

PFC inks pact to provide ₹1,229 cr term loan to APL

STATESMAN NEWS SERVICE

GUWAHATI, 5 SEPTEMBER

The Power Finance Corporation (PFC), a public sector unit, will provide a term loan of Rs 1,229 crore to Assam Petrochemicals (APL) for construction of methanol and formalin plant in Assam.

This financial support aims to facilitate the establishment of a 500-tonnes-per-day methanol plant in Namrup in Upper Assam and a 200-tonnes-per-day formalin plant in Boitamari, in lower Assam.

In an official statement, PFC and APL announced the signing of a loan agreement to enable the realization of these projects.

The agreement includes the construction of a 500 TPD Methanol Plant, coupled

with an 11 MW Captive Power Plant (CPP) in Namrup, as well as a 200 TPD Formalin Plant with a captive 0.90 MW power plant in Boitamari, Assam.

The signing ceremony witnessed the presence of key figures from both organizations, including PFC's

Chairperson & Managing Director (CMD), Parminder Chopra, and various directors and officials from APL.

The 500 TPD Methanol Plant, along with the 11 MW CPP, was inaugurated by the Prime Minister on April 14, 2023, upon its completion.

The entire project, encompassing the 200 TPD Formalin Plant, is scheduled to commence commercial operations by March 31, 2024.

Assam Petrochemicals (APL) is a state public sector undertaking, comprising entities like the Government of Assam (GOA), Assam Industrial Development Corporation (AIDCL), Assam Gas Co Ltd (AGCL), and Oil India.

APL, operational since 1976, has been involved in the sale of methanol since 1989 and formalin since 1998. It has also expanded its reach to neighboring countries, such as Bangladesh, Bhutan, and Nepal.

This partnership between PFC and APL underscores PFC's enduring commitment to bolster the development of the northeastern region.

HPCL Plans New Green Energy, Lubes Subsidiaries

Kalpana.Pathak
@timesgroup.com

Mumbai: Hindustan Petroleum Corporation (HPCL) plans to set up new subsidiaries for its renewable energy businesses and lubes business, a move that its top executive said will help the state-run oil marketing firm unlock value, expand balance sheet and generate new revenue streams.

“Our board has approved the formation of a wholly-owned subsidiary for our green businesses,” Pushp Kumar Joshi, chairman and managing director of HPCL, told ET.

The company will include its solar, wind, biofuels and compressed biogas businesses. “Once this company stabilises, we can look at value unlocking through joint ventures or collaborations,” Joshi said.

“We are also planning to carve out a separate subsidiary for our lubes business and look at further options of demerging or listing,” he said. “We are the largest marketer of lubes in India, we have a lubes refinery, so we want to unlock value in this business.”

HPCL aims to establish itself as an integrated energy major, offering products across categories.

Crude Prices Hit 10-mth High as Saudi, Russia Extend Supply Cuts

Bengaluru: Oil prices surged 2% on Tuesday to their highest since November, after Saudi Arabia and Russia extended their voluntary supply cuts by three months to the end of this year, worrying investors about potential shortages during peak winter demand.

Brent crude futures rose by \$2.08, or about 2.3%, to \$91.08 a barrel by 11:43 a.m. EDT (1543 GMT), eclipsing \$91 level for the first time since last November. Meanwhile, US West Texas Intermediate crude (WTI) October futures rose \$2.42, or about 2.8%, to

\$87.97 a barrel, also a 10-month high.

Investors had expected Saudi Arabia and Russia to extend voluntary cuts into October, but the three-month extension was unexpected

"It would appear they're trying to double down and capitalize on the recent price moves. Put a big buffer in place for when the cuts end," OANDA analyst Craig Erlam said.

Both countries said they would review the supply cuts monthly, and could modify them depending on market conditions. – Reuters

Supply cut extension pushes oil past \$90

NATALIE GROVER

London, September 5

OIL PRICES SPIKED more than 1% on Tuesday after Saudi Arabia and Russia announced a fresh extension to their voluntary supply cuts, stretching a combined 1.3 million barrel per day (bpd) reduction for another three months through December.

Brent crude futures for November were up \$1.21, or about 1.4%, to \$90.21 a barrel by 1353 GMT, eclipsing the \$90 level for the first time since last November.

Meanwhile, US West Texas Intermediate crude (WTI) October futures rose \$1.59, or about 1.9%, to \$87.14 a barrel.

Riyadh's decision to extend its 1 million bpd voluntary cut will be reviewed monthly to consider whether to deepen the cut or increase production, state news agency SPA said on Tuesday.

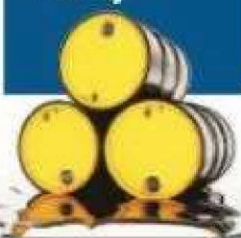

Fellow Opec+ member Russia also prolonged its voluntary cuts through the end of the year "to maintain stability and balance" on oil markets, deputy prime minister Alexander Novak said on Tuesday.

The world's second-largest oil exporter is reducing exports by 300,000 bpd for the period. It has

TILL DECEMBER END

■ Brent crude futures for November were up \$1.21 to \$90.21 a barrel, eclipsing the **\$90** level for the first time since last November

■ Russia also prolonged its voluntary cuts through the end of the year "to maintain stability and balance"

been cutting output and exports in tandem with Saudi Arabia on top of existing Opec+ supply reductions.

Russia had said it would cut oil exports voluntarily by 500,000 bpd, about 5% of its output, in August and by 300,000 bpd in September. Russia is also reducing its oil production by 500,000 bpd until the end of 2024.

Supply cut extension pushes oil past \$90

Although Saudi Arabia was widely expected to extend its voluntary cuts into October, and Russia had indicated that it too planned on expanding its cut through next month, the three month extension was unexpected.

"It would appear they're trying to double down and capitalize on the recent price moves. Put a big buffer in place for when the cuts end," OANDA analyst Craig Erlam told Reuters.

Brent, which is used to price over three-quarters of the world's traded oil, has been rising since late June, after Riyadh first announced its voluntary cuts.

The premium of the front month Brent contract to the six-month contract rose to more than \$4 a barrel on Tuesday, the highest since November 2022. This structure, called backwardation, indicates tightening supply for prompt delivery.

Russia's oil price to India in July lowest since Ukraine war began

The average price of Russian oil delivered at Indian ports in July dropped to the lowest since Moscow's invasion of Ukraine in February last year, according to Indian government data.

India received Russian oil at an average price of \$68.09 per barrel in July, marginally down from \$68.16 in June and sharply lower than \$99.58 in July 2022, according to Reuters' calculations based on the latest data posted on Indian trade ministry's website.

Refiners in India largely buy Russian oil on a delivered basis with sellers arranging for shipping and insurance.

The average cost of Russian oil in July was lower than that from Iraq and Saudi Arabia. The price of oil from Iraq and Saudi Arabia in July averaged \$72.69 and \$81.68, respectively, the data showed.

India depends on imports to meet more than 80 per cent of its overall oil needs and rarely bought Russian oil in the past due to high transportation costs.

The country has emerged as the biggest buyer of seaborne Russian crude since Moscow's invasion of Ukraine more than a year ago.

When sourcing oil, our commitment is only to the common man: HS Puri

Rishi Ranjan Kala
Shishir Sinha
New Delhi

Emphasising that India does not follow any ideology while procuring crude oil, Minister of Petroleum & Natural Gas HS Puri said the government's "moral commitment" is to the common man by ensuring affordability, availability and sustainability.

"Look, the bottom line is we will buy from whomever we have to at the cheapest possible price. There is no ideology. There is no emotion. The only moral commitment we have is to our consumers," Puri told *businessline* when asked about declining crude oil imports from Russia, India's largest supplier of seaborne crude.

Citing instances, the Oil Minister pointed out that when he was a Joint Secretary on the Americas desk, many years ago, India did not import any energy from the US, but now it is buying about \$20 billion worth of energy products.

OIL FROM RUSSIA

Asked about India's decision to begin importing crude oil from Russia in 2022, Puri said: "When the crisis took place, I happened to be the Petroleum & Natural Gas Minister. It was clear to us then, and even more clear to us now that we have to adopt a practical approach to the entire issue of energy

"It was clear to us then, and even more clear to us now that we have to adopt a practical approach to the entire issue of energy sourcing"

HS PURI

Minister of Petroleum & Natural Gas

sourcing." Practicality becomes even more necessary when the Indian economy is firing on all six cylinders because consumption of energy is not a reasonable, but a definitive indicator of whether the economy is doing well or not. If energy consumption slides, one can be reasonably sure that the economy has problems, he added.

"Turbulence in global markets is not a new phenomenon. I have studied that period from 1973, when the world first got what is called either an oil shock or a news shock related to oil. To understand what happens every 7-8 years, I was very pleased to see spikes and uncertainties have taken place earlier and they've had a major impact on the price as available to the consumer," he explained.

UKRAINE CONFLICT

Elaborating on the energy crisis that engulfed the world on account of the

Russia-Ukraine conflict, the Minister said there are some countries, which produce a lot of oil.

They don't consume very much because they have a small population base. There are large other countries who consume a lot of oil.

Some of those consumers are both producers and consumers and some are just consumers.

"We find ourselves in a very interesting situation. Whilst all our targets say that we will become self-sufficient by a particular date, and I've no doubt that we will, in the interim we find ourselves dependent on imports of crude oil up to an extent of 80-85 per cent. Equally, on gas we find ourselves dependent on 55 per cent or so," Puri pointed out.

He further said "What have we done? We have diversified the sources of our supply. This has not happened now, it has happened over a period of

time, and I want to give credit to everyone. From 27 sources, we now import from 39 sources."

Highlighting that affordability is "always relative", the Minister said: "I'll give you a ballpark figure; gas prices globally went up by 303 per cent, but we were able to sustain (with) a marginal increase of 60 per cent or something. Petrol and diesel all over the world shot up in the last two years; (but) our prices have come down on petrol by 5 per cent.

"Our diesel prices came down by 0.28 per cent. Increases elsewhere have been 40 per cent, 50 per cent including in the G20 countries."

India has to face the trilemma of availability, affordability and sustainability, he said, adding "I think the Modi government has done an outstanding job on being able to ensure all three. Availability means at no stage in my two years plus have I come across a situation where there's a serious shortage of supplies anywhere.

"One particular day some pipeline somewhere something happens, but it's corrected in a few hours. But not the kind of situation some of the other countries are facing where for the love of money you cannot access energy.

"There were some cases in our immediate neighbourhood in South Asia. So, availability is not an issue."

Oil India to invest ₹1,738 cr in NEGDCL

STATESMAN NEWS SERVICE
GUWAHATI, 5 SEPTEMBER

Oil India Limited (OIL), a central public sector enterprise, has greenlit an equity infusion of upto Rs 1,738 crore into the Joint Venture Company (JVC) North East Gas Distribution Company Limited (NEGDCL).

This JVC is the result of a partnership between OIL and Assam Gas Company Limited (AGCL), with OIL holding a 49% stake and AGCL holding a 51% stake. NEGDCL was formally established in July 2023 to oversee City Gas Distribution projects.

The primary objective of NEGDCL's collaboration is to

develop natural gas distribution infrastructure, facilitating the delivery of piped natural gas to residential and commercial properties in specified regions. These regions encompass districts in Assam such as Lakhimpur, Dhemaji, Darrang, Udalguri, Sonitpur, and Biswanath Chariali in Assam, along with various districts in Tripura.

NEGDCL will also extend its services to provide piped natural gas to households and businesses in these designated districts, offering them the benefits of natural gas for a wide range of applications. As part of the agreement, OIL will also establish compressed natural gas stations, promoting CNG as an eco-friendly and cost-effective alternative fuel for vehicles. The approval for this equity contribution was granted during a meeting of the Board of Directors of Oil India Limited held on September 4, 2023.

Oil goes past \$90/bbl after Saudi Arabia, Russia prolong cuts

ASSOCIATED PRESS

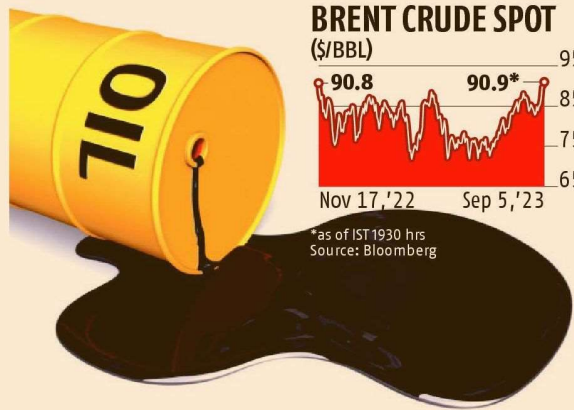

Saudi Arabia and Russia agreed on Tuesday to extend their voluntary oil production cuts through the end of this year, trimming 1.3 million barrels of crude out of the global market and boosting energy prices.

The dual announcements from Riyadh and Moscow pushed benchmark Brent crude above \$90 a barrel in trading Tuesday afternoon jumping over 2 per cent, a price unseen in the market since November last year.

The countries' moves likely will increase the cost for motorists at gasoline pumps and put new pressure on Saudi Arabia's relationship with the United States. President Joe Biden last year warned the kingdom there would be unspecified "consequences" for partnering with Russia on cuts as Moscow wages war on Ukraine.

Saudi Arabia's announcement, carried by the state-run Saudi Press Agency, said the country would monitor the market and take action if necessary. "This additional voluntary cut comes to reinforce the precautionary efforts made by OPEC+ countries with the aim of supporting the stability and balance of oil markets," the Saudi Press Agency report said, citing an unnamed Energy Ministry official.

State-run Russian news agency Tass quoted

Alexander Novak, Russia's deputy prime minister and former energy minister, as saying Moscow would continue its 300,000 barrel a day cut. The decision "is aimed at strengthening the precautionary measures taken by OPEC+ countries in order to maintain stability and balance of oil markets," Novak said.

Benchmark Brent crude traded Tuesday at \$90 a barrel immediately after the announcement. Brent had largely hovered between \$75 and \$85 a barrel since last October. There was no immediate reaction in Washington, though US lawmakers have criticized OPEC, Saudi Arabia and Russia over their past production decisions.

The average gallon of regular unleaded gasoline in the US stands at \$3.81, according to AAA. That's up just a few cents from this time last year, coming after the Labour Day weekend's typically higher

prices.

The Saudi reduction, which began in July, comes as the other OPEC+ producers have agreed to extend earlier production cuts through next year.

A series of production cuts over the past year has failed to substantially boost prices amid weakened demand from China and tighter monetary policy aimed at combating inflation. But with international travel back up to nearly pre-pandemic levels, the demand for oil likely will continue to rise.

The Saudis are particularly keen to boost oil prices in order to fund Vision 2030, an ambitious plan to overhaul the kingdom's economy, reduce its dependence on oil and to create jobs for a young population. The plan includes several massive infrastructure projects, including the construction of a futuristic \$500 billion city called Neom.

प्रधानमंत्री मोदी 14 को बीना में पेट्रो केमिकल परिसर में 50 हजार करोड़ रुपए निवेश कार्य का भूमि-पूजन करेंगे

भोपाल ■ नया इंडिया

प्रधानमंत्री नरेन्द्र मोदी 14 तारीख को सागर के बीना के बीपीसीएल में पेट्रो केमिकल परिसर में 50 हजार करोड़ रुपए की लागत से होने वाले निवेश का भूमि-पूजन करेंगे। बीना रिफायनरी के पास पेट्रो केमिकल्स उत्पादन के लिए 50 हजार करोड़ का निवेश होने जा रहा है। प्रदेश में डेढ़ लाख करोड़ का निवेश और होने वाला जिससे तीन लाख लोगों को रोजगार मिलेगा।

मुख्यमंत्री शिवराज सिंह चौहान ने यह जानकारी राज्य सरकार की जनकल्याणकारी योजनाओं की जानकारी देने वाले विकास रथों को रवाना करने के बाद दी। ये विकास रथ आमजन को अवगत कराने के लिए श्रवित किया है- विकास रथों की थीम पर आधारित हैं। विकास रथों को जिलों की यात्रा के लिए रवाना किया। यह रथ ग्रामीण और नगरीय क्षेत्रों में 40 दिन तक भ्रमण करेंगे। प्रदेश

में कुल 127 विकास रथ चलाये जा रहे हैं।

हमारी सरकार ने प्रदेश को विकसित राज्यों की पंक्ति में लाकर खड़ा किया है

मुख्यमंत्री चौहान ने इस अवसर पर कहा कि यह प्रसन्नता का विषय है कि हमारी सरकार ने प्रदेश को देश के विकसित राज्यों की अग्रिम पंक्ति में खड़ा कर दिया है। हमारी सरकार की अनेकों उपलब्धियाँ हैं, यह हमारा कर्तव्य है कि हम प्रदेशवासियों को यह बताएं कि प्रदेश के विकास और जन-कल्याण के लिए हमने क्या-क्या कार्य किए हैं। हमारे विकास रथ हमारी उपलब्धियों और रिपोर्ट कार्ड को जनता के सामने रखेंगे। सड़कें, सिंचाई की व्यवस्था, अर्थव्यवस्था की प्रगति, शिक्षा, स्वास्थ्य, बिजली के प्रबंध आदि हर क्षेत्र में प्रगति हुई है। गाँव-शहरों का विकास, फसलों का उत्पादन, प्रदेश में आने वाला निवेश निरंतर बढ़ा है। प्रचार रथ के द्वारा राज्य सरकार की उपलब्धियों का प्रदर्शन किया जाएगा।

पीएफसी ने असम पेट्रोकेमिकल्स लिमिटेड के साथ समझौता ज्ञापन पर हस्ताक्षर किए

वैभव न्यूज़ ■ नई दिल्ली

पावर फ़ाइनेंस कॉर्पोरेशन लिमिटेड (पीएफसी) और असम पेट्रोकेमिकल्स लिमिटेड (एपीएल) ने अपने 11 मेगावाट कैप्टिव पावर सहित 500 टन प्रति दिन (टीपीडी) मेथनॉल संयंत्र के कार्यान्वयन के लिए 1,229 करोड़ रुपये के सावधि ऋण का विस्तार करने के लिए सोमवार को एक ऋण समझौते पर हस्ताक्षर किए। नामरूप में संयंत्र (सीपीपी) और असम राज्य के बोइटामारी में उनके कैप्टिव 0.90 मेगावाट बिजली संयंत्र सहित 200 टीपीडी फॉर्मेलिन संयंत्र, 1,827 करोड़ रुपये की अनुमानित परियोजना लागत पर 11 मेगावाट सीपीपी सहित

500 टीपीडी मेथनॉल संयंत्र का उद्घाटन भारत के प्रधान मंत्री द्वारा किया गया था। 14 अप्रैल, 2023 को पूरा होने पर। 200 टीपीडी फॉर्मेलिन प्लांट सहित परियोजना, 31 मार्च, 2024 तक वाणिज्यिक संचालन शुरू करने वाली है। हस्ताक्षर पीएफसी कार्यालय, नई दिल्ली में एक समारोह में पीएफसी अधिकारियों परमिंदर चोपड़ा,

सीएमडी, राजीव रंजन झा, निदेशक (परियोजनाएं) की उपस्थिति में हुए, मनोज शर्मा, निदेशक (वाणिज्यिक), एचके दास, ईडी (प्रोजेक्ट्स) और एपीएल अधिकारी बिकुल चौधरी। डेका, अध्यक्ष, रजनेश गोगोई, प्रबंध निदेशक प्रमोद कुमार प्रसाद, निदेशक (वित्त), पीएफसी और एपीएल के अन्य अधिकारियों के साथ।

14 सितंबर को फिर सागर आ रहे प्रधानमंत्री 50 हजार करोड़ से बीना रिफाइनरी का विस्तार, मोदी करेंगे भूमि पूजन

विशेष संवाददाता | भोपाल

प्रधानमंत्री नरेन्द्र मोदी 14 सितंबर को बीना के बीपीसीएल प्लांट में पेट्रो केमिकल परिसर में 50 हजार करोड़ रुपए से होने वाले विस्तार का भूमि-पूजन करेंगे। इससे पहले वे 12 अगस्त को सागर में संत रविदास मंदिर का भूमि पूजन कर चुके हैं।

मुख्यमंत्री शिवराज सिंह ने बताया कि रिफाइनरी के विस्तार से प्रदेश में डेढ़ लाख करोड़ का निवेश होगा। तीन लाख लोगों को रोजगार मिलेगा। इस मौके पर मोदी बीपीसीएल फैक्ट्री में प्रदर्शनी का अवलोकन भी करेंगे। उसके बाद सभा स्थल पर मौजूद व्यक्तियों को संबोधन देंगे। पीएम की सभा के

आत्मनिर्भर भारत योजना के तहत प्रोजेक्ट तैयार

रिफाइनरी में पेट्रोकेमिकल कॉम्प्लेक्स का निर्माण होगा। विस्तार का यह काम 5 साल में पूरा होगा। आयात पर निर्भरता घटाने के लिए प्रोजेक्ट की योजना आत्मनिर्भर भारत के तहत बनी थी। यहां इंटीग्रेटेड रिफाइनरी, क्रेकर कॉम्प्लेक्स और पेट्रोकेमिकल कॉम्प्लेक्स होगा। विस्तार पूरा होने से रिफाइनरी की क्षमता बढ़कर 7.8 एमएमटीपीए हो जाएगी।

लिए हड़कल गांव के पास खाली पड़ी रिफाइनरी की 55 एकड़ जमीन पर तैयारियां जोरों से चल रही हैं।

महानगर गैस लिमिटेड ने लांच किया "एमजीएल सीएनजी महोत्सव"

महानगर नेटवर्क

मुंबई
भारत की विशालतम शहरी गैस वितरण (सीजीडी) कंपनियों में एक, महानगर गैस लिमिटेड (एमजीएल) ने नए कंप्रेसड नैचुरल गैस (सीएनजी) वाहनों की खरीद के लिए और मौजूदा पेट्रोल या डीजल वाले वाहनों में सीएनजी की रिट्रोफिटिंग के लिए मुंबई, ठाणे और रायगड जिले में एक नई स्कीम 'एमजीएल सीएनजी महोत्सव' का शुभारंभ किया है।

कारों तथा कमर्शियल सीएनजी वाहनों की खरीदारी पर पाई जा सकनेवाली इस स्कीम को इसीलिए लांच किया गया है ताकि एक स्वच्छ

और हरित एनर्जी, सीएनजी के उपयोग को अधिक प्रोत्साहन दिया जा सके।

महानगर गैस लिमिटेड ने नए सीएनजी वाहनों को बढ़ावा देने के लिए ओईएम और गुणवत्तापूर्ण रिट्रोफिटमेंट को बढ़ावा देने के लिए अग्रणी सीएनजी किट वितरकों के साथ साझेदारी की है। यह आकर्षक स्कीम चुनिंदा मॉडल्स की नई सीएनजी कार के मालिकों को रु.19,999/- मूल्य के सीएनजी फ्यूल कार्ड्स प्रदान करती है और नए कमर्शियल वाहन के खरीदारों के लिए वाहन के मॉडल के आधार पर रु.दो से पांच लाख तक के इंसेंटिव प्रदान करती है।

पीएम मोदी 14 सितंबर को मप्र को देंगे सौगात

भोपाल। प्रधानमंत्री नरेन्द्र मोदी
एक बार फिर मप्र को एक बड़ी

सौगात देने जा
रहे हैं। इससे
प्रदेश का
विकास तो होगा
ही साथ में तीन
लाख लोगों को
परोक्ष व अपरोक्ष

रूप से रोजगार मिलेगा। पीएम 14
