

## **GAIL to enter distributed LNG production business**

In a first-of-its kind endeavour in the country, GAIL (India) Limited plans to enter into distributed Liquefied Natural Gas (LNG) production with the vision to cater to the demand from off-grid locations and transport sector. GAIL has placed order for two small-scale liquefaction skids capable of producing LNG on a pilot basis. Liquefaction will be achieved through proprietary technology-based mobile liquefaction skids. These plants will help in distribution of natural gas through liquefaction in new CGD areas, liquefaction of gas at isolated fields and will support setting-up of LNG fueling stations and in bunkering. It will be first of its kind in the country to introduce portable and scalable liquefaction units. The project is envisaged to provide a thrust to government's focused initiatives to increase the share of natural gas in the primary energy basket. Further, GAIL is also under discussions for manufacturing liquefaction skids in India.

## **GAIL CELEBRATES INTERNATIONAL YOGA DAY**

**G**AIL (India) Limited celebrated International Yoga Day through a series of activities encouraging everyone to adopt Yoga , a part of our ancient Indian heritage, in their daily routine. Yoga is India's gift to humanity; it is a holistic approach to health and well-being, balancing the mind, body and soul. The theme of this year's Yoga Day celebrations is 'Yoga for Humanity'. Around 25 crore people across the world are expected to take part in various events, doing yoga in unison towards better health and wellness for all. GAIL employees pledged to make Yoga an integral part of their lives for a better and calmer future. A digital engagement activity was carried out among employees who shared pictures practicing Yoga. GAIL also promoted the International Yoga Day related contents through posts and links on social media and its website.
