madhya Pradesh (Panna, Sidhi, Bind, Guna), Rajasthan (Dholpur) & Karnataka (Udupi, Bidar). Shri Hardeep Singh Puri, Hon'ble Minister of Petroleum and Natural Gas & Housing and Urban Affairs, has inaugurated these PSA plants. The health initiatives undertaken by your Company have helped bridge gaps in existing health infrastructure.

Under GAIL *Kaushal*, around 1500 individuals were provided skill training, in trades related to hydrocarbon sector, plastic product manufacturing, computer operation, data entry operator, cutting tailoring, beauty culture, vocational training to visually impaired etc. More than 1200 of the trained beneficiaries have been gainfully employed in various sectors with each beneficiary contributing to the growth in respective household income annually.

CSR initiatives under GAIL *Ujjwal* aided in providing quality education to over 53,000 students by promoting education to underprivileged students in rural and urban slums, infrastructure support in Government schools and support for Atal Innovation Mission of Government of India in Assam & Madhya Pradesh. Under project GAIL Utkarsh, 260 students were provided free residential coaching for Engineering/Medical entrance examinations at 4 Utkarsh centres- Kanpur, Varanasi, Haldwani & Srinagar. The JEE/Medical exam of 2021-22 batch is yet to be conducted. However, in FY 2021-22, the results of 2020-21 batch was announced and out of total 180 enrolled students under the project, 167 students qualified JEE MAINS (93% batch result) and 94 students qualified JEE Advance (52% batch result).

Aids and assistance devices were provided to approx. 1000 persons with disabilities (PwDs) under GAIL Saksham. The initiative has helped in empowering the PwDs in gaining confidence level and sense of dignity, reduction in dependency on others as well as more access to livelihood opportunities.

Collaborative projects under CSR

As part of its collaborative initiatives, your Company has extended support towards six Skill Development Institutes (SDIs) over the years, viz. SDI- Raebareli, Bhubaneswar, Kochi, Vishakhapatnam, Ahmedabad and Guwahati. These SDIs have been set up through collaborative efforts of Oil PSEs under the aegis of Ministry of Petroleum & Natural Gas and are in line with "Skill India Mission" of Government of India. In FY 2021-22, your Company has extended support of ₹ 17.75 crore towards capex and opex of Skill Development Institutes (SDIs).

Under the guidance of MoP&NG, your Company has procured 25,000 oxygen cylinders and regulators on behalf of Oil & Gas PSUs, of which 3000 nos. was your Company's share. Your Company was the nodal PSU for this collaborative exercise undertaken to aid the nation in its fight against COVID. Also, GAIL contributed towards purchase and distribution of 1000 nos of Oxygen Concentrators under a collaborative initiative of Oil PSUs.

The total CSR Expenditure for the FY 2021-22 is ₹ 204.97 crs. ie. 3% of the average net profit of the preceding three years.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS & OUTGO AS PER SECTION 134(3) OF THE COMPANIES ACT, 2013 READ WITH COMPANIES (ACCOUNTS) RULES, 2014

A. CONSERVATION OF ENERGY

I. The steps taken or impact on conservation of energy:

As an environmentally responsible organization, GAIL continuously endeavors to adopt best available technology and Engineering practices to improve the energy efficiency in its operations. Our major installations are ISO-50001 certified for Energy Management System which reflects our commitment to energy conservation and environment. Following major energy conservation initiatives have been taken at our installations across the country:

a. Recovery of Flare Gas from LPG Units by Interconnection with FGRU of C2C3 Plant at Vijapur:

As the design pressure of C2C3 and LPG units Flare KODs are same, it was utilized to connect LPG flare header with C2C3 Flare Gas Recovery Unit (FGRU) to also recover flare gas from LPG Units. It is estimated to recover approx. 0.2 MMSCM (188 kg/hr) flare gas per month through this arrangement which is operational since 04.07.2021. Recovered flare gas will be used as fuel gas in Utility Boiler and HRSGs.

b. Commissioning of Rich-Lean Gas Corridor Project for integrated HVJ pipeline network:

For integrated operation of HVJ-GREP-DVPL and DVPL Upgradation Network, GAIL has implemented Rich-Lean Gas Corridor Projects with an approx. project cost of ₹ 60 crore. This modification project was commissioned in Jul-2021 and has enabled GAIL in efficient utilization of installed compressors on integrated HVJ pipeline network and is estimated to save approx. 0.22 MMSCMD Natural Gas as Fuel Gas.

c. Commissioning of Second HRSGs for DVPL Compressors at Vijapur:

GAIL has commissioned second HRSG (Heat Recovery Steam Generation) on 03.09.2021 for utilizing waste heat available from Gas Turbine Exhaust of Dahej Vijapur Pipeline (DVPL) Gas Compressors at Vijapur. The first HRSG unit was commissioned in last FY. The design capacity of HRSG unit is 17.5 TPH HP Steam and is estimated to save approx. 12 MMSCM fuel gas annually through reduction in load on natural gas fired utility boiler.

d. Installation of 10" PCV at Dadri for Pressure & Flow control in Dadri-Bawana-Nangal Pipeline (DBNPL)

GAIL NCR O&M has installed and commissioned 10" PCV at Dadri for pressure and flow control in DBNPL which has enabled GAIL to maintain optimum inventory/line pack in this pipeline while ensuring adequate supply pressure in 24" Dadri -Babrara HVJ pipeline to meet the customer requirement. This modification has been beneficial for efficient pipeline operations and better pipeline hydraulics management.

e. Commissioning of Grid Power Supply at Khera Compressor Station

With improvement in reliability of Grid Power for remotely located Khera Compressor Station in recent years, GAIL w.e.f. 14.03.2022 has shifted from GEG Power to Grid power which is being received from a 33KV/6.6KV Power source. This has resulted in improvement in energy saving since operation of GEG at partial load proved to be less energy efficient.

f. Installation of modern and new energy efficient equipments

At GAIL sites, there is a continuous drive to replace old and lesser energy efficient equipments with modern design and energy efficient equipments. Some major initiatives taken in this direction are mentioned below:

- Replacement of old motors at GAIL Gandhar with new energy efficient IE3 -Premium efficiency category motors in continuous running services like FGC Air Cooler, RGC Air cooler, LPG Column Air cooler motors. Significant Electrical Energy Consumption saving is anticipated on account of the same.
- Retrofitting/ replacements of conventional HPMV/HPSV lamps & other lighting systems with energy efficient LED fittings & lighting systems like High mast, Main gate, watch towers, etc. at plant areas & township carried out at different GAIL Installations
- Replacement of old and energy inefficient AC systems with energy efficient star rated AC systems.

II. The steps taken by the Company for utilizing alternate sources of energy:

Your Company has taken a number of steps to adopt cleaner and greener energy as mentioned below:

a. Green Hydrogen Blending in NG in CGD Network:

In line with the National Hydrogen Mission, as a pilot project, GAIL has started green hydrogen blending in City Gas Distribution (CGD) network of Avantika Gas limited, Indore after due approval from PESO to blend up to 2% Hydrogen in Natural Gas. The green hydrogen blending has operated successfully without any observation with 2% blending at present. Further, permission has been applied by GAIL from PESO for 5% Hydrogen blending. Impact Study on CGD /NG pipeline network due to various levels of Hydrogen blending in NG is also being carried out through consultant.

b. Installation and Commissioning of Solar Power Plants:

GAIL is making continuous efforts to harness the solar power potential at its installations and on this front has installed and commissioned smaller solar power plants (Total capacity approx. 426 KWp) at its various locations as under:

- **JLPL Network:** Grid-connected Solar Roof Top power generation Capacity – 270 KWp (Abu Road – 200 KWp, Nasirabad – 50 KWp, Mansarampura – 20 KWp)
- **KG Basin:** Grid-connected Solar Roof Top power generation capacity - 128 KWp
- **Mumbai Region:** Grid-connected Solar Roof Top power generation capacity - 28 KWp

III. The capital investment on energy conservation equipment

The capital investment on energy conservation equipment is approx. ~₹ 33 crore as per the following details:

Project	Capital Investment (₹ in lakh)
Commissioning of Second HRSGs for DVPL Compressors	2900
Recovery of Flare Gas from LPG Units by interconnection with FGRU	25
Roof Top Solar Power Systems at various GAIL installations	204
Replacement of old & obsolete equipments with energy efficient equipments	150

B. TECHNOLOGY ABSORPTION

I. The efforts made towards technology absorption:

GAIL has a policy to periodically review the technological obsolescence of installed equipments and instrument's and upgrade them with latest state of the art, reliable and safer systems. At various units of GAIL, many such upgradations as mentioned below have been taken up:

- a. GAIL has placed order for 10 MW PEM Electrolyzer for green hydrogen production having capacity of 180 kg/hr for installation at Vijaipur, Distt-Guna (M.P.)
- b. Upgradation of obsolete Fire & Gas detection system of Lean gas compressor-2, LEF-1&2, PRU-1&2 machine in LPG plant, Vijaipur.
- c. Installation of SIL2 certified Guided wave radar Level transmitter in LPG spheres B & D during statutory inspection of spheres at Vijaipur.
- d. Installation and commissioning of 5 USM's metering system in VKPL-II line, new 24" HP return line & 24" RLNG line from HVJ to GPU, Vijaipur

- e. Upgradation of Electrical control panels of Firewater pumps A, B and C from relay panel to PLC system at Gandhar.

II. The benefits derived like product improvement, cost reduction, product development or import substitution:

The various benefits have been realized through technological upgradation by various GAIL units such as:

- Contribution towards making self-reliant India
- Addressing Climate Change issues and reducing Carbon Emissions
- Improved system reliability
- Enhancement in process safety and safety preparation
- Better Gas Management
- Energy efficiency improvement
- Better Regulatory Compliance

III. In case of imported technology (imported during the last three years reckoned from the beginning of the financial year), following information may be furnished: NA

IV. Expenditure on R&D /Innovation initiatives

GAIL earmarks sufficient budget under R&D/Innovation initiatives to pursue diverse collaborative research works and various innovation activities in the areas of our business operations.

GAIL carries out the collaborative research works in association with various academic Institutes, Center of excellences and CSIR Laboratories. These collaborative efforts are mainly emphasized on emerging areas of interests such as green hydrogen; battery technology; CO2 utilization and Waste Valorizations; process optimization; pipeline integrity management and development of catalysts etc. while our innovation efforts are focused on performance and efficiency improvement of existing processes and systems through technology renewal and modernization works.

This year GAIL has incurred a total expenditure of ₹ 243.70 crore under R&D/Innovation initiatives.

C. Foreign exchange earnings and currency outgo

During FY 2021-22, Foreign exchange inflows were ₹ 20325.5 crore and Foreign Currency outflows were ₹ 46842.7 crore.

Form No. AOC-2

(Pursuant to clause (h) of sub-section (3) of section 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014)

Form for disclosure of particulars of contracts/arrangements entered into by the Company with related parties referred to in sub-section (1) of section 188 of the Companies Act, 2013 including certain arm's length transactions under third proviso thereto

1. Details of contracts or arrangements or transactions not at arm's length basis -

GAIL (India) Limited has not entered into any contract or arrangement or transaction with its related parties which is not at arm's length during financial year 2021-22.

2. Details of material contracts or arrangement or transactions at arm's length basis -

- a. Name(s) of the related party and nature of relationship - Petronet LNG Limited (PLL) which is a joint venture of GAIL (India) Limited.
- b. Nature of contracts/arrangements/transactions - Purchase of Regasified Liquefied Natural Gas (RLNG) and utilization of Regasification facilities of LNG Terminal(s).
- c. Duration of the contracts / arrangements/transactions – Gas Sales Purchase Agreement(s) (GSPA) dated 26.09.2003, 31.03.2010 (Amended on 15.12.2017) and Regasification Services Agreement dated 06.09.2012 which are ongoing.
- d. Salient terms of the contracts or arrangements or transactions including the value, if any – Petronet LNG Limited to provide regasification facilities, supply of RLNG (Long term and Spot). Transactions with Petronet LNG Limited for FY 2021-22 were ₹ 22,399.60 crore.
- e. Date(s) of approval by the Board, if any - Not applicable, since the contract was entered into in the ordinary course of business and on arm's length basis.
- f. Amount paid as advances, if any – NIL

17. Markets served by the entity:

a. Number of locations

Locations	Number
National (No. of States)	21 States: Uttar Pradesh, Madhya Pradesh, West Bengal, Tripura, Odisha, Telangana, Andhra Pradesh, Tamil Nadu, Kerala, Karnataka, Maharashtra, Gujarat, Rajasthan, Haryana, Assam, Chhattisgarh, Jharkhand, Uttarakhand, Bihar, Punjab, Goa 03 Union Territory: Delhi, Chandigarh, Puducherry
International (No. of Countries)	Two: 1. Singapore: GAIL Global (Singapore) Pte Limited 2. USA: GAIL Global (USA) Inc. and GAIL Global (USA) LNG LLC

b. What is the contribution of exports as a percentage of the total turnover of the entity?

The total contribution of exports as a percentage of the total turnover is 0.11%.

A brief on types of customers:

In Natural Gas Segment, the most prominent customers of GAIL are:

- Fertilizer Sector: The prime consumer of Natural Gas is Fertilizer sector, which accounts for 42% of our gas distribution
- Power Sector: GAIL supplies more than 20% of the gas consumed by gas based power plants
- Others: It includes Steel, Refineries, Sponge iron, Petrochemical, GAIL internal consumption, which accounts for 21% of our gas distribution.

Natural Gas Transportation: Natural Gas Pipeline Infrastructure connects various gas sources to different gas markets to meet the existing/future natural gas demand of various Powers, Fertilizer, CGD and other industries in the Country.

GAIL annually caters to more than 1,650 customers, spread across the length and breadth of the country, to meet their requirement of LLDPE & HDPE.

In Liquid Hydrocarbon segment, our prominent customers are various industries, domestic, commercial and auto sector.

2. a) Does the entity have procedures in place for sustainable sourcing? (Yes/No)
b) If yes, what percentage of inputs were sourced sustainably?

- Yes. At GAIL, we have green procurement practices which enables transparent, fair, competitive, cost effective and environment friendly procurement practices. There is a dedicated portal facilitated for all e-tenders which can be accessed at <https://gailonline.com/Tender.html>.
- Additionally, GAIL implements all government policies which contribute towards our sustainable sourcing, such as those on domestically manufactured iron and steel products, purchase preference policy for preference to domestically manufactured products, services or works relating to Telecom, domestically manufactured electronic products (DMEP)- preferential market access policy, preference under PPP-MII policy of MoP&NG etc. .

- The e-tenders have contributed to reduction of use of paper and evolved as a green initiative of Company. Our IT department along with support of other departments works efficiently to ensure seamless functioning of the portal and helps in providing our extended IT services.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

- In our waste management process, we aim to minimize both hazardous and non-hazardous waste. Additionally, we follow 3-R strategy of Reducing, Reusing, Recycling at GAIL sites, accelerating progress towards our waste reduction goal. For exploring more ideas of waste reduction at source or through small changes in operation, we carry out waste audits through internal and external agencies (SPCB/third party audits), it also helps in mapping our waste management compliances as per the regulations. We are proudly sharing that no waste related impact of business operations or product were found as per the waste audits.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity’s activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

No, EPR is not applicable to the entity’s activities. However, as a responsible and committed Company, we follow all the applicable government regulations.

Leadership Indicators

- 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

GAIL recognises the importance of proactive interaction with its stakeholders as it helps the Company in matching their expectations and building stakeholder trust and confidence. In addition, the Company consults with its stakeholders on sustainability issues. GAIL conducts materiality assessment process where it involves its stakeholders, and they are encouraged to give their perspectives on the Company's sustainability goals. The Company engages with the stakeholders through materiality survey and one-on-one discussions. The outcomes of stakeholder consultations are reviewed by Board Committee.

- 2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.**

GAIL conducts the materiality assessment exercise to examine the issues that are important to the business. Towards this end, the Company identifies important stakeholders who are involved in the materiality process and their perspectives are taken into account while assessing the key material concerns. This stakeholder feedback is used to determine the major ESG areas.

- 3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.**

GAIL's vision and strategic objective is to be a leader in the natural gas business while changing the lives of thousands of people. Because of the Company's direct interactions with local communities, it has been able to identify the most pressing requirements, comprehend the lives of the less fortunate, and develop appropriate strategic solutions. While understanding the uniqueness of each community's mindset, expectations, anxieties, and needs, the Company has launched many CSR programmes to empower less privileged and marginalised groups.

GAIL keeps track of the intervention's progress and gets input from local communities by engaging with them on a regular basis through various channels. The active participation of the community in the planning and implementation of our numerous CSR programmes is critical because it helps the Company to build trust and lays the framework for beneficial socioeconomic outcomes for both – GAIL and the communities.

Total fuel consumption (B)	5,50,14,953 GJ	4,86,52,359 GJ
Energy consumption through other sources (C)	15,28,339GJ	14,46,868 GJ
Total energy consumption (A+B+C)	5,85,26,370 GJ	5,20,29,055GJ
Energy intensity per rupee of turnover (Total energy consumption/ turnover in rupees)	640.15 GJ/INR crore	920.40 GJ/INR crore
Energy intensity (optional) – the relevant metric may be selected by the entity	NA	NA

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, GAIL (India) Limited { "GAIL" } engaged Bureau Veritas for carrying out an independent assurance of Sustainability Report for the reporting period from 1st April 2021 to 31st March 2022.

2. **Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.**

Yes, GAIL's Pata plant is a designated Consumer under Bureau of Energy Efficiency (BEE) Performance, Achieve and Trade (PAT) Cycle IV.

Yes, the target set under the PAT scheme of 6.17% reduction with baseline year of 2016-17 has been achieved.

3. **Provide details of the following disclosures related to water, in the following format**

Parameter	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Water withdrawal by source (in Kilo Litre)		
(i) Surface water	2,02,21,035	2,13,00,000
(ii) Groundwater	2,77,308.4	3,00,000
(iii) Third party water	0	0
(iv) Seawater / desalinated water	0	0
(v) Others (Municipal)	16,89,174	15,00,000
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	2,21,87,517.1	2,31,00,000
Total volume of water consumption (in kilolitres)	2,21,87,517.1	2,31,00,000
Water intensity per rupee of turnover (Water consumed / turnover)	242.68 KL/INR crore	408.64 KL/INR crore
Water intensity (optional) – the relevant metric may be selected by the entity	NA	NA

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, GAIL (India) Limited { "GAIL" } engaged Bureau Veritas for carrying out an independent assurance of Sustainability Report for the reporting period from 1st April 2021 to 31st March 2022.

4. **Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.**

Most of the GAIL facilities are zero liquid discharge. For the other sites, discharge of water at manufacturing sites is monitored to validate compliance with Central Pollution Control Board (CPCB)/ State Pollution Control Board (SPCB) effluent limit. Wastewater from processes is treated, through effluent treatment plants (ETP). The treatment includes adjusting pH, removing suspended solids and reducing Biological Oxygen Demand (BOD), if any. Further, no water bodies were affected by the discharge.

5. **Please provide details of air emissions (other than GHG emissions) by the entity, in the following format**

Parameter	Please specify unit	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
NOx	Tons/Annum	1,142	1,367
SOx	Tons/Annum	474	201
Particulate matter (PM)	Tons/Annum	290	291
Persistent organic pollutants (POP)	Tons/Annum	0	0
Volatile organic compounds (VOC)	Tons/Annum	53	70
Hazardous air pollutants (HAP)	Tons/Annum	0	0
Others – please specify (CO)	Tons/Annum	949	241

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, GAIL (India) Limited { "GAIL" } engaged Bureau Veritas for carrying out an independent assurance of Sustainability Report for the reporting period from 1st April 2021 to 31st March 2022.

6. **Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:**

Parameter	Unit	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Total Scope 1 emissions (Break- up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	41,33,249	32,81,058

Parameter	Unit	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	4,34,135	4,19,125
Total Scope 1 and Scope 2 emissions per rupee of turnover	Metric tonnes of CO ₂ Equivalent/ INR crore	50	66
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity		N/A	N/A

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, GAIL (India) Limited {“GAIL”} engaged Bureau Veritas for carrying out an independent assurance of Sustainability Report for the reporting period from 1st April 2021 to 31st March 2022.

7. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

We undertake various initiatives to reduce and monitor GHG Emissions. Methane, which is one of the components of Natural Gas, has a higher global warming potential and a lower emission rate during burning. During Natural Gas transmission, particularly between the pumping and storage operations and between the storage station and the end-user, some amount of gas escapes into the atmosphere, thus reducing the amount that is sold by operators to the market. We continuously strive to reduce leakage during transmission with the assistance of our industry peers to establish effective strategies to detect and reduce potential leaks. Our direct emission is primarily from burning of Natural Gas, diesel and LPG. Natural Gas and LPG are also vent out in miniscule quantities in some processes causing methane emissions. Electricity purchased for operational purposes including manufacturing and transmission contributes to indirect emissions. We follow certain practices to reduce the production related GHG emissions such as, Energy generation through renewable sources i.e., Solar, wind etc.

GAIL has a total installed capacity of 131.75 MW of alternative energy; out of which 117.95 MW are wind energy projects and 13.8 MW are solar energy projects. GAIL is implementing solar energy projects of 2.6 MW at Pata in Uttar Pradesh, and 3.2 MW at various other O&M Sites.

8. Provide details related to waste management by the entity, in the following format

Parameter	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Total Waste generated (in metric tonnes)		
Plastic waste (A)	249.68 MT	134.73 MT

Category of waste – Solid (MT)		
(i) Incineration	713.24 MT	4,003.28 MT
(ii) Landfilling	21 MT	216.05 MT
(iii) Other disposal operations (Onsite storage)	2.03 MT 4.110 KL	105.67 MT 2.360 KL
Total	736.27 MT 4.112 KL	4,324.90 2.36 KL

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. - Yes, GAIL (India) Limited {"GAIL"} engaged Bureau Veritas for carrying out an independent assurance of Sustainability Report for the reporting period from 1st April 2021 to 31st March 2022.

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

- GAIL aims to minimize the generation of waste from its facilities and try to reuse/recycle to the extent possible. The waste generated in its operation are both hazardous and non-hazardous.
- Hazardous wastes are segregated and stored in dedicated storage space. Later they are disposed off through approved recyclers. Plastic waste, bio-medical wastes and e-wastes are segregated and given to third party recyclers.
- GAIL at Pata plant has commissioned a dedicated waste storage facility for collection before dispatch to Common Hazardous Waste Treatment, Storage and Disposal Facility (CHWTSDF) and Recyclers.
- GAIL follows 3R Principle of Reducing, Re-using, and Recycling of non-hazardous waste generated at GAIL sites.
- Polymer packing is being recycled through the secondary and tertiary markets.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

GAIL does not have any offices around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.).

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, GAIL (India) Limited {"GAIL"} engaged Bureau Veritas for carrying out an independent assurance of Sustainability Report for the reporting period from 1st April 2021 to 31st March 2022.

5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

GAIL does not have any offices around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.).

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Waste Reclamation (Waste valorization initiative)	1. GAIL is pursuing a research project on recovering value added chemicals and fuels from petrochemical oily sludge using bubbling fluidized bed pyrolysis process. This project is being carried out in association with Indian Institute of Technology – Kanpur.	The results of the project shall mitigate oily sludge disposal problem while recovering value rich chemicals and fuels

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
		2. GAIL is also carrying out a research project to treat waste water using hydrate process in collaboration with Indian Institute of Technology-Madras.	Development of optimised hydrate based waste water treatment system is expected to be as energy efficient as compared to RO based wastewater purification

7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, our Emergency Response and Disaster Management Plan (ERDMP), PNGRB, Incident reporting System (IRS) and Evacuation Standard Operating Procedure ensure effective management of any disaster. Also onsite and offsite mock drills are conducted to bring awareness and prepare for actions to be taken during any accident. At GAIL, a dedicated disaster handling team consisting of incident handling team and manages any disaster affecting the Data Centre at Sector-1, Noida. Our multiple systems and mechanism ensures business continuity like our digital initiatives, risk management plan, uninterrupted supply of goods and services related to both our core and non-core operations from our suppliers.

-

8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

No adverse impact to environment is reported.

9. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

100% of new suppliers are screened on environment and social parameters.

PRINCIPLE 7 Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/ associations.

In FY 2021-22, GAIL was part of 31 national and international trade and industry chambers/associations.

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/ National)
1. Indian Wind Power Association (IWPA)	India
2. Chemical and Petrochemicals Manufacturer's Association (CPMA)	India
3. International Group of Liquefied Natural Gas Importers (GIIGNL)	International
4. Indian Centre for Plastics in the Environment (ICPE)	India
5. Natural Gas Society (NGS)	India
6. Confederation of Indian Industry (CII)	India
7. Global Reporting Initiative	India
8. Standing Conference of Public Enterprises (SCOPE)	India
9. TERI CBS and CSO Forum	India
10. Federation of Indian Petroleum Industry (FIPI)	India

2. Provide details of corrective action taken or underway on any issues related to anticompetitive conduct by the entity, based on adverse orders from regulatory authorities.

No such case was lodged.

Leadership Indicators

S. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/ No)	Frequency of Review by Board (Annually/Half yearly/Quarterly / Others- please specify)	Web Link, if available
1	Yes	GAIL team is actively associated with various associations like CPMA, ICPE, PlastIndia foundation, AIPMA, AIFTMA, GSPMA, SPMA, etc. for spreading campaign for "Say Yes to Plastics". GAIL is representing actively at various forums for creating positive image of plastics with a highly empowered committee on single use plastics with ICPE, Govt. Agencies. GAIL is actively supporting the initiatives on Plastic Waste Management through ICPE where the policy makers, bureaucrats, representatives from Industry, NGO etc. address the plastics waste management issues.	Yes	As and when required	
2	Yes	CMD, GAIL is a member of the Federation of Indian Chambers of Commerce and Industry (FICCI) Executive Committee and Co-Chair of FICCI Hydrocarbon Committee. The Hydrocarbon committee endeavours to deliberate on issues related to the energy security of the country and supplement various efforts of the Government of India and other bodies engaged in this area through its intellectual input. CMD, GAIL is also a member of the Oil Industry Development Board (OIDB).	Yes	As and when required	
3	Yes	GAIL had undertaken various studies in areas of gas advocacy such as unbundling in the natural gas sector in India and its impact, the study of gas markets hubs and strategic imperatives for GAIL. Additionally, study on opportunity Mapping for GAIL in the battery value chain, demand assessment in the refinery sector, steel sector, potential of natural gas as a replacement for solid and liquid polluting fuels consumption in industries under any CGD gas and price-sensitive demand assessment, enabling factors for natural gas in steel sector have been done to assess the dynamic natural gas markets of the country. Further, analysis on competitiveness of natural gas with a view of GST inclusion for industries has been undertaken. GAIL has assisted in the development of the oil and gas sector and the formulation of policy for the development of the CGD sector in India.	Yes	As and when required	

PRINCIPLE 8 Businesses should promote inclusive growth and equitable development
Essential Indicators
1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

GAIL did not undertake SIA in the current financial year as it was not mandated by the law.

3. Describe the mechanisms to receive and redress grievances of the community.

We have multiple mechanism ((Grievances Redressal Forum, Customer Relations Management (CRM), Vigilance Complaints, Vendor Grievance) to receive and resolve grievances of community, stakeholders, large public etc. Our grievances systems also ensure transparency, expectations of the community. GAIL has established a dedicated grievance cell in each of its offices and all complaints are received in a single system and each grievance is investigated separately and thoroughly with equal importance. GAIL has an Online Complaint System which has been introduced as a part of the 360° evaluation of receiving and redressing grievances of the community.

Additionally, we also redress and resolve the complaints received on CPGRAMS.

CPGRAMS is a Government of India Portal, aimed at providing the citizens with a platform for redressal of their grievances, where complaints are directly received by the MoP&NG.

Link of receiving and redressing grievances - : GAIL (India) Limited | Online Complaints:- <https://gailonline.com/onlineComplants.html>

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2021-22 Current Financial Year	FY 2020-21 Previous Financial Year
Directly sourced from MSMEs/ small producers	>90%	93%
Sourced directly from within the district and neighbouring districts	*	*

*Day to day services required for factory and townships are generally provided by the local suppliers mainly due to its cost effectiveness.

- GAIL (India) Limited is a Government Company under the administrative control of the Ministry of Petroleum & Natural Gas (MoP&NG). As a responsible Company we are supporting all our suppliers and encouraging participation of suppliers across the country. GAIL is working to improve the systems and procedures in place to capture more relevant data, all the data pertaining to sourcing from within the district and neighbouring districts will be updated.

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Not Applicable

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

As per the directives of NITI Aayog, GAIL is committed to raise the social and economic conditions of designated Aspirational districts (9 nos.). GAIL has gone over and beyond by implementing strategic CSR projects in 16 aspirational districts.

State	Aspirational Districts	Amount Spent (In ₹)
Andhra Pradesh	Vishakhapatnam	1.05
Assam	Barpeta	1.51
Assam	Darrang	0.73

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)

Yes, GAIL has a preferential policy which includes:

- Public Procurement Policy 2021 for Micro and Small Enterprises (MSEs).
- Policy to provide Purchase Preference - Make in India (PPP-MII)
- Policy to provide Purchase Preference to Domestically Manufactured Electronic Products in Furtherance to Public Procurement Policy (Preference to Make in India), Order 2017.

- Policy to Provide Purchase Preference to Domestically Manufactured Products of Petroleum and Natural Gas Sector in Furtherance to Public Procurement Policy (Preference to Make in India), Order 2017.
- Policy for Preference to Domestically Manufactured Products, Services or works Relating to Telecom in Furtherance to Public Procurement Policy (Preference to Make in India), Order 2017.
- Policy for Providing Preference to Domestically Manufactured Iron & Steel Products.

PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

Customers can log their complaints online, through letters, emails or in person through Physical Customer Complaint

Registers available at various Zonal Offices. To address grievances, GAIL has a Customer Relationship Management (CRM) system, after sales services as well as a 24x7 toll free customer care centre for resolving queries. With GAIL's Customer Relationship Management (CRM) system, existing customers of Natural Gas, Petrochemical, Liquid Hydrocarbon, Gas trading and Transmission business areas can log their complaints, grievances, and suggestions online at any hour through GAIL's webpage. Customers can raise a service request, register a complaint, or report an incident across the range of technical issues, product quality, and/or commercial matters. Complaints raised through the CRM module are forwarded to the relevant zonal offices who duly address these complaints with support from our technical, finance and marketing teams to resolve the issue at the earliest.

The GAIL Polymer Technology Centre (GPTC) addresses customer's concerns regarding polymer product quality and provides technical assistance to resolve product-related concerns of consumers on polymer grades. GAIL has dedicated portal for valuable feedback of all stakeholders to share their views.

LEADERSHIP INDICATORS

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Yes, we have dedicated platforms and channels for information on products and services of different business verticals. For more information please refer link - www.gailonline.com (Home → Business Verticals → Petrochemical)

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

At GAIL, we inform and educate consumers about safe and responsible usage of products and services. Contracts, MoUs and our Sales Policy have specific information on the usage of products. With regards to Natural Gas, LHC and Polymer segments the Material Safety Data Sheet (MSDS) is also provided to customers. Customers are also asked to retain statutory licences mandatory to handle products sold. Customer interactions, whether visits or meetings, are also a key channel for communicating information around the safe and responsible usage of products. Additionally, GAIL organises demonstrations on Fire and Safety to educate customers about safe and responsible use of NG. Moreover, our CGD Company also conducts safety training for downstream customers to educate them on safe use of natural gas. Periodic mock drills are also done to educate customers and the public about actions to be taken in case of any hazardous situations.

Further, consumer awareness activities are conducted through Industry associations like TAAPMA and their publications in which GAIL actively participates.

Whenever in-person visits were not possible, we have emphasized strongly on virtual meetings to inform and educate consumers on safe and responsible usage of our products and services.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

Yes, we have dedicated mechanism at GAIL to inform consumers about the risk of disruption/discontinuation of essential services. During COVID-19 pandemic, GAIL took all possible measures to continue the supply of essential resources with the support from its valuable stakeholders. GAIL provides timely information in case of planned shutdown. The APM/ Non-APM gas allocation to CGD entities and other sectors are done as per extant MoP&NG guidelines and in case of GAIL shutdown/supply disruptions/sales disruptions, the gas

allocation is modified accordingly. In case of unplanned/emergency shutdown, GAIL O&M takes all preventive actions to handle the fluctuation in a safe way and GAIL Marketing team allocates additional RLNG to bridge the gap of GAIL gas shortfall for minimum impact on total throughput.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable)? If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Yes

Through product labelling, GAIL strives to promote informed decisions about the social, economic, and environmental impact of the products consumers are purchasing. GAIL has taken measures to ensure that the information provided is adequate and accurate. There were no incidences reported of non-compliance with regulations or voluntary codes concerning the health and safety impacts of products and services within the reporting period.

The approaches to providing product specific information are outlined below:

In the case of Polymers, the following product information is displayed on 25 kg strong bags made of woven fabric:

- Grade Name
- Batch Number

STANDALONE FINANCIAL STATEMENTS

INDEPENDENT AUDITORS' REPORT

To the Members of GAIL (India) Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of GAIL (India) Limited (hereinafter referred to as "the Company"), which comprise of the Standalone Balance Sheet as at 31st March, 2022, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2022, its profit including other comprehensive income, changes in equity, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical

responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. We draw attention to Note No. 33 (c) to the standalone financial statements regarding, various final transportation tariff orders issued by Petroleum and Natural Gas Regulatory Board (PNGRB), which have been contested by the Company at Appellate Tribunal for Electricity (APTEL) and also certain customers have challenged these orders of PNGRB in Court of Law. Adjustment if any will be recognized as and when matter is finally decided.
2. We draw attention to Note No. 29 (I) (a) (iii) to the standalone financial statements regarding CESTAT order confirming the demand for the differential amount by the Central Excise Department in the matter pertaining to classification of 'Naphtha' manufactured by the Company, of ₹ 3,266 crore including applicable penalty and interest thereon. Considering the merits of the case, Company has filed an appeal before the Hon'ble Supreme Court. Based on the legal opinion obtained, the Company does not foresee any probable outflow in the matter and accordingly has disclosed the same under contingent liability.

Our opinion is not modified in respect of matters mentioned in above paragraphs.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
1	<p>Recognition and measurement of revenues in view of adoption of Ind AS 115 "Revenue from Contracts with Customers"</p> <p>We identified above as Key Audit Matter as the application of the revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Additionally, revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.</p> <p>Refer notes 21 and 40 to the standalone financial statements.</p>	<p><u>Principal Audit Procedures</u></p> <p>We assessed the Company's process to identify the impact of adoption of the revenue accounting standard and checked the appropriateness of accounting policy. Our audit approach consisted testing of design and operating effectiveness of the internal controls as follows:</p> <ol style="list-style-type: none"> 1. Evaluated the design of internal controls relating to implementation of the revenue accounting standard, wherever applicable. 2. Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, re-performance and inspection of evidence in respect of operation of these controls. 3. Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the revenue accounting standard.

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
		<p>Selected a sample of continuing and new contracts and performed the following substantive procedures:</p> <ol style="list-style-type: none"> 1. Read, analyzed and identified the distinct performance obligations in these contracts. 2. Compared these performance obligations with that identified and recorded by the Company. 3. Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration.
2	<p>Evaluation of uncertain tax positions and contingent liabilities</p> <p>The Company operates in multiple jurisdictions and is subject to periodic challenges by local tax authorities and other regulatory authorities such as PNGRB on a range of matters during the normal course of business including indirect tax matters We have identified above as Key Audit Matter as these involve significant judgment to determine the possible outcome of material uncertain tax positions and contingent liabilities including matters under dispute, consequently having an impact on related accounting and disclosures.</p> <p>Refer note 29 (l) to the standalone financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. Obtained an understanding of key tax matters and other contingent liabilities. 2. Read and analyzed the key correspondences, external legal opinions/ consultations obtained by the Company 3. Evaluated and challenged key assumptions made by the Company in estimating the current and deferred tax balances 4. Assessed and challenged the Company's estimate of the possible outcome of the disputed cases by considering legal precedence and other judicial rulings 5. Assessed and tested the presentation and disclosures relating to uncertain tax positions and contingent liabilities
3	<p>Derivative transaction and accounting of hedge transactions</p> <p>We have identified above as Key Audit Matter as hedge accounting has resulted into significant impact on financial statements coupled with complexity of its accounting, calculations and complex/numerous assumptions taken for establishing hedge relationship. Mark to market gain / loss pertaining to these derivative contracts are recognized in other comprehensive income.</p> <p>Refer note 58 to the standalone financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. Obtained an understanding of management's controls over recording of derivative transactions and application of hedge accounting. 2. Tested the accuracy and completeness of derivative transactions. 3. We have relied on the valuation report evaluating the appropriateness of the valuation methodologies applied and tested on sample basis the valuation of the derivative financial instruments. 4. Validated that the derivative financial instruments qualify for hedge accounting and tested accuracy of hedge effectiveness and ineffectiveness on sample basis.
4	<p>Technical parameters and voluminous transactions of Natural gas trading and transmission captured to measure Revenue and Inventory through integrated system and complexities involved therein.</p> <p>We have identified above as Key Audit Matter because determination of the quantity of Natural Gas sold and in stock through gas-pipelines involves use of various technical aspects of the natural gas such as pressure, temperature etc. captured from the measuring devices installed on the gas pipelines. We were informed that the methodology is standard and used industry-wide. This increases the complexity of validating quantity of Natural Gas sold and stock in pipeline as at 31st March, 2022.</p> <p>Refer notes 10 and 21 to the standalone financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. We have performed test of controls, assisted by our IT specialists, over the accuracy and completeness of the quantity captured via IT system through to the accounting software. 2. We have obtained management representation that the IT system applies a standard methodology to capture the quantity of Natural Gas for the purpose of Revenue and inventory measurement. 3. We have verified valuation of closing Inventories by applying various aspects made available to us by the management such as conversion factors, meter reading etc.

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
5	<p>Evaluation of the recoverable amounts of investments in and advances to certain subsidiaries</p> <p>The Company's evaluation of the recoverable amounts of investments in and advances to certain subsidiaries involves comparison of their recoverable value and the carrying amount. Management determines the recoverable amount based on management's estimates of future cash flows. Significant judgements are required to determine the aforesaid assumptions used in the discounted cash flow models. Due to the uncertainty of forecasting and discounting future cash flows, being inherently subjective, the level of management's judgement involved and the significance of the Company's investment as at 31st March, 2022, we have considered this as a key audit matter.</p> <p>Refer notes 5 and 7 to the standalone financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. We have carried out assessment of forecasts of future cash flows prepared by the management, evaluating the assumptions and comparing the estimates to externally available industry, economic and financial data. 2. Assessed the reasonableness of the key business assumptions such as revenue growth and EBITDA margins, by understanding the management's plan and performing retrospective testing. 3. We have evaluated the Company's valuation methodology in determining the fair value of the investment. In making this assessment, we also assessed the professional competence, objectivity and capabilities of the valuation specialist engaged by the management. 4. Assessed the reasonableness of the key assumptions adopted in the cash flow forecasts with the assistance of our internal valuation experts. 5. We have carried out discussions with management on the performance of the Company's investments as compared to previous year in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable. 6. Evaluated management's sensitivity analysis around the key assumptions.
6	<p>Provision for Performance Related Pay</p> <p>The provision for performance related pay for financial year 2021-22 is made based on Department of Public enterprises guidelines (DPE). The rating factors are yet to be approved by Board of Directors.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. We have reviewed the circular issued by DPE and verified the computations shared by the management for FY 2021-22 to satisfy that the methodology as prescribed in the circular have been followed and the provision made is reasonable. 2. We have verified the self-evaluation report of GAIL's Memorandum of Understanding (MOU) for the FY 2020-21 where ratings have been approved by the Board of Directors to determine reasonability of assumptions used for FY 2021-22. 3. We have also obtained MOU ratings communicated by DPE for FY 2020-21 mentioning scores and rating of the Company.

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information includes the Director's Report, Corporate Governance Report, Business Responsibility Report and Management Discussion and Analysis of Annual Report, but does not include the Standalone Financial Statements and our report thereon. The Director's Report, Corporate Governance Report, Business Responsibility Report and Management Discussion and Analysis of Annual Report is expected to be made available to us after the date of this auditors' report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available to us and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

When we read such other information as and when made available to us and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were

operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

1. We draw attention to the Note no. 47(B)(iii) to the standalone financial statements regarding inclusion of proportionate share in Jointly Controlled Operations in the standalone financial statements of the Company. The total proportionate share includes Assets of ₹1,324.74 crore, Liabilities of ₹107.89 crore, Expenditure of ₹515.23 crore, Income of ₹834.07 crore along with the elements making up the Cash Flow Statement and related disclosures. The aforesaid amounts have been included based on the unaudited statements of these entities. Management is of view that this will not have a material impact on the Company's financial statements.

Our opinion is not modified in respect of above matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanation given to us, we give in "**Annexure A**", a statement on the matters specified in paragraphs 3 and 4 of the said Order, to the extent applicable.
2. As required by Comptroller and Auditor General of India through directions/sub-directions issued under Section 143(5) of the Companies Act 2013, on the basis of written representation received from the management, we give our report on the matter specified in the "**Annexure-B**" attached.
3. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including the Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account;

ANNEXURE - C TO THE INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 3(f) to "Report on Other legal and regulatory requirements" of the Independent Auditors' Report of even date to the members of GAIL (INDIA) LIMITED on the standalone financial statements for the year ended 31st March, 2022.

Report on the Internal Financial Controls under Clause (i) of Sub section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of GAIL (INDIA) LIMITED ("the Company") as of 31st March, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit

opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system, over financial reporting, except timely closure of contracts, such internal financial controls over financial reporting were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the areas of improvement identified which needs further strengthening as reported above in determining the nature, timing, and extent of audit tests applied in our audit of the 31st March, 2022 Standalone (Ind AS) Financial Statements of the Company. However, these areas of improvement do not affect our opinion on the standalone Ind AS financial statements of the Company.

Notes to Financial Statements for the year ended 31st March, 2022

Earnings Per Share (EPS)

Basic and Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year. Diluted EPS are calculated by dividing the profit for the year attributable to the equity holders of the Company by weighted average number of Equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

The Standalone Financial Statements of the Company for the year ended 31st March, 2022 were authorized for issue in accordance with a resolution of the Board of Directors on 27th May, 2022.

Basis of Preparation

The Standalone Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind-AS) as notified by the Ministry of Corporate Affairs ("MCA") under section 133 of the Companies Act, 2013 ("Act"), read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The Financial Statements have been prepared as a going concern on accrual basis of accounting. The Company has adopted historical cost basis for assets and liabilities except for certain items which have been measured on a different basis and such basis is disclosed in the relevant accounting policy.

The Financial Statements are presented in Indian Rupees (₹) and the values are rounded to the nearest crore (up to two decimals) except when otherwise indicated.

1. Accounting Policies

1.1 Property, Plant and Equipment (PPE)

- a) The Costs of an item of PPE is recognized as an asset if, and only if:
 - i. It is probable that the future economic benefits flow to the entity; and
 - ii. The cost of an item can be measured reliably
- b) Property, Plant and Equipment are stated at original cost net of tax / duty credit availed, less accumulated depreciation / amortization and cumulative impairment losses. All costs relating to acquisition of fixed assets till commissioning of such assets are capitalized. In the case of commissioned assets where final payment to the Contractors is pending, capitalization is made on provisional basis, including provisional liability pending approval of Competent Authority, subject to necessary adjustment in cost and depreciation in the year of settlement.
- c) Stores & Spares which meet the definition of PPE (whether as component or otherwise) and satisfy

the recognition criteria, are capitalized as PPE in the underlying asset. Major inspection/overhaul/repair is recognized in the carrying amount of respective assets as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

- d) Technical know-how/license fee incurred at the time of procurement of PPE are capitalized as part of the underlying asset.
- e) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its PPE recognized as at 1st April, 2015 measured as per previous GAAP and use that carrying value as deemed cost of the PPE.

1.2 Intangible Assets

- a) Intangible assets like Right of Use (RoU), Software, Licenses which are expected to provide future enduring economic benefits are capitalized as Intangible Assets and are stated at their cost of acquisition less accumulated amortization and any accumulated impairment loss.
- b) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognized as at 1st April, 2015 measured as per previous GAAP and use that carrying value as deemed cost of the intangible assets.

1.3 Capital Work in Progress

- a) Crop compensation is accounted for under Capital Work-in-Progress on the basis of actual payments/estimated liability, as and when work commences where ROU is acquired.
- b) The capital work in progress includes Construction Stores including Material in Transit/ Equipment / Services, etc. received at site for use in the projects.
- c) All revenue expenses incurred during Construction Period, which are exclusively attributable to acquisition / construction of the asset, are capitalized at the time of commissioning of such assets.

1.4 Exploration and Development Costs

- a) The Company follows Successful Efforts Method for accounting of Oil & Gas exploration and production activities carried out through incorporate or unincorporated Joint Ventures in the nature of Production Sharing Contracts (PSC) and Revenue Sharing Contracts (RSC) with respective host government and various body corporates for exploration, development and production activities, which includes exploration and evaluation costs as follows:
 - (i) Geological and Geophysical (G&G) costs including seismic surveys, surface lease rentals etc. for exploration and appraisal proposes are recognized as revenue expenditure in the year in which these are incurred.
 - (ii) Cost of exploratory/ appraisal wells are carried as Capital Work in Progress - Intangible Assets

under development/ Capital work in progress. Such exploratory wells in progress are capitalized in the year in which the Producing Property is created. Such costs are written off in the year when determined to be dry / abandoned.

- (iii) Cost of all “exploratory wells in progress” is debited to Statement of Profits and Loss except of those wells for which there are reasonable indications of sufficient quantity of reserves and the enterprise is making sufficient progress assessing the reserves and the economic and operating viability of the project.

b) Capitalization of Producing Properties

Producing Properties are capitalized as “completed wells / producing wells” when the wells in the area / field are ready to commence commercial production on establishment of proved developed oil and gas reserves.

Cost of Producing Properties includes cost of successful exploratory wells, development wells, initial depreciation of support equipments & facilities and estimated future abandonment cost.

c) Depletion of Producing Properties

Producing Properties are depleted using the “Unit of Production Method (UOP)”. The depletion or unit of production charged for all the capitalized cost is calculated in the ratio of production during the year to the proved developed reserves at the year end.

d) Production cost of Producing Properties

Company’s share of production costs as indicated by Operator consists of pre well head and post well head expenses including depreciation and applicable operating cost of support equipment and facilities.

e) Accounting for joint operations

In relation to its interests in joint operations entered through Production Sharing Contracts (PSC) and Revenue Sharing Contracts, the company recognizes its proportionate share in assets, liabilities, revenue from the sale of the output, expenses of the joint operation entity, in the financial statements.

1.5 Foreign Currency Transaction

- a) Functional Currency of the Company is Indian Rupee (₹).
- b) Transactions in foreign currency are initially accounted at the exchange rate prevailing on the transaction date.
- c) Monetary items (such as Cash, Receivables, Loans, Payables, etc.) denominated in foreign currencies, outstanding at the year end, are translated at exchange rates (BC Selling Rate for Payables and TT Buying Rate for Receivables) prevailing at year end.
- d) Non-monetary items (such as Investments, Property plant and equipment, etc.), denominated in foreign currencies are accounted at the exchange rate prevailing on the date of transaction(s).
- e) Any gains or loss arising on account of exchange difference either on settlement or on translation is adjusted in the Statement of Profit & Loss.

- f) Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items is recognized in line with the gain or loss of the item arising on determination of fair value of such item, either in other comprehensive income or the Statement of Profit and Loss as the case maybe.

1.6 Borrowing Cost

Borrowing cost of the funds specifically borrowed for the purpose of obtaining qualifying assets and eligible for capitalization along with the cost of the assets, is capitalized up to the date when the asset is ready for its intended use after netting off any income earned on temporary investment of such funds. Other borrowing costs are recognized as expense in the year of incurrence.

1.7 Government Grants

Government Grants are not recognized until there is reasonable assurance that the Company will comply with conditions attached to them and the grants will be received. In case of depreciable assets, the cost of the assets is shown at gross value and grant thereon is taken to deferred income which is recognized as income in the Statement of Profit and Loss over the useful life of the asset. Government Grants related to non-depreciable assets may also require the fulfillment of certain obligations and would then be recognised in profit or loss over the periods that bear the cost of meeting the obligations.

1.8 Non-Current Assets held for Sale:

Non-current assets or disposable groups classified as held for sale are measured at the lower of carrying amount and fair value less cost to sale. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Non-current assets or disposable groups are classified as held for sale if their carrying amount will be recovered principally through a sale rather than through continuing use. Management must be committed to the sale expected within one year from the date of classification. Action required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

PPE and Intangible assets once classified as held for sale are not depreciated or amortised.

1.9 Inventories

- a) Stock of Liquefied Natural Gas (LNG) and Natural Gas in pipelines is valued at cost on First in First out (FIFO) basis or net realizable value, whichever is lower.
- b) Raw materials and finished goods are valued at weighted average cost or net realizable value, whichever is lower. Finished goods include excise duty and royalty wherever applicable.
- c) Stock in process is valued at weighted average cost or net realisable value, whichever is lower. It is valued at weighted average cost where the finished goods in which these are to be incorporated are expected to be sold at or above the weighted average cost.
- d) Stores and spares and other material for use in production of inventories are valued at weighted

average cost or net realisable value, whichever is lower. It is valued at weighted average cost where the finished goods in which they will be incorporated are expected to be sold at/or above cost.

- e) Surplus / Obsolete Stores and Spares are valued at cost or net realisable value, whichever is lower.
- f) Surplus / Obsolete Capital Stores, other than held for use in construction of a capital asset, are valued at lower of cost or net realisable value.
- g) Imported LNG in transit is valued at CIF value or net realizable value whichever is lower.
- h) Renewable Energy Certificates (RECs) are valued at cost on First in First out (FIFO) basis or net realizable value, whichever is lower.

1.10 Revenue recognition

The Company has applied the modified retrospective approach on transition to Ind AS 115.

- a) Revenue is recognized to depict the transfer of control of promised goods or services to customers upon the satisfaction of performance obligation under the contract in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Consideration includes contributions by customers towards assets over which Company has control.
- b) Where performance obligation is satisfied over time, Company recognizes revenue using input/ output method based on performance completion till reporting date. Where performance obligation is satisfied at a point in time, Company recognizes revenue when customer obtains control of promised goods and services in the contract.
- c) The Company uses output method in accounting for the revenue in respect of sale of services. Use of output method requires the Company to recognize revenue based on performance completion till date e.g. time elapsed. The estimates are assessed continually during the term of the contract and the Company re-measures its progress towards complete satisfaction of its performance obligations satisfied over time at the end of each reporting period.
- d) Company updates its estimated transaction price at each reporting period, to represent faithfully the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period including penalties, discounts and damages etc.
- e) Insurance claims are accounted for on the basis of claims admitted by the insurers
- f) Claims (including interest on delayed realization from customers) are accounted for, when there is significant certainty that the claims are realizable.
- g) Liability in respect of Minimum Guaranteed Offtake (MGO) of Natural gas is not provided for where the same is secured by MGO recoverable from customers. Payments/receipts during the year on account of MGO are adjusted on receipt basis.

- h) Minimum charges relating to transportation of LPG are accounted for on receipt basis.
- i) In terms of the Gas Sales Agreement with the customers, amount received towards Annual Take or Pay Quantity (ATOPQ) of Gas is accounted for on the basis of realization and shown as liability till make up Gas is delivered to customer as per the contract.

1.11 Depreciation /Amortisation

a) Property Plant and Equipment (PPE)

- i. Depreciation on PPE (excluding freehold land) is provided in accordance with the manner and useful life as specified in Schedule II of the Companies Act, 2013, on straight line method (SLM) on pro-rata basis (monthly pro-rata for bought out assets), except for the assets as mentioned below where different useful life has been taken on the basis of external / internal technical evaluation:

Particulars	Years
Furniture provided for the use of employees	6 years
Electrical Equipment's provided for the use of employees	4 years
Mobile Phones provided for the use of employees	2 years

- ii. Cost of the leasehold land is amortised over the lease period except perpetual leases.
- iii. Depreciation due to price adjustment in the original cost of fixed assets is charged prospectively.

b) Intangible Assets

- i. Right of use (ROU) having indefinite life (for which there is no foreseeable limit to the period over which they are expected to generate net cash flows given the fact that these rights can be used even after the life of respective pipelines) are not amortized, but are tested for impairment annually.
- ii. The cost of Intangible assets comprising software and licences, etc. are amortised on Straight Line Method (SLM) over a period of 5 years/actual useful life whichever is lower from the date of capitalization.
- iii. After impairment of assets, if any, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

c) Capital assets facilities installed at the consumers' premises

Capital assets facilities installed at the consumers' premises on the land whose ownership is not with the Company, has been depreciated on SLM basis in accordance with the useful life as specified in Schedule II of the Companies Act, 2013.

1.12 Employees Benefits

- (a) All short term employee benefits are recognized at the undiscounted amount in the accounting period in which they are incurred.
- (b) The Company's contribution to the Provident Fund is remitted to a separate trust established for this purpose based on a fixed percentage of the eligible employee's salary and debited to Statement of Profit and Loss / CWIP. Further, the Company makes provision as per actuarial valuation towards any shortfall in fund assets to meet statutory rate of interest in the future period, to be compensated by the Company to the Provident Fund Trust.
- (c) Employee Benefits under Defined Benefit Plans in respect of post-retirement medical scheme and gratuity are recognized based on the present value of defined benefit obligation, which is computed on the basis of actuarial valuation using the Projected Unit Credit Method. Actuarial liability in excess of respective plan assets is recognized during the year.
- (d) Obligations on other long term employee benefits, viz., leave encashment, compensated absence and long service awards are provided using the Projected Unit Credit method of actuarial valuation made at the end of the year.
- (e) Re-measurement including actuarial gains and losses are recognized in the balance sheet with a corresponding debit or credit to retained earnings through Statement of Profit and Loss or Other Comprehensive Income in the year of occurrence, as the case may be. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.
- (f) The Company also operates a defined contribution scheme for Pension benefits for its employees and the contribution is remitted to a separate Trust.
- (g) Liability for gratuity and Post-Retirement Medical Scheme (PRMS) as per actuarial valuation is funded with a separate trust.

1.13 Impairment of non-financial assets

The Carrying amount of cash generating unit are reviewed at each reporting date. In case there is any indication of impairment based on Internal / External factors, impairment loss is recognized wherever the carrying amount of asset exceeds its recoverable amount.

1.14 Provisions, Contingent Liabilities, Contingent Assets & Capital Commitments

- (a) Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities/assets exceeding ₹ 5 Lacs in each case are disclosed by way of notes to accounts except when there is remote possibility of settlement/realization.
- (b) Estimated amount of contracts remaining to be executed on capital accounts are disclosed in each case above ₹ 5 lacs.

1.15 Taxes on Income

Provision for current tax is made as per the provisions of the Income Tax Act, 1961. Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes considering the tax rate and tax laws that have been enacted or substantively enacted as on the reporting date.

Deferred tax relating to items recognized outside Statement of Profit and Loss is recognized outside Statement of Profit and Loss (either in Other Comprehensive Income or in Equity).

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

1.16 Research & Development Expenditure

Revenue expenditure on Research and Development is charged to Statement of Profit and Loss in the year in which it is incurred. Capital expenditure on Research and Development is capitalized in case the same qualifies as asset.

1.17 Cash and cash equivalents

Cash and cash equivalents consist of cash at bank and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

1.18 Segment reporting

The Management of the Company monitors the operating results of its business Segments for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

The Operating segments have been identified on the basis of the nature of products / services.

- a) Segment revenue includes directly identifiable with/ allocable to the segment including inter-segment revenue.
- b) Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result.
- c) Expenses which relate to the Company as a whole and not allocable to segments are included under unallocable expenditure.
- d) Income which relates to the Company as a whole and not allocable to segments is included in unallocable income.
- e) Segment assets including CWIP and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

1.19 Earning per share

Basic earnings per equity share is computed by dividing the net profit after tax attributable to the equity shareholders by the weighted average number of equity shares outstanding

during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

1.20 Liquidated damages/ Price Reduction Schedule

Amount recovered towards Liquidated Damages/Price Reduction Schedule are adjusted/appropriated as and when the matter is settled.

1.21 Statement of Cash Flow

Statement of cash flow is prepared in accordance with the indirect method prescribed in Ind AS 7, 'Statement of Cash Flows'

1.22 Fair value measurement

The Company measures financial instruments including derivatives and specific investments (other than subsidiary, joint venture and associates), at fair value at each balance sheet date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.23 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(A) Financial assets

a) Classification

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through Statement of Profit and Loss on the basis of its business model for managing the financial assets and the contractual cash flows characteristics of the financial asset.

b) Initial recognition and measurement

All financial assets are recognized initially at fair value

plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset.

c) Subsequent measurement

For purposes of subsequent measurement financial assets are classified in below categories:

i. Financial assets carried at amortised cost

A financial asset other than derivatives and specific investments, is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii. Financial assets at fair value through other comprehensive income

A financial asset other than derivatives comprising specific investment is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

iii. Financial assets at fair value through Statement of Profit and Loss

A financial asset comprising derivatives which is not classified in any of the above categories are subsequently fair valued through profit or loss.

d) De recognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

e) Investment in subsidiaries, joint ventures and associates

i. The Company has accounted for its investment in subsidiaries, joint ventures and associates at cost. The Company assesses whether there is any indication that these investments may be impaired. If any such indication exists, the investment is considered for impairment based on the fair value thereof.

ii. When the Company issues financial guarantees on behalf of subsidiaries, joint ventures and associates initially it measures the financial guarantee at their fair values and subsequently measures at higher of:

- The amount of loss allowance determined in accordance with impairment requirements of Ind AS 109 and
- The amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 115 'Revenue from Contracts with Customers'
- iii. The Company recognize the initial fair value of financial guarantee as deemed investment with a corresponding liability recorded as financial guarantee obligation. Such deemed investment is added to the carrying value amount of the investment in subsidiaries, joint venture and associates. Financial guarantee obligation is recognized as other income in Statement of Profit and Loss over the remaining period of financial guarantee.

f) Impairment of other financial assets

The Company assesses impairment based on expected credit losses (ECL) model for measurement and recognition of impairment loss on the financial assets that are trade receivables or contract revenue receivables and all lease receivables etc.

(B) Financial liabilities

a) Classification

The Company classifies all financial liabilities as subsequently measured at amortized cost, except for financial liabilities at fair value through Statement of Profit and Loss. Such liabilities, including derivatives shall be subsequently measured at fair value.

b) Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

c) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

i. Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate (EIR) method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

ii. Financial liabilities at fair value through Statement of Profit and Loss

Financial liabilities at fair value through Statement of Profit and Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through Statement of Profit and Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category comprises derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

d) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

(C) Embedded Derivatives

a) If the hybrid contract contains a host that is an asset within the scope of Ind AS 109, the Company does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract.

b) If the hybrid contract contains a host that is not an asset within the scope of Ind AS 109, the Company separate embedded derivatives from the host and measures at fair value with changes in fair value recognized in statement of profit or loss if, and only if:

- (i) The economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host.
- (ii) A separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- (iii) The hybrid contract is not measured at fair value with changes in fair value recognized in profit or loss

(D) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously

(E) Derivative financial instruments and Hedge Accounting

The Company uses derivative financial instruments, in form of forward currency contracts, interest rate swaps, cross currency interest rate swaps, commodity swap contracts to hedge its foreign currency risks, interest rate risks and commodity price risks.

a) Derivatives Contracts not designated as hedging instruments

i. The derivatives that are not designated as hedging instrument under Ind AS 109, are

initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

- ii. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

b) Derivatives Contracts designated as hedging instruments

- i. The derivatives that are designated as hedging instrument under Ind AS 109 to mitigate its risk arising out of foreign currency and commodity hedge transactions are accounted for as cash flow hedges.
- ii. The Company enters into hedging instruments in accordance with policies as approved by the Board of Directors, provide written principles which is consistent with the risk management strategy of the Company.
- iii. The hedge instruments are designated and documented as hedges at the inception of the contract. The effectiveness of hedge instruments is assessed and measured at inception and on an ongoing basis. The effective portion of change in the fair value of the designated hedging instrument is recognized in the "Other Comprehensive Income" as "Cash Flow Hedge Reserve". The ineffective portion is recognized immediately in the Statement of Profit and Loss as and when occurs. The amount accumulated in Cash Flow Hedge Reserve is reclassified to profit or loss in the same period(s) during which the hedged item affects the Statement of Profit or Loss Account. In case the hedged item is the cost of non- financial assets / liabilities, the amount recognized as Cash Flow Hedge Reserve are transferred to the initial carrying amount of the non-financial assets / liabilities.
- iv. If the hedging relationship no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in Cash Flow Hedging Reserve remains in Cash Flow Hedging Reserve till the period the hedge was effective. The cumulative gain or loss previously recognized in the Cash Flow Hedging Reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified in the Statement of Profit and Loss.

1.24 Leases

The Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. The Company assesses at

the inception of contract whether a contract is, or contains, a lease i.e. if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a Lessee

a) Identifying a lease

At the inception of the contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company assesses whether:

- i. The contract involves the use of an identified asset, specified explicitly or implicitly.
- ii. The Company has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use, and
- iii. The Company has right to direct the use of the asset.

Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

b) Initial recognition of Right of use asset (ROU)

The Company recognizes a ROU asset at the lease commencement date (i.e., the date the underlying asset is available for use). ROU assets are initially measured at cost less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, adjusted for any lease payments made on or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received.

c) Subsequent measurement of Right of use asset (ROU)

ROU assets are subsequently amortized using the straight-line method from the commencement date to the earlier of the end of the useful life of ROU asset or the end of the lease term. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. In addition, the right of use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurement of the lease liability. Refer to the accounting policies in section 1.12 Impairment of non-financial assets.

d) Initial recognition of lease liability

Lease liabilities are initially measured at the present value of the lease payments to be paid over the lease term. Lease payments included in the measurement of the lease liabilities comprise of the following:

- i. Fixed payments, including in-substance fixed payments
- ii. Variable lease payments that depend on an index or a rate
- iii. Amounts expected to be payable under a residual value guarantee; and

- iv. The exercise price under a purchase option, extension option and penalties for early termination only if the Company is reasonably certain to exercise those options.

e) Subsequent measurement of lease liability

Lease liabilities are subsequently increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

f) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption. Lease payments on short-term leases and leases of low-value assets are recognized as expense in Statement of Profit and Loss.

As a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the lease term.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables and finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Estimates and assumptions

Determination of discount rate as a lessee

Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. Company estimates its incremental borrowing rate, which is the rate of interest that the Company would have to pay to borrow on a collateralized basis over a similar term an amount equal to the lease payments in a similar economic environment using observable available inputs (such as market interest rates).

1.25 Recent accounting pronouncements - Standards issued but not yet effective:

The Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2022 vide notification No. G.S.R 255(E) dated 23rd March 2022, effective from 1st April 2022. The following are the major amendments

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards

(Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Net sale proceeds of items produced over the cost of testing

The amendments clarify that the excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of Property, Plant, and Equipment. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 116 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

NOTE-1 B: Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Company's standalone financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, accompanying disclosures, contingent liabilities/assets at the date of the standalone financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Company has identified the areas where significant judgements, estimates and assumptions are required. Further information on each of these areas and how they impact the various accounting policies are described below and also in the relevant notes to the financial statements. Changes in estimates are accounted for prospectively.

1. Judgments

In the process of applying the Company's accounting policies, management has made the judgments, which have the most significant effect on the amounts recognized in the standalone financial statements:

1.1 Contingencies

Contingent liabilities and assets which may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involve the exercise of significant judgments and the use of estimates regarding the outcome of future events.

2. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company determines its assumptions and estimates on parameters available when the financial statements are prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

2.1 Estimation uncertainties relating to global health pandemic from COVID-19:

On 11th March, 2020 the World Health Organization (WHO) declared the outbreak of new coronavirus ("COVID-19") as a global pandemic. This outbreak is causing significant disturbances and slowdown of economic activity. The Company's operations were slightly impacted in the last week of March 2020, resulting in slight reduction of sales volumes due to nationwide lockdown advised by the Government of India in view of COVID-19.

In assessing the recoverability of carrying amounts of Company's assets such as property, plant and equipment, trade receivables, loans/ advance, intangible assets, investments and

other assets etc., the Company has considered various internal and external information up to the date of approval of these financial statements and concluded that they are recoverable based on the cash flow projections.

The Company has assessed the potential impact of COVID-19 based on the current circumstances and expects no significant impact on the continuity of operations of the business on long term basis/ on useful life of the assets/on financial position etc.

2.2 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

2.3 Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

2.4 Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.5 Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgments in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Impairment of investment in subsidiaries, joint ventures or associates is based on the impairment calculations using discounted cash flow/net asset value method, valuation report of external agencies, Investee Company's past history etc.

Nature and Purpose of reserves

A Retained Earnings

The Retained Earnings represents accumulated earnings of the Company. Retained Earnings is a free reserve of the Company and is used for the purposes like issuing bonus shares, buy back of shares and other purposes (like declaring Dividend etc.) as per the approval of Board of Directors. It includes the re-measurement gain/(loss) on defined benefit plans which will not be re-classified to statement of profit and loss in subsequent periods.

B General Reserve

The Company transfers 10% of Profits every year to General Reserve and it is a free reserve.

C Bond Redemption Reserve

As per the Companies Act, 2013 a Bond Redemption Reserve is required to be created for all bonds/ debentures issued by the Company at a specified percentage. Further, MCA vide notification No. 574 (E) dated 16th August 2019, creation of Bond Redemption Reserve is not required for listed companies. However, there is no clarity in the notification whether non-creation of Bond Redemption Reserve is applicable for bonds issued before notification date. Therefore, the Company has decided to continue creation of Bond Redemption Reserve as per conservative approach. This reserve is created out of appropriation of profits over the tenure of bonds and during the current year the Company has fully repaid bonds. Accordingly, the Company has transferred back Bond Redemption Reserve to Retained earnings.

D Securities Premium

As per the Companies Act, 2013 when a Company issues shares at a premium, whether for cash or otherwise, a sum equal to the aggregate amount of premium received on those shares shall be transferred to 'securities premium account'. The securities premium can be used for issue of bonus shares, buy back of shares and payment of premium for redemption of debentures or preference shares.

E Capital Redemption Reserve

As per the Companies Act 2013, Capital Redemption Reserve is created when the Company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares purchased is transferred to Capital Redemption Reserve. Utilization of this reserve is governed by the provisions of the Companies Act 2013.

F Fair Value Gain/ (Loss) of Equity Instruments

This reserve represents the cumulative effect of fair value fluctuations of investments made by the Company in equity instruments of other entities. The cumulative gain or loss arising on such changes are recognised through Other Comprehensive Income (OCI) and accumulated under this reserve. This will not be re-classified to the statement of profit and loss in subsequent periods.

G Cash Flow Hedge Reserve

The Cash Flow Hedge Reserve represents the cumulative effective portion of gains/ (losses) arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. The cumulative gain/ (loss) arising on such changes are recognised through Other Comprehensive Income (OCI) and accumulated under this reserve. Such gains/ (losses) will be reclassified to statement of profit and loss in the period in which the hedged item occurs/ affects the statement of profit and loss.

Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

Ind AS 115 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

56 Financial Risk Management:

The Company is exposed to a number of financial risks arising from natural business exposures as well as its use of financial instruments including market risks relating to commodity prices, foreign currency exchange and interest rates; credit risk; and liquidity risk.

a. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, and derivative financial instruments.

(i) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the long-term domestic rupee term loan and foreign currency loans with floating interest rates. The Company manages

its interest rate risk according to its Board approved Foreign Currency and Interest Rate Risk Management Policy. Market interest rate risk is mitigated by hedging through appropriate derivatives products such as interest rate swaps & full currency swaps, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount.

Interest Rate Sensitivity

With all other variables held constant, the following table demonstrates the sensitivity to a reasonably possible change in interest rates on floating rate portion of forex loans and borrowings outstanding as on 31st March, 2022, after considering the impact of swap contracts.

Particulars	31 st March, 2022			31 st March, 2021		
	US Dollar (LIBOR)*		Others	US Dollar (LIBOR)		Others

*LIBOR- London Interbank Offer Rate

With all other variables held constant, the following table demonstrates the sensitivity to a reasonably possible change in interest rates on floating rate portion of INR loans and borrowings outstanding as on 31st March, 2022 after considering the impact of swap contracts.

Particulars	31 st March, 2022			31 st March, 2021		
	Interest Rate (RBI REPO Rate)*		Others	Interest Rate (RBI REPO Rate)*		Others

Effect on Profit Before Tax (₹ in crore)	(4.83)	+4.83		(3.50)	+3.50	

With all other variables held constant, the following table demonstrates the sensitivity to a reasonably possible change in interest rates on Corporate Linked Term Deposit Scheme (CLTD) outstanding as on 31st March, 2022 which are linked with Mumbai Interbank Offer Rate (MIBOR):

Particulars	31 st March, 2022			31 st March, 2021		
	INR (MIBOR)		Others	INR (MIBOR)		Others
Increase/decrease in (MIBOR) by 100 bps	+100	-100	Nil	+100	-100	Nil
Effect on profit before Tax (₹ in crore)	4.70	(4.70)		0.63	(0.63)	

(ii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Company transacts business in local currency and in foreign currency, primarily US Dollars. Company has obtained foreign currency loans and has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk. As per its Board approved policy, Company may mitigate its foreign currency risk through plain vanilla derivative products such as foreign exchange option contracts, swap contracts or forward contracts towards hedging such risks. These foreign exchange contracts, carried at fair value, may have varying maturities depending upon the underlying contract requirement and risk management strategy of the Company.

Foreign Currency Sensitivity

The following table demonstrates the sensitivity in the USD, EURO, and other currencies to the functional currency of Company, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives.

Particulars	31 st March, 2022				31 st March, 2021			
	USD		Other Currencies		USD		Other Currencies	
Increase/decrease in Exchange Rate (%)	1%	-1%	1%	-1%	1%	-1%	1%	-1%
Effect on Profit Before Tax (₹ in crore)	-25.92	+25.92	-1.29	+1.29	-19.93	+19.93	-0.56	+0.56

(iii) Commodity Price Risk

Company imports LNG for marketing and for its internal consumption on an on-going basis and is not exposed to the price risk to the

extent it has contracted with customers in India and overseas on back to back basis. However, the Company is exposed to the price risk on the volume which is not contracted on back to back basis. As most of the LNG purchase and sales contracts are based on natural gas or crude based index, such price risk arises out of the volatility in these indices. In order to mitigate this index linked price risk, Company has been taking appropriate derivative products in line with the Board approved 'Natural Gas Price Risk Management Policy'.

(iv) Equity Price Risk

The Company's listed and non-listed equity investments are susceptible to market price risk arising from uncertainties about future values of these investments. The Company manages the equity price risk through review of investments by Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all the equity investment decisions of the Company.

At the reporting date, the exposure to unlisted equity investments at fair value was ₹ 233.42 crore (Previous Year ₹ 255.46 crore).

At the reporting date, the exposure to listed equity investments at fair value was ₹ 5,058.89 crore (Previous Year ₹ 3,154.64 crore). A variation of (+/-) 10% in share price of equity investments listed on the stock exchange could have an impact of approximately (+/-) ₹ 505.89 crore (Previous Year ₹ 315.46 crore) on the OCI and equity investments of the Company. These changes would not have an effect on profit or loss.

b. Liquidity Risk

Liquidity risk is the risk that suitable sources of funding for Company's business activities may not be available. The Company's objective is to maintain optimum level of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It also maintains adequate sources to finance its short term and long term fund requirements such as overdraft facility and long term borrowing through domestic and international market.

c Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or fail to pay amounts due, causing financial loss to the Company and arises from cash and cash equivalents, derivative financial instruments and deposits with financial institutions and principally from credit exposures to customers relating to outstanding receivables. Credit exposure also exists in relation to guarantees issued by Company. Each segment is responsible for its own credit risk management and reporting. Credit risk is considered as part of the risk-reward balance of doing business. On entering into any business contract the extent to which the arrangement exposes the Company to credit risk is considered.

- (i) The Company has issued Corporate Guarantee to banks for ₹ 5,951.99 crore (Previous Year: ₹ 6,084.99 crore) for issuance of Performance Bank Guarantee to one of its subsidiaries in regard to implementation of various City Gas Projects.
- (ii) The Company has issued Corporate Guarantees for ₹ 7,541.31 crore (Previous Year: ₹ 7,311.66 crore) on behalf of its related parties towards Payment Security under TSA and PSA, Performance Guarantee for GSPA and availing SBLC Facility (excluding guarantees issued for availing working capital facility)

Trade Receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients.

58 Hedging Activities and Derivatives:

Derivatives not designated as Hedging Instruments:

The Company uses forward currency contracts, interest rate swaps, cross currency interest rate swaps, commodity swap contracts to hedge its foreign currency risks, interest rate risks and commodity price risks. Derivative contracts not designated by management as hedging instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value on each reporting date. Such contracts are entered into for periods consistent with exposure of the underlying transactions.

Derivatives designated as Hedging Instruments:

Cash Flow Hedges

The Company enters into hedging instruments in accordance with policies as approved by the Board of Directors with written principles which is consistent with the risk management strategy of the Company. Company has decided to apply

hedge accounting for certain derivative contracts that meets the qualifying criteria of hedging relationship entered into post 1st October, 2017.

Foreign Currency Risk

Foreign exchange forward contracts are designated as hedging instruments in cash flow hedges of firm commitment of capital purchases in USD and existing borrowings e.g. USD / Japanese Yen etc.

Commodity Price Risk

The Company purchases and sells natural gas / liquefied petroleum gas on an ongoing basis as its operating activities. The significant volatility in natural gas / liquefied petroleum gas prices over the years has led to Company's decision to enter into hedging instruments through swap transactions including basis swaps. These contracts are designated as hedging instruments in cash flow hedges of forecasted sales and purchases of natural gas / liquefied petroleum gas.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE STANDALONE FINANCIAL STATEMENTS OF GAIL (INDIA) LIMITED FOR THE YEAR ENDED 31 MARCH 2022

The preparation of standalone financial statements of GAIL (India) Limited for the year ended 31 March 2022 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the Company. The statutory auditor appointed by the Comptroller and Auditor General of India under section 139(5) of the Act is responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 27 May 2022.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the standalone financial statements of GAIL (India) Limited for the year ended 31 March 2022 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditor and is limited primarily to inquiries of the statutory auditor and Company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditor's report under section 143(6)(b) of the Act.

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITORS' REPORT

To the Members of GAIL (India) Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of GAIL (India) Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), its associates, and jointly controlled entities, which comprise of the Consolidated Balance Sheet as at 31st March, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the act, read with the Companies (Indian Accounting Standards) Rule 2015, as amended and accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and jointly controlled entities as at 31st March, 2022, and their consolidated net profit (financial performance including other comprehensive income), their consolidated changes in equity, and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the

Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion, on the consolidated Financial Statements.

Emphasis of Matter

- We draw attention to Note No. 33 (c) to the Consolidated financial statements regarding, various final transportation tariff orders issued by Petroleum and Natural Gas Regulatory Board (PNGRB), which have been contested by the Company at Appellate Tribunal for Electricity (APTEL) and also certain customers have challenged these orders of PNGRB in Court of Law. Adjustment if any will be recognized as and when matter is finally decided.
- We draw attention to Note No. 30 (l) (a) (iii) to the Consolidated financial statements regarding CESTAT order confirming the demand for the differential amount by the Central Excise Department in the matter pertaining to classification of 'Naphtha' manufactured by the Company, of ₹ 3,266 crore including applicable penalty and interest thereon. Considering the merits of the case, Company has filed an appeal before the Hon'ble Supreme Court. Based on the legal opinion obtained, the Company does not foresee any probable outflow in the matter and accordingly has disclosed the same under contingent liability.

Our opinion is not modified in respect of matters mentioned in above paragraphs.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, description of how our audit addressed the matter is provided in that context. Considering the requirement of Standard on Auditing (SA 600) on 'Using the work of Another Auditor' including materiality, below Key Audit Matters have been reproduced from the Independent Auditors' report on the audit of Standalone Financial Statements of the Holding Company.

Sl. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
1.	<p>Recognition and measurement of revenues in view of adoption of Ind AS 115 "Revenue from Contracts with Customers"</p> <p>We identified above as Key Audit Matter as the application of the revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Additionally, revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.</p> <p>Refer notes 21 and 39 to the Consolidated financial statements.</p>	<p>Principal Audit Procedures</p> <p>We assessed the Company's process to identify the impact of adoption of the revenue accounting standard and checked the appropriateness of accounting policy. Our audit approach consisted testing of design and operating effectiveness of the internal controls as follows:</p> <ol style="list-style-type: none"> Evaluated the design of internal controls relating to implementation of the revenue accounting standard, wherever applicable. Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, re-performance and inspection of evidence in respect of operation of these controls.

Sl. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
		<p>3. Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the revenue accounting standard.</p> <p>Selected a sample of continuing and new contracts and performed the following substantive procedures:</p> <ol style="list-style-type: none"> 1. Read, analyzed and identified the distinct performance obligations in these contracts. 2. Compared these performance obligations with that identified and recorded by the Company. 3. Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration.
2.	<p>Evaluation of uncertain tax positions and contingent liabilities</p> <p>The Company operates in multiple jurisdictions and is subject to periodic challenges by local tax authorities and other regulatory authorities such as PNGRB on a range of matters during the normal course of business including indirect tax matters. We have identified above as Key Audit Matter as these involve significant judgment to determine the possible outcome of material uncertain tax positions and contingent liabilities including matters under dispute, consequently having an impact on related accounting and disclosures.</p> <p>Refer note 30 (I) to the Consolidated financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. Obtained an understanding of key tax matters and other contingent liabilities. 2. Read and analyzed the key correspondences, external legal opinions/ consultations obtained by the Company 3. Evaluated and challenged key assumptions made by the Company in estimating the current and deferred tax balances 4. Assessed and challenged the Company's estimate of the possible outcome of the disputed cases by considering legal precedence and other judicial rulings 5. Assessed and tested the presentation and disclosures relating to uncertain tax positions and contingent liabilities
3.	<p>Derivative transaction and accounting of hedge transactions</p> <p>We have identified above as Key Audit Matter as hedge accounting has resulted into significant impact on financial statements coupled with complexity of its accounting, calculations and complex/numerous assumptions taken for establishing hedge relationship. Mark to market gain / loss pertaining to these derivative contracts are recognized in other comprehensive income.</p> <p>Refer note 56 to the Consolidated financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. Obtained an understanding of management's controls over recording of derivative transactions and application of hedge accounting. 2. Tested the accuracy and completeness of derivative transactions. 3. We have relied on the valuation report evaluating the appropriateness of the valuation methodologies applied and tested on sample basis the valuation of the derivative financial instruments. 4. Validated that the derivative financial instruments qualifies for hedge accounting and tested accuracy of hedge effectiveness and ineffectiveness on sample basis.
4.	<p>Technical parameters and voluminous transactions of Natural gas trading and transmission captured to measure Revenue and Inventory through integrated system and complexities involved therein.</p> <p>We have identified above as Key Audit Matter because determination of the quantity of Natural Gas sold and in stock through gas-pipelines involves use of various technical aspects of the natural gas such as pressure, temperature etc. captured from the measuring devices installed on the gas pipelines. We were informed that the methodology is standard and used industry-wide. This increases the complexity of validating quantity of Natural Gas sold and stock in pipeline as at 31st March, 2022,</p> <p>Refer notes 10 and 21 to the Consolidated financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. We have performed test of controls, assisted by our IT specialists, over the accuracy and completeness of the quantity captured via IT system through to the accounting software. 2. We have obtained management representation that the IT system applies a standard methodology to capture the quantity of Natural Gas for the purpose of Revenue and inventory measurement. 3. We have verified valuation of closing Inventories by applying various aspects made available to us by the management such as conversion factors, meter reading etc.

Sl. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
5.	<p>Evaluation of the recoverable amounts of investments in and advances to certain subsidiaries</p> <p>The Company's evaluation of the recoverable amounts of investments in and advances to certain subsidiaries involves comparison of their recoverable value and the carrying amount. Management determines the recoverable amount based on management's estimates of future cash flows. Significant judgements are required to determine the aforesaid assumptions used in the discounted cash flow models. Due to the uncertainty of forecasting and discounting future cash flows, being inherently subjective, the level of management's judgement involved and the significance of the Company's investment as at 31st March, 2022, we have considered this as a key audit matter.</p> <p>Refer notes 5 and 7 to the Consolidated financial statements.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. We have carried out assessment of forecasts of future cash flows prepared by the management, evaluating the assumptions and comparing the estimates to externally available industry, economic and financial data. 2. Assessed the reasonableness of the key business assumptions such as revenue growth and EBIDTA margins, by understanding the management's plan and performing retrospective testing. 3. We have evaluated the Company's valuation methodology in determining the fair value of the investment. In making this assessment, we also assessed the professional competence, objectivity and capabilities of the valuation specialist engaged by the management. 4. Assessed the reasonableness of the key assumptions adopted in the cash flow forecasts with the assistance of our internal valuation experts. 5. We have carried out discussions with management on the performance of the Company's investments as compared to previous year in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable. 6. Evaluated management's sensitivity analysis around the key assumptions.
6.	<p>Provision for Performance Related Pay</p> <p>The provision for performance related pay for financial year 2021-22 is made based on Department of Public enterprises guidelines (DPE). The rating factors are yet to be approved by Board of directors.</p>	<p>We have applied the following audit procedures in this regard:</p> <ol style="list-style-type: none"> 1. We have reviewed the circular issued by DPE and verified the computations shared by the management for FY 2021-22 to satisfy that the methodology as prescribed in the circular have been followed and the provision made is reasonable. 2. We have verified the self-evaluation report of GAIL's Memorandum of Understanding (MOU) for the FY 2020-21 where ratings have been approved by the Board of Directors to determine reasonability of assumptions used for FY 2021-22. 3. We have also obtained MOU ratings communicated by DPE for FY 2020-21 mentioning scores and rating of the holding Company.

Information Other than the Consolidated Financial Statements and Auditors' Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of other information. The other information includes the Director's Report, Corporate Governance Report, Business Responsibility Report and Management Discussion and Analysis of Annual Report, but does not include the consolidated financial statements and our auditors' report thereon. The Director's Report, Corporate Governance Report, Business Responsibility Report and Management Discussion and Analysis of Annual Report are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available to us and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

When we read such other information as and when made available to us and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action, if required.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group, its associates and jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") specified under section 133 of the Act read with the companies (Indian accounting standards) Rules 2015 as amended. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and of its associates and jointly controlled entities and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have

been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group, its associates and jointly controlled entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company, its subsidiaries, its associates and jointly controlled entities incorporated in India have adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the holding companies' managements and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and jointly controlled entities to continue

as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 2(f) under "Report on Other legal and regulatory requirements" section of our Independent Auditors' Report of even date to the members of **GAIL (India) Limited** on the consolidated financial statements for the year ended 31st March, 2022.

Report on the Internal Financial Controls with reference to Consolidated Financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2022, We have audited the internal financial controls with reference to Consolidated Financial Statements of GAIL (India) Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies (the Holding Company and its subsidiaries together referred to as "the Group"), its associate companies and jointly controlled companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding Company, its subsidiary companies, its associate companies and jointly controlled entities, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company, its subsidiaries companies, its associate companies and jointly controlled companies which are incorporated in India, Internal Financial Control over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls both issued by Institute of Chartered Accountants of India, with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to consolidated financial statement and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statement included obtaining

an understanding of internal financial controls with reference to Consolidated Financial Statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control of the Group, its associates and jointly controlled companies incorporated in India with reference to Consolidated financial Statements.

Meaning of Internal Financial Controls with reference to Financial Reporting

A Company's internal financial control with reference to Consolidated Financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated financial Statement for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to Consolidated financial Statement includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company;
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Reporting

Because of the inherent limitations of internal financial controls with reference to Consolidated financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated financial statement to future periods are subject to the risk that the internal financial control with reference to financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanation given to us the Holding Company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system, with

reference to Consolidated financial Statements except timely closure of contracts in case of holding Company in place and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at 31st March, 2022, based on the internal control Over financial reporting criteria established by the Group, its associates and jointly controlled entities considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India.

Other Matters

1. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated financial statement of the holding Company, insofar as it relates to 4 (four) subsidiaries and 11 (twelve) jointly controlled entities / associate companies which are incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Notes Accompanying Consolidated Financial Statement for the year ended 31st March, 2022

Corporate Information

GAIL (India) Limited ("GAIL" or "the Company" or "Parent") is a Limited Company domiciled in India and was incorporated on August 16, 1984. Equity shares of the Company are listed in India on the Bombay stock exchange and the National stock exchange. In addition, GAIL GDRs are listed at London Stock Exchange. The Government of India holds 51.45% in the paid-up equity capital of the Company as on 31st March 2022. The registered office of the Company is located at 16, Bhikaji Cama Place, R K Puram, New Delhi 110066.

The Company along with Subsidiary (the group) and its Joint ventures and Associate is the largest state-owned natural gas processing and distribution Company in India. The Company has a diversified business portfolio and has interests in the sourcing and trading of natural gas, manufacturing of LPG, Liquid hydrocarbons and Petrochemicals, transmission of natural gas and LPG through pipelines, City Gas, etc. GAIL is also engaged in the business of Oil and Gas Exploration and Production to increase the access to gas supplies through equity and joint venture participations.

The financial statements of the Company for the year ended 31st March, 2022 were authorized for issue in accordance with a resolution of the Board of Directors on 27th May, 2022.

Basis of Preparation

The Consolidated Financial Statements of the Group along with its Associates and Joint venture have been prepared in accordance with Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The Consolidated Financial Statements have been prepared on accrual basis of accounting. The Group has adopted historical cost basis for assets and liabilities except for certain items which have been measured on a different basis and such basis is disclosed in the relevant accounting policy.

The financial statements are presented in Indian Rupees (₹) which is functional currency of the Company and the values are rounded to the nearest crore (upto 2 decimals), except otherwise indicated.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of GAIL and its subsidiaries along with its joint ventures and associates as at 31st March, 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee

- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The financial statements of the Group and its subsidiaries have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances. If necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies if material to the group financials.

The financial statements of the subsidiary companies used in the consolidation are drawn up to the same reporting date as that of the parent i.e. year ended 31st March, 2022, except as stated in Note 29 (B).

Consolidation Procedure

- The consolidated financial statements of the Company and its subsidiaries are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after fully eliminating intra-Group balances and intra-Group transactions resulting in unrealized profits or losses.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- Eliminate in full intragroup assets and liabilities, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Group's investments in its associate and joint venture are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognized directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity, same is followed when opening financials are revised by the Joint venture/associates after date of consolidation in previous years. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture. The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit and loss.

The financial statements of the Group's associate and joint venture are prepared for the same reporting period as the Group except as stated in Note 29. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

1. Accounting Policies

1.1 Property, Plant and Equipment (PPE)

- a) The Costs of an item of PPE is recognized as an asset if, and only if:
 - (i) It is probable that the future economic benefits flow to the entity; and
 - (ii) The cost of an item can be measured reliably
- b) Property, Plant and Equipment are stated at original cost net of tax / duty credit availed, less accumulated depreciation / amortization and cumulative impairment losses. All costs relating to acquisition of fixed assets till commissioning of such assets are capitalized. In the case of commissioned assets where final payment to the Contractors is pending, capitalization is made on provisional basis, including provisional liability pending approval of Competent Authority, subject to necessary adjustment in cost and depreciation in the year of settlement.
- c) Stores & Spares which meet the definition of PPE (whether as component or otherwise) and satisfy the recognition criteria, are capitalized as PPE in the underlying asset. Major inspection/overhaul/repair is recognized in the carrying amount of respective assets as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.
- d) Technical know-how/license fee incurred at the time of procurement of PPE are capitalized as part of the underlying asset.
- e) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its PPE recognized as at 01.04.2015 measured as per previous GAAP and use that carrying value as deemed cost of the PPE.

1.2 Intangible Assets

- a) Intangible assets like Right of Use (RoU), Software, Licenses which are expected to provide future enduring economic benefits are capitalized as Intangible Assets and are stated at their cost of acquisition less accumulated amortization and any accumulated impairment loss.

- b) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognized as at 01.04.2015 measured as per previous GAAP and use that carrying value as deemed cost of the intangible assets.

1.3 Capital Work in Progress

- a) Crop compensation is accounted for under Capital Work-in-Progress on the basis of actual payments/estimated liability, as and when work commences where ROU is acquired.
- b) The capital work in progress includes Construction Stores including Material in Transit/ Equipment / Services, etc. received at site for use in the projects.
- c) All revenue expenses incurred during Construction Period, which are exclusively attributable to acquisition / construction of the asset, are capitalized at the time of commissioning of such assets.

1.4 Exploration and Development Costs

- a) The Company follows Successful Efforts Method for accounting of Oil & Gas exploration and production activities carried out through incorporate or unincorporated Joint Ventures in the nature of Production Sharing Contracts (PSC) and Revenue Sharing Contracts (RSC) with respective host government and various body corporates for exploration, development and production activities, which includes exploration and evaluation costs as follows:
 - (i) Geological and Geophysical (G&G) costs including seismic surveys, surface lease rentals etc. for exploration and appraisal proposes are recognized as revenue expenditure in the year in which these are incurred.
 - (ii) Cost of exploratory/ appraisal wells are carried as Capital Work in Progress - Intangible Assets under development/ Capital work in progress. Such exploratory wells in progress are capitalized in the year in which the Producing Property is created. Such costs are written off in the year when determined to be dry / abandoned.
 - (iii) Cost of all "exploratory wells in progress" is debited to Statement of Profits and Loss except of those wells for which there are reasonable indications of sufficient quantity of reserves and the enterprise is making sufficient progress assessing the reserves and the economic and operating viability of the project.

b) Capitalization of Producing Properties

Producing Properties are capitalized as "completed wells / producing wells" when the wells in the area / field are ready to commence commercial production on establishment of proved developed oil and gas reserves.

Cost of Producing Properties includes cost of successful exploratory wells, development wells, initial depreciation of support equipments & facilities and estimated future abandonment cost.

c) Depletion of Producing Properties

Producing Properties are depleted using the "Unit of Production Method (UOP)". The depletion or unit of production charged for all the capitalized cost is calculated in the ratio of production during the year to the proved developed reserves at the year end.

d) Production cost of Producing Properties

Company's share of production costs as indicated by Operator consists of pre well head and post well head expenses including depreciation and applicable operating cost of support equipment and facilities.

e) Accounting for joint operations

In relation to its interests in joint operations entered through Production Sharing Contracts (PSC) and Revenue Sharing Contracts, the Company recognizes its proportionate share in assets, liabilities, revenue from the sale of the output, expenses of the joint operation entity, in the financial statements.

1.5 Foreign Currency Transaction

- Functional Currency of the Company is Indian Rupee (₹)
- Transactions in foreign currency are initially accounted at the exchange rate prevailing on the transaction date.
- Monetary items (such as Cash, Receivables, Loans, Payables, etc.) denominated in foreign currencies, outstanding at the year end, are translated at exchange rates (BC Selling Rate for Payables and TT Buying Rate for Receivables) prevailing at year end.
- Non-monetary items (such as Investments, Property plant and equipment, etc.), denominated in foreign currencies are accounted at the exchange rate prevailing on the date of transaction(s).
- Any gains or loss arising on account of exchange difference either on settlement or on translation is adjusted in the Statement of Profit & Loss.
- Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items is recognized in line with the gain or loss of the item arising on determination of fair value of such item, either in other comprehensive income or the Statement of Profit and Loss as the case maybe.

1.6 Borrowing Cost

Borrowing cost of the funds specifically borrowed for the purpose of obtaining qualifying assets and eligible for capitalization along with the cost of the assets, is capitalized up to the date when the asset is ready for its intended use after netting off any income earned on temporary investment of such funds. Other borrowing costs are recognized as expense in the year of incurrence.

1.7 Government Grants

Government Grants are not recognized until there is reasonable assurance that the Company will comply with conditions attached to them and the grants will be received. In case of depreciable assets, the cost of the assets is shown at gross value and grant thereon is taken to deferred income which is recognized as income in the Statement of Profit and Loss over the useful life of the asset. Government Grants related to non-depreciable assets may also require the fulfillment of certain obligations and would then be recognised in profit or loss over the periods that bear the cost of meeting the obligations.

1.8 Non-Current Assets held for Sale:

Non-current assets or disposable groups classified as held for sale are measured at the lower of carrying amount and fair value less cost to sale. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Non-current assets or disposable groups are classified as held for sale if their carrying amount will be recovered principally through a sale rather than through continuing use. Management must be committed to the sale expected within one year from the date of classification. Action required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

PPE and Intangible assets once classified as held for sale are not depreciated or amortised.

1.9 Inventories

- Stock of Liquefied Natural Gas (LNG) and Natural Gas in pipelines is valued at cost on First in First out (FIFO) basis or net realizable value, whichever is lower.
- Raw materials and finished goods are valued at weighted average cost or net realizable value, whichever is lower. Finished goods include excise duty and royalty wherever applicable.
- Stock in process is valued at weighted average cost or net realizable value, whichever is lower. It is valued at weighted average cost where the finished goods in which these are to be incorporated are expected to be sold at or above the weighted average cost.
- Stores and spares and other material for use in production of inventories are valued at weighted average cost or net realizable value, whichever is lower. It is valued at weighted average cost where the finished goods in which they will be incorporated are expected to be sold at/or above cost.
- Surplus / Obsolete Stores and Spares are valued at cost or net realisable value, whichever is lower.
- Surplus / Obsolete Capital Stores, other than held for use in construction of a capital asset, are valued at lower of cost or net realisable value.
- Imported LNG in transit is valued at CIF value or net realizable value whichever is lower.
- Renewable Energy Certificates (RECs) are valued at cost on First in First out (FIFO) basis or net realizable value, whichever is lower.

1.10 Revenue recognition

The Company has applied the modified retrospective approach on transition to Ind AS 115.

- Revenue is recognized to depict the transfer of control of promised goods or services to customers upon the satisfaction of performance obligation under the contract in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Consideration includes contributions by customers towards assets over which Company has control.
- Where performance obligation is satisfied over time, Company recognizes revenue using input/ output method based on performance completion till reporting date. Where performance obligation is satisfied at a point in time, Company recognizes revenue when customer obtains control of promised goods and services in the contract.
- The Company uses output method in accounting for the revenue in respect of sale of services. Use of output method requires the Company to recognize revenue based on performance completion till date e.g. time elapsed. The estimates are assessed continually during the term of the contract and the Company re-measures its progress towards complete satisfaction of its performance obligations satisfied over time at the end of each reporting period.
- Company updates its estimated transaction price at each reporting period, to represent faithfully the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period including penalties, discounts and damages etc.
- Insurance claims are accounted for on the basis of claims admitted by the insurers.
- Claims (including interest on delayed realization from customers) are accounted for, when there is significant certainty that the claims are realizable.

- g) Liability in respect of Minimum Guaranteed Offtake (MGO) of Natural gas is not provided for where the same is secured by MGO recoverable from customers. Payments/receipts during the year on account of MGO are adjusted on receipt basis.
- h) Minimum charges relating to transportation of LPG are accounted for on receipt basis.
- i) In terms of the Gas Sales Agreement with the customers, amount received towards Annual Take or Pay Quantity (ATOPQ) of Gas is accounted for on the basis of realization and shown as liability till make up Gas is delivered to customer as per the contract.

1.11 Depreciation /Amortisation

a) Property Plant and Equipment (PPE)

Depreciation on PPE (excluding freehold land) is provided in accordance with the manner and useful life as specified in Schedule II of the Companies Act, 2013, on straight line method (SLM) on pro-rata basis (monthly pro-rata for bought out assets), except for the assets as mentioned below where different useful life has been taken on the basis of external / internal technical evaluation:

Particulars	Years
Furniture provided for the use of employees	6 years
Electrical Equipment's provided for the use of employees	4 years
Mobile Phones provided for the use of employees	2 years

Cost of the leasehold land is amortised over the lease period except perpetual leases.

Depreciation due to price adjustment in the original cost of fixed assets is charged prospectively.

b) Intangible Assets

- (i) Right of use (ROU) having indefinite life (for which there is no foreseeable limit to the period over which they are expected to generate net cash flows given the fact that these rights can be used even after the life of respective pipelines) are not amortized, but are tested for impairment annually.
- (ii) The cost of Intangible Assets comprising software and license, etc. are amortized over a period of five years/ actual useful life whichever is lower from the date of capitalization.
- (iii) After impairment of assets, if any, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

C) Capital assets facilities installed at the consumers' premises

Capital assets facilities installed at the consumers' premises on the land whose ownership is not with the Company, has been depreciated on SLM basis in accordance with the useful life as specified in Schedule II of the Companies Act, 2013.

1.12 Employees Benefits

- a) All short term employee benefits are recognized at the undiscounted amount in the accounting period in which they are incurred.
- b) The Company's contribution to the Provident Fund is remitted to a separate trust established for this purpose based on a fixed percentage of the eligible employee's salary and debited

to Statement of Profit and Loss / CWIP. Further, the Company makes provision as per actuarial valuation towards any shortfall in fund assets to meet statutory rate of interest in the future period, to be compensated by the Company to the Provident Fund Trust.

- c) Employee Benefits under Defined Benefit Plans in respect post-retirement medical scheme and gratuity are recognized based on the present value of defined benefit obligation, which is computed on the basis of actuarial valuation using the Projected Unit Credit Method. Actuarial liability in excess of respective plan assets is recognized during the year.
- d) Obligations on other long term employee benefits, viz., leave encashment, Compensated absence and Long Service Awards are provided using the Projected Unit Credit method of actuarial valuation made at the end of the year.
- e) Re-measurement including actuarial gains and losses are recognized in the balance sheet with a corresponding debit or credit to retained earnings through Statement of Profit and Loss or Other Comprehensive Income in the year of occurrence, as the case may be. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.
- f) The Company also operates a defined contribution scheme for Pension benefits for its employees and the contribution is remitted to a separate Trust.
- g) Liability for gratuity and Post-Retirement Medical Scheme (PRMS) as per actuarial valuation is funded with a separate trust.

1.13 Impairment of non-financial assets

The Carrying amount of cash generating unit are reviewed at each reporting date. In case there is any indication of impairment based on Internal / External factors, impairment loss is recognized wherever the carrying amount of asset exceeds its recoverable amount.

1.14 Provisions, Contingent Liabilities, Contingent Assets & Capital Commitments

- a) Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities/assets exceeding ₹ 5 lakh in each case are disclosed by way of notes to accounts except when there is remote possibility of settlement/realization.
- b) Estimated amount of contracts remaining to be executed on capital accounts are disclosed each case above ₹ 5 lakh.

1.15 Taxes on Income

Provision for current tax is made as per the provisions of the Income Tax Act, 1961. Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes considering the tax rate and tax laws that have been enacted or substantively enacted as on the reporting date.

Deferred tax relating to items recognized outside Statement of Profit and Loss is recognized outside Statement of Profit and Loss (either in Other Comprehensive Income or in Equity).

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to the extent that it is no

longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

1.16 Research & Development Expenditure

Revenue expenditure on Research and Development is charged to Statement of Profit and Loss in the year in which it is incurred. Capital expenditure on Research and Development is capitalized in case the same qualifies as asset.

1.17 Cash and cash equivalents

Cash and cash equivalents consist of cash at bank and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

1.18 Segment reporting

The Management of the Company monitors the operating results of its business Segments for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

The Operating segments have been identified on the basis of the nature of products / services.

- a) Segment revenue includes directly identifiable with/allocable to the segment including inter-segment revenue.
- b) Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result.
- c) Expenses which relate to the Company as a whole and not allocable to segments are included under unallocable expenditure.
- d) Income which relates to the Company as a whole and not allocable to segments is included in unallocable income.
- e) Segment assets including CWIP and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

1.19 Earning per share

Basic earnings per equity share is computed by dividing the net profit after tax attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

1.20 Liquidated damages/ Price Reduction Schedule

Amount recovered towards Liquidated Damages/Price Reduction Schedule are adjusted/appropriated as and when the matter is settled.

1.21 Statement of Cash Flow

Statement of cash flow is prepared in accordance with the indirect method prescribed in Ind AS 7, 'Statement of Cash Flows'

1.22 Fair value measurement

The Company measures financial instruments including derivatives and specific investments (other than subsidiary,

joint venture and associates), at fair value at each balance sheet date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.23 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(A) Financial Assets

a) Classification

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through Statement of Profit and Loss on the basis of its business model for managing the financial assets and the contractual cash flows characteristics of the financial asset.

b) Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset.

c) Subsequent measurement

For purposes of subsequent measurement financial assets are classified in below categories:

- (i) Financial assets carried at amortised cost

A financial asset other than derivatives and specific investments, is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- ii) Financial assets at fair value through other comprehensive income

A financial asset other than derivatives comprising specific investment is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

- iii) Financial assets at fair value through Statement of Profit and Loss

A financial asset comprising derivatives which is not classified in any of the above categories are subsequently fair valued through profit or loss.

d) Derecognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

e) Investment in subsidiaries, joint ventures and associates

- (i) The Company has accounted for its investment in subsidiaries, joint ventures and associates at cost. The Company assesses whether there is any indication that these investments may be impaired. If any such indication exists, the investment is considered for impairment based on the fair value thereof.
- (ii) When the Company issues financial guarantees on behalf of subsidiaries, joint ventures and associates initially it measures the financial guarantee at their fair values and subsequently measures at higher of:
- The amount of loss allowance determined in accordance with impairment requirements of Ind AS 109 and
 - The amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 115 'Revenue from Contracts with Customers'
- (iii) The Company recognize the initial fair value of financial guarantee as deemed investment with a corresponding liability recorded as financial guarantee obligation. Such deemed investment is added to the carrying value amount of the investment in subsidiaries, joint venture and associates. Financial guarantee obligation is recognized as other income in Statement of Profit and Loss over the remaining period of financial guarantee.

f) Impairment of other financial assets

The Company assesses impairment based on expected credit losses (ECL) model for measurement and recognition of impairment loss on the financial assets that are trade receivables or contract revenue receivables and all lease receivables etc.

(B) Financial liabilities

a) Classification

The Company classifies all financial liabilities as subsequently measured at amortized cost, except for financial liabilities at fair value through Statement of Profit and Loss. Such liabilities, including derivatives shall be subsequently measured at fair value.

b) Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

c) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(i) Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate (EIR) method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

(ii) Financial liabilities at fair value through Statement of Profit and Loss

Financial liabilities at fair value through Statement of Profit and Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through Statement of Profit and Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category comprises derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

d) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

(C) Embedded Derivatives

- a) If the hybrid contract contains a host that is an asset within the scope of Ind AS 109, the Company does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract.
- b) If the hybrid contract contains a host that is not an asset within the scope of Ind AS 109, the Company separate embedded derivatives from the host and measures at fair

value with changes in fair value recognized in statement of profit or loss if, and only if:

- (i) The economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host.
- (ii) A separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- (iii) The hybrid contract is not measured at fair value with changes in fair value recognized in profit or loss

(D) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously

(E) Derivative financial instruments and Hedge Accounting

The Company uses derivative financial instruments, in form of forward currency contracts, interest rate swaps, cross currency interest rate swaps, commodity swap contracts to hedge its foreign currency risks, interest rate risks and commodity price risks.

a) Derivatives Contracts not designated as hedging instruments

- (i) The derivatives that are not designated as hedging instrument under Ind AS 109, are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.
- (ii) Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

b) Derivatives Contracts designated as hedging instruments

- (i) The derivatives that are designated as hedging instrument under Ind AS 109 to mitigate its risk arising out of foreign currency and commodity hedge transactions are accounted for as cash flow hedges.
- (ii) The Company enters into hedging instruments in accordance with policies as approved by the Board of Directors, provide written principles which is consistent with the risk management strategy of the Company.
- (iii) The hedge instruments are designated and documented as hedges at the inception of the contract. The effectiveness of hedge instruments is assessed and measured at inception and on an ongoing basis. The effective portion of change in the fair value of the designated hedging instrument is recognized in the "Other Comprehensive Income" as "Cash Flow Hedge Reserve". The ineffective portion is recognized immediately in the Statement of Profit and Loss as and when occurs. The amount accumulated in Cash Flow Hedge Reserve is reclassified to profit or loss in the same period(s) during which the hedged item affects the Statement of Profit or Loss Account. In case the hedged item is the cost of non-financial assets / liabilities, the amount recognized as Cash Flow Hedge Reserve are transferred to the initial carrying amount of the non-financial assets / liabilities.
- (iv) If the hedging relationship no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or sold,

terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in Cash Flow Hedging Reserve remains in Cash Flow Hedging Reserve till the period the hedge was effective. The cumulative gain or loss previously recognized in the Cash Flow Hedging Reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified in the Statement of Profit and Loss.

1.24 Leases

As a Lessee

a) Identifying a lease

At the inception of the contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company assesses whether:

- (i) The contract involves the use of an identified asset, specified explicitly or implicitly.
- (ii) The Company has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use, and
- (iii) The Company has right to direct the use of the asset.

Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

b) Initial recognition of Right of use asset (ROU)

The Company recognizes a ROU asset at the lease commencement date (i.e., the date the underlying asset is available for use). ROU assets are initially measured at cost less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, adjusted for any lease payments made on or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received.

c) Subsequent measurement of Right of use asset (ROU)

ROU assets are subsequently amortized using the straight-line method from the commencement date to the earlier of the end of the useful life of ROU asset or the end of the lease term. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. In addition, the right of use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurement of the lease liability. Refer to the accounting policies in section 1.12 Impairment of non-financial assets.

d) Initial recognition of lease liability

Lease liabilities are initially measured at the present value of the lease payments to be paid over the lease term. Lease payments included in the measurement of the lease liabilities comprise of the following:

- (i) Fixed payments, including in-substance fixed payments
- (ii) Variable lease payments that depend on an index or a rate

- (iii) Amounts expected to be payable under a residual value guarantee; and
- (iv) The exercise price under a purchase option, extension option and penalties for early termination only if the Company is reasonably certain to exercise those options.

e) Subsequent measurement of lease liability

Lease liabilities are subsequently increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

f) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption. Lease payments on short-term leases and leases of low-value assets are recognized as expense in Statement of Profit and Loss.

As a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the lease term.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables and finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Estimates and assumptions
Determination of discount rate as a lessee

Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. Company estimates its incremental borrowing rate, which is the rate of interest that the Company would have to pay to borrow on a collateralized basis over a similar term an amount equal to the lease payments in a similar economic environment using observable available inputs (such as market interest rates).

1.25 Recent accounting pronouncements - Standards issued but not yet effective:

The Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2022 vide notification No. G.S.R 255(E) dated 23rd March, 2022, effective from 1st April, 2022. The following are the major amendments

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Net sale proceeds of items produced over the cost of testing

The amendments clarify that the excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of Property, Plant, and Equipment. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and

the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 116 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

NOTE-1 B: Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Company's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, accompanying disclosures, contingent liabilities/assets at the date of the consolidated financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Company has identified the areas where significant judgements, estimates and assumptions are required. Further information on each of these areas and how they impact the various accounting policies are described below and also in the relevant notes to the financial statements. Changes in estimates are accounted for prospectively.

1. Judgments

In the process of applying the Company's accounting policies, management has made the judgments, which have the most significant effect on the amounts recognized in the consolidated financial statements:

1.1 Contingencies

Contingent liabilities and assets which may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involve the exercise of significant judgments and the use of estimates regarding the outcome of future events.

2. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company determines its assumptions and estimates on parameters available when the financial statements are prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

2.1 Estimation uncertainties relating to global health pandemic from COVID-19:

On March 11, 2020 the World Health Organization (WHO) declared the outbreak of new coronavirus ("COVID-19") as a global pandemic. This outbreak is causing significant disturbances and slowdown of economic activity. The Company's operations were slightly impacted in the last week of March 2020, resulting in slight reduction of sales volumes due to nationwide lockdown advised by the Government of India in view of COVID-19.

In assessing the recoverability of carrying amounts of Company's assets such as property, plant and equipment, trade receivables, loans/ advance, intangible assets, investments and other assets etc., the Company has considered various internal and external information up to the date of approval of these financial statements and concluded that they are recoverable based on the cash flow projections.

The Company has assessed the potential impact of COVID-19 based on the current circumstances and expects no significant impact on the continuity of operations of the business on long term basis/ on useful life of the assets/on financial position etc.

2.2 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

2.3 Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

2.4 Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.5 Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgments in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Impairment of investment in subsidiaries, joint ventures or associates is based on the impairment calculations using discounted cash flow/net asset value method, valuation report of external agencies, Investee Company's past history etc.

Nature and Purpose of reserves

A Retained Earnings

The Retained Earnings represents accumulated earnings of the Company. Retained Earnings is a free reserve of the Company and is used for the purposes like issuing bonus shares, buy back of shares and other purposes (like declaring Dividend etc.) as per the approval of Board of Directors. It includes the re-measurement gain/(loss) on defined benefit plans which will not be re-classified to statement of profit and loss in subsequent periods.

B General Reserve

The Company transfers 10% of Profits every year to General Reserve and it is a free reserve.

C Bond Redemption Reserve

As per the Companies Act, 2013 a Bond Redemption Reserve is required to be created for all bonds/ debentures issued by the Company at a specified percentage. Further, MCA vide notification No. 574 (E) dated 16th August 2019, creation of Bond Redemption Reserve is not required for listed companies. However, there is no clarity in the notification whether non-creation of Bond Redemption Reserve is applicable for bonds issued before notification date. Therefore, the Company has decided to continue creation of Bond Redemption Reserve as per conservative approach. This reserve is created out of appropriation of profits over the tenure of bonds and during the current year the Company has fully repaid bonds. Accordingly, the Company has transferred back Bond redemption reserve to Retained earnings.

D Securities Premium

As per the Companies Act, 2013 when a Company issues shares at a premium, whether for cash or otherwise, a sum equal to the aggregate amount of premium received on those shares shall be transferred to 'securities premium account'. The securities premium can be used for issue of bonus shares, buy back of shares and payment of premium for redemption of debentures or preference shares.

E Fair Value of Equity Instruments

This reserve represents the cumulative effect of fair value fluctuations of investments made by the Company in equity instruments of other entities. The cumulative gain or loss arising on such changes are recognised through Other Comprehensive Income (OCI) and accumulated under this reserve. This will not be re-classified to the statement of profit and loss in subsequent periods.

F Cash Flow Hedge Reserve

The Cash Flow Hedge Reserve represents the cumulative effective portion of gains/ (losses) arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. The cumulative gain/ (loss) arising on such changes are recognised through Other Comprehensive Income (OCI) and accumulated under this reserve. Such gains/ (losses) will be reclassified to statement of profit and loss in the period in which the hedged item occurs/ affects the statement of profit and loss.

G Capital Redemption Reserve

As per the Companies Act 2013, capital redemption reserve is created when Company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. Utilization of this reserve is governed by the provisions of the Companies Act 2013.

H Foreign Currency Translation Reserve

This reserve represents the cumulative effect of exchange difference arising due to consolidation procedure applied on the group entities having functional currency other than INR, and held their until disposal of the foreign operation as per Ind AS 21 "The Effects of Changes in Foreign Exchange Rates".

45) Additional information, as required under Schedule III to the Companies Act, 2013, of enterprises consolidated as Subsidiaries / Associates / Joint Ventures is given as per **Annexure – F**.

46) In respect of Subsidiary and Joint Ventures/Associate Companies, the following salient notes to accounts are disclosed.

I) GAIL Gas Limited

- a) The Company is carrying on construction activities for capital projects in 9 GAs awarded by the PNGRB in 9th and 10th CGD bidding round to meet the Minimum Work Program (MWP) targets as per grant of authorization. Keeping in view non-availability of pipeline connectivity from the gas source in these GAs and prevailing conditions due to COVID-19 pandemic, the Company has further requested PNGRB for deferment of period of meeting the MWP targets under Regulation 11 and 12 of the PNGRB regulations, 2008. Extension of Original Date of Start of Contract Year has been obtained for 07 GAs and balance 2 number of GA, extension from PNGRB is under process. Therefore, penalty for not meeting of MWP targets aggregating to ₹ 7.92 crore as on 31st March, 2022 (Previous year: ₹ 23.16 crore) has been disclosed as Contingent Liability. Management is hopeful that the PNGRB Board will consider the request and not levy any penalty.
- b) As on 31st March, 2022, the Company has an equity investment of ₹ 94.52 crore (Previous Year: ₹ 47.50 crore) and investment in Preference shares of ₹ 100 crore (Previous Year: ₹ 100 crore) in Andhra Pradesh Gas Distribution Corporation Ltd. (APGDCL), a Joint Venture (JV) Company, including advance pending allotment of ₹ 26.15 crore (Previous Year: ₹ 9.13 crore) as per joint venture agreement. The Board of Directors of the Company had given in principle approval to transfer shares held by the Company in APGDCL (including shares held, subscription made against equity call, CCCPS and any further investment in APGDCL till final approval of the Board of GAIL(India) Limited is received) to the holding Company GAIL(India) Limited and initiate necessary action in this regard subject to the consent of Govt. of Andhra Pradesh entities (i.e other joint venture partners of the JV Company) and GAIL (India) Limited. The consent is yet to be received
- c) A Joint venture Company, Kerala GAIL Gas Ltd. (KGGL) has been voluntary liquidated vide order dated 09th February 2022 of NCLT, Kochi Bench. A sum of ₹ 1.65 crore has been received from KGGL on 27th December, 2021 upon liquidation.

II) GAIL Global (USA) Inc.

- a) During December 2021, the Company entered into a Credit Facility Agreement with a bank for borrowings of up to \$70,000,000 (the "New Line of Credit") with a bank. The outstanding balance on the New Line of Credit at 31st March, 2022 was \$67,000,000 and matures on 16th December, 2022. Borrowings under the New Line of Credit accrue interest at the one-month LIBOR (0.4375% at 31st March, 2022) plus 0.39% and is payable monthly. The New Line of Credit is guaranteed by the Parent for an annual fee of 0.24% payable quarterly in arrears, calculated based on the outstanding principal plus overdue interest.

The following table comprises the outstanding lines of credit balance at 31st March, 2022 and 2021:

(in USD \$)

Particular	2022	2021
Line of Credit	67,000,000	72,000,000
Working Capital Line of Credit	41,821,565	35,672,660
Lines of Credit	108,821,565	107,672,660

III) Mahanagar Gas Limited

- a) GAIL (India) Limited (GAIL) raised demand in April 2014 for additional transportation tariff pursuant to demand on them by Oil and Natural Gas Corporation Limited (ONGC), based on the Petroleum and Natural Gas Regulatory Board (PNGRB) order dated 31st December, 2013, determining tariff for ONGC's Uran Trombay pipeline (UTPL) as a common carrier. The Company disputed the demand with GAIL based on contractual provisions and since the transportation charges are to be paid by a third-party user for utilisation of UTPL to ONGC as common carrier and not for transportation of its own gas by ONGC.

Complaint was filed with the PNGRB in February 2015. It was dismissed in October 2015. The writ petition was filed in November 2015 with the High Court of Delhi. The Court advised to appeal before Appellate Tribunal for Electricity (APTEL) being Appellate Authority of the PNGRB in November 2016. The matter was heard by APTEL and remanded back to the PNGRB on technical grounds in September 2019. PNGRB on 18 March 2020 had passed an Order through which it directed MGL and GAIL to pay to ONGC. MGL filed its Appeal before APTEL on 20th April 2020 during lockdown. The matter was heard by APTEL on 9th October 2020. APTEL had passed judgement on 16th July 2021 and the matter was remanded back to PNGRB for proper adjudication. The matter was heard by PNGRB on 7th April, 2022, and ordered all the parties to file their written submission on the issues noted in the APTEL judgement by 29th April, 2022. The matter is next listed for hearing on 11th May, 2022. Total demand from November 2008 till July 2021 is ₹ 33,180.09 lakh (previous year ₹ 31,463.35 lakh) [including ₹ 22,332.14 lakh covered in the case filed with APTEL and ₹ 10,847.95 lakh (previous year ₹ 9,131.21 lakh) demand received subsequently]. Based on the legal opinion, the Company believes that it has a strong case and does not expect any outflow of resources. Hence, no provision has been made.

- b) As per authorisation terms and conditions of the PNGRB for Raigad Geographical Area, the Company is required to meet Minimum Work Programme (MWP) targets by March 2020 (with reference to connections and pipeline inch Kilo Meters) and the Company had submitted Performance Bank Guarantee of ₹ 10,520.00 lakh dated 19th March, 2015, to the PNGRB. Show cause notice dated 23rd July, 2018, was given by the PNGRB for shortfall in periodic MWP, asking the Company to explain why penalty should not be levied for the interim MWP target shortfall. The Company submitted catch up plan vide letter dated 2nd August, 2018, and revised catch up plan vide letter dated 15th November, 2019, was submitted to PNGRB seeking extension till 30th September, 2021. Post outbreak of COVID-19, the Company had requested PNGRB in April 2020 to extend the timeline for achieving the revised catch-up plan for MWP of Inch-Kms till 31st March, 2022. The PNGRB, sought information on COVID-19 lockdown in July 2020 from the City Gas Distribution companies and has issued public notice dated 5th November, 2020, extending the MWP timeline due to COVID-19 lockdown for various Geographical areas, where extension of 251 days for Raigad was granted. The Company has appraised PNGRB vide letter dated 9th February, 2021, with ground level challenges faced in Raigad and has requested for extension up to March 2022. The Company had already achieved

the cumulative number of Domestic connections as per PNGRB MWP target as of 31st March, 2020, and inch km targets in January 2022 and accordingly, no provision is deemed necessary in relation to the bank guarantee issued to the PNGRB

- c) The revision of Trade Discount with the Oil Marketing Companies (OMCs) is pending from earlier years. In November 2021, The Ministry of Petroleum & Natural Gas (MoP&NG) issued guidelines pertaining to revised Trade Discounts and subsequently citing MoP&NG guideline, OMCs have raised their demand to the Company. However, the demand raised by OMCs is not as per the guidelines issued by the MoP&NG and hence the Company has contested the demand raised by OMCs. Further the Company has raised the matter to the MoP&NG vide its letter dated 30th December 2021, requesting their intervention and advised the OMCs to adhere to the guidance provided by the MoP&NG. Pending settlement, the liability is provided to the extent considered appropriate by the Company.

IV) ONGC Petro additions Limited

- a) The Company has set up a Petrochemical Complex in Special Economic Zone (SEZ), situated at Dahej, State of Gujarat. In view of changes in market dynamics over the years, the demand for petrochemical products has increased in domestic market and India is now a net importer of polymers. Therefore, Company is selling its majority of products in Domestic Tariff Area (DTA), thereby substituting the imports and saving foreign exchange outflow of the country. However, Basic Custom Duty is applicable on the sale of products from SEZ to DTA which is directly impacting the margin of the Company. Therefore, Board of directors has accorded approval to make an application for voluntary exit from SEZ.

Development Commissioner, Dahej SEZ has conveyed in-principal approval for exit from SEZ subject to de-notification of the area; EPCG authorisation from Director General of Foreign Trade; payment of all applicable duties and taxes which may be finalised on the basis of the date of final exit and compliance of all the provisions of SEZ Act and other Rules. The unit is still under the SEZ and the proposal for approval of final exit will be considered subject to approval of de-notification from Board of Approvals, MoCI, New Delhi.

SEZ Developer has to make an application for De-notification along with inter alia NOC from State Government, No due certificate from Specified Officer and demarcation of area from SEZ. These approvals/ activities are in process.

SEZ exit is expected to bring significant improvement in the future margins along with one time cost. Based on the available information, the provisional estimated amount on account of SEZ exit is ₹ 2,734.4 crore. This includes (i) Duty on capital goods ₹ 1,558.5 crore, which is permitted to be settled under EPCG scheme; (ii) Duty on inventory is ₹ 524 crore out of which ₹ 375 crore is eligible for Input Tax credit; (iii) Capital expenses of ₹ 193.6 crore on land and construction of infrastructure; (iv) Duty, taxes and charges payable to Developer & others ₹ 364.5 crore; (v) SEZ exit expenses of ONGC C2C3 plant ₹ 93.8 crore. The above amount does not include provisional duty computed by Specified Officer, Dahej SEZ on immovable properties and provisional VAT amount estimated by State tax department.

It is pertinent to mention that the duty amount and other estimates are provisional. Actual outflow on account of SEZ exit and its quantum is contingent upon the terms and conditions on which various approvals may be granted.

As the exit is voluntary in nature, OPAL has requested for exit from SEZ considering economic benefits in future to the concerned authority. Since various NOC, approvals and duty assessment for

SEZ exit are under consideration with the competent authorities, management believes that a final decision on exit can only be taken based on the terms and conditions mentioned in these approvals. In view of that management has considered that as on date OPaL has no liability to consider the books of accounts.

- b) The Company has incurred a net loss for the year ended 31st March, 2022 of ₹ 533 crore (year ended 31st March, 2021 ₹ 796.6 crore) and cumulative loss up to 31st March, 2022 reached to ₹ 8,867.7 crore. There is negative working capital as at 31st March, 2022 of ₹ 8,486.7 crore (March 31, 2021 ₹ 7,211 crore). In spite of this situation, Company do not doubt its sustainability as it constantly reviewing its operations to improve margins. It has taken following measures which will improve profitability: -
- Production ramp up year on year basis.
 - Exploring option of exit from SEZ area.
 - Improvement in Product mix.
 - Further steps are being evaluated to improve the net back and reduce the cost to improve overall profitability.
 - Finance cost reduction through Forex loan.
 - Scheduled Major turnaround activity (MTA) for production improvement.

Keeping above measures these financial statements have therefore been prepared on a going concern basis.

V) Brahmaputra Cracker and Polymer Ltd.

- a) **Capital Subsidy:** Based on the approval of the Government of India for setting up AGCP, being implemented by BCPL in state of Assam, against Capital Subsidy of ₹ 5239.45 crore, the Company has received Capital Subsidy of ₹ 5221.33 crore till 31st March, 2022. No Capital subsidy was released during the FY 2021-22. The interest earned on Capital Subsidy has been considered part of capital subsidy and adjusted from capital subsidy receivable. The balance amount of capitals subsidy receivable stands at ₹ 18.12 crore and release of the same shall be requested in RE 2022-23 from Govt. of India. Capital Subsidy received from Government of India has been considered as deferred income in terms of Ind-As 20 and is recognized as income in the Statement of Profit and Loss over the useful life of the petrochemical complex. Accordingly in the current financial year an amount of ₹ 211.65 crore has been transferred (Previous year ₹ 211.64 crore) to the Statement of Profit & Loss as other income and the balance in Capital Subsidy account has been carried forward as "Government Grants" classified under "Non- Financial Liability".

b) Revenue Grants.

i) Feed Stock Subsidy:

The feedstock subsidy was approved by CCEA for a period of 15 years of plant operation for maintaining minimum post tax project IRR of 10% of the Assam Gas Cracker Project (AGCP) implemented by BCPL. The feedstock subsidy is applicable from the date of commissioning and accordingly, BCPL have submitted year wise claims for the period 2015-16 to 2020-21 as per approved methodology. Entire claim of ₹ 2742.92 Cr. till 31st March, 2021 was received by BCPL during FY 2020-21 and FY 2021-22 from Ministry of Petroleum and Natural Gas. An amount of ₹ 31.00 Cr. During the year, the Company has amortised the capital grant amounting ₹ 68.80 crore (Previous Year: ₹ 45.77 crore) based on the useful life of the asset capitalized.

54) Financial Risk management

The Company is exposed to a number of financial risks arising from natural business exposures as well as its use of financial instruments including market risks relating to commodity prices, foreign currency exchange and interest rates; credit risk; and liquidity risk.

a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, and derivative financial instruments.

(i) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the long-term domestic rupee term loan and foreign currency loans with floating interest rates. The Company manages its interest rate risk according to its Board approved Foreign Currency and Interest Rate Risk Management Policy. Market interest rate risk is mitigated by hedging through appropriate derivatives products such as interest rate swaps & full currency swaps, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount.

Interest Rate Sensitivity

With all other variables held constant, the following table demonstrates the sensitivity to a reasonably possible change in interest rates on floating rate portion of forex loans and borrowings outstanding as on 31st March, 2022, after considering the impact of swap contracts.

(ii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Company transacts business in local currency and in foreign currency, primarily US Dollars. Company has obtained foreign currency loans and has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk. As per its Board approved policy, Company may mitigate its foreign currency risk through plain vanilla derivative products such as foreign exchange option contracts, swap contracts or forward contracts towards hedging such risks. These foreign exchange

contracts, carried at fair value, may have varying maturities depending upon the underlying contract requirement and risk management strategy of the Company.

Foreign Currency Sensitivity

The following table demonstrates the sensitivity in the USD, EURO, and other currencies to the functional currency of Company, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives.

Effect on profit before Tax (₹ in crore)	0.00	(0.00)	0.02	(0.02)

(iii) Commodity Price Risk

Company imports LNG for marketing and for its internal consumption on an on-going basis and is not exposed to the price risk to the extent it has contracted with customers in India and overseas on back to back basis. However, the Company is exposed to the price risk on the volume which is not contracted on back to back basis. As most of the LNG purchase and sales contracts are based on natural gas or crude based index, such price risk arises out of the volatility in these indices. In order to mitigate this index linked price risk, Company has been taking appropriate derivative products in line with the Board approved 'Natural Gas Price Risk Management Policy'

(iv) Equity Price Risk

The Company's listed and non-listed equity investments are susceptible to market price risk arising from uncertainties about future values of these investments. The Company manages the equity price risk through review of investments by Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all the equity investment decisions of the Company.

At the reporting date, the exposure to unlisted equity investments at fair value was ₹ 233.42 crore (Previous Year ₹ 255.46 crore).

At the reporting date, the exposure to listed equity investments at fair value was ₹ 5,058.89 crore (Previous Year ₹ 3,154.64 crore). A variation of (+/-) 10% in share price of equity investments listed on the stock exchange could have an impact of approximately (+/-) ₹ 505.89 crore (Previous Year ₹ 315.46 crore) on the OCI and equity investments of the Company. These changes would not have an effect on profit or loss.

b) Liquidity Risk

Liquidity risk is the risk that suitable sources of funding for Company's business activities may not be available. The Company's objective is to maintain optimum level of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It also maintains adequate sources to finance its short term and long term fund requirements such as overdraft facility and long term borrowing through domestic and international market.

c) Credit risk – in respect of Holding Company

Credit risk is the risk that a customer or counter-party to a financial instrument will fail to perform or fail to pay amounts due, causing financial loss to the Company and arises from cash and cash equivalents, derivative financial instruments and deposits with financial institutions and principally from credit exposures to customers relating to outstanding receivables. Credit exposure also exists in relation to guarantees issued by Company. Each segment is responsible for its own credit risk management and reporting. Credit risk is considered as part of the risk-reward balance of doing business. On entering into any business contract the extent to which the arrangement exposes the Company to credit risk is considered.

- (i) The Company has issued Corporate Guarantee to banks for ₹ 5,951.99 crore (Previous Year: ₹ 6,084.99 crore) for issuance of Performance Bank Guarantee to one of its subsidiaries in regard to implementation of various City Gas Projects.
- (ii) The Company has issued Corporate Guarantees for ₹ 7,541.31 crore (Previous Year: ₹ 7,311.66 crore) on behalf of its related parties towards Payment Security under TSA and PSA, Performance Guarantee for GSPA and availing SBLC Facility.

Trade Receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients.

Financial Instruments and Cash Deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with approved limits of its empaneled bank, for the purpose of investment of surplus funds and foreign exchange transactions. Foreign exchange transaction and investments of surplus funds are made only with empaneled Banks. Credit limits of all Banks are reviewed by the Management on regular basis.

d) Capital Management

For the purpose of the capital management, capital includes issued capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders, or issue new shares. No changes were made in the objectives, policies or processes during the reporting year.

55) Accounting Classifications and Fair Value Measurements

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: technique which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

As at 31st March 2022, the Company held the following financial instruments carried at fair value on the statement of financial position.

56) Hedging Activities and Derivatives

Derivatives not designated as hedging instruments

The Company uses forward currency contracts, interest rate swaps, cross currency interest rate swaps, commodity swap contracts to hedge its foreign currency risks, interest rate risks and commodity price risks. Derivative contracts not designated by management as hedging instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value on each reporting date. Such contracts are entered into for periods consistent with exposure of the underlying transactions.

Derivatives designated as hedging instruments:

Cash Flow Hedges

The Company enters into hedging instruments in accordance with policies as approved by the Board of Directors with written principles which is consistent with the risk management strategy of the Company. Company has decided to apply hedge accounting for certain derivative contracts that meets the qualifying criteria of hedging relationship entered into post October 01, 2017.

Foreign Currency Risk

Foreign exchange forward contracts are designated as hedging instruments in cash flow hedges of firm commitment of capital purchases in USD and existing borrowings e.g. USD/Japanese Yen etc.

Commodity Price Risk

The Company purchases and sells natural gas / liquefied petroleum gas on an ongoing basis as its operating activities. The significant volatility in natural gas / liquefied petroleum gas prices over the years has led to Company's decision to enter into hedging instruments through swap transactions including basis swaps. These contracts are designated as hedging instruments in cash flow hedges of forecasted sales and purchases of natural gas/ liquefied petroleum gas.

The table below shows the position of hedging instruments and hedged items (underlying) as at the balance sheet date.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE CONSOLIDATED FINANCIAL STATEMENTS OF GAIL (INDIA) LIMITED FOR THE YEAR ENDED 31 MARCH 2022

The preparation of Consolidated Financial Statements of GAIL (India) Limited for the year ended 31 March 2022 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the Company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139(5) read with section 129(4) of the Act are responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 27 May 2022.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the consolidated financial statements of GAIL (India) Limited for the year ended 31 March 2022 under section 143(6)(a) read with section 129(4) of the Act. We conduct a supplementary audit of the financial statements of companies mentioned in Annexure-A, but did not conduct supplementary audit of the financial statements of the companies mentioned in Annexure-B for the year ended on that date. Further, Section 139(5) and 143(6)(a) of the Act are not applicable to the companies mentioned in Annexure-C being private entities / entities incorporated in foreign countries under the respective laws for appointment of their statutory auditors and for conduct of supplementary audit. Accordingly, Comptroller & Auditor General of India has neither appointed the Statutory Auditors nor conducted the supplementary audit of these companies. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and Company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditor's report under section 143(6)(b) of the Act.

For and on behalf of the
Comptroller & Auditor General of India

Place: New Delhi
Dated: 27th July 2022

GAIL (India) Limited

India's Natural Gas Leader

Synergy for Green Energy

The world's growing concerns regarding global warming and climate change call for a concerted global transition to sustainable energies. As an Energy Leader, GAIL has been playing a significant role in India's energy security with a focus on clean & affordable fuels. GAIL's relentless pursuit to expand Natural Gas network in India continues to yield visible results in shape of CGD reaching new towns and cities. The Company has further opened up its energy basket with forays into Wind, Solar, CBG and Hydrogen towards shaping a greener future for our coming generations. With this 'Synergy with Green Energy', GAIL ushers in the winds of change towards a better world.
