

### MOU—GAIL

GAIL & Petron Scientech Inc (Petron) have inked a MoU to jointly explore setting up of a 500 Kilo Tons per Annum (KTA) bio-ethylene plant along with its downstream unit(s) in India, based on bio-ethanol produced in the plant in a 50:50 Joint Venture (JV) mode. Sumit Kishore, ED (Business Development & Exploration & Production), GAIL & Yogi Sarin, CEO, Petron signed the non-binding MoU yesterday in the presence of Rajeev Kumar Singhal, Director (Business Development), GAIL. In line with the MoU, GAIL and Petron will jointly undertake feasibility studies to ascertain technical viability & financial prospects of the project. Both the parties endeavour to secure investment approval from their respective management for investment in the project & forming a JV company.

## **DVC bags Champions Trophy at XLRI Jamshedpur**

DVC participated in the “HR for the Greater Good Conclave 2024: Celebrating the best HR Practices “ organised by XLRI Jamshedpur from 26 to 27 August.

The event served as a remarkable platform bringing together thought leaders, HR professionals, organisational leaders, HR professionals and academicians for exchanging ideas on sustainable HR practices across Central Public Enterprises (CPSEs), focusing on HR's role in Social Responsibility, Employee Well-being,

High Performance Work Systems, Governance and Ethics and Environmental Performance.

DVC bagged the Winner's trophy in the category of “Celebrating the Best Practices in Corporate Sustainability” at the conclave.

The conclave witnessed participation from various prominent organizations pan India, like NTPC Ltd., Grid Controller of India Ltd., C-DAC, NLC India Ltd., Coal India Ltd., IOCL, Gail (India) among others.
